

HOUSE JOURNAL

Wednesday, 1 Jan 75

The House met at 11:00 o'clock.

On the first Wednesday in January in the year of our Lord, one thousand nine hundred and seventy-five, being the day designated by the Constitution for assembling of that body, the one hundred and forty-fourth General Court of the State of New Hampshire convened at the Capitol in the City of Concord, and the representatives-elect were called to order by J. Milton Street, Clerk of the House for the preceding session.

Prayer was offered by Rev. William H. Marsell of Gilmanton.

Almighty and everlasting God, our heavenly Father, Who with Thy strong arms and sleepless vigilance art willing to guide those that look to Thee for wisdom, Who in former times directed our leaders of Government and in Whose hands now are the issues of mankind and of nation, we bow in humble reverence before Thee, and with grateful hearts acknowledge Thy manifold blessings to us as a people.

As we face the prospect of another year with all the uncertainty, the duty and the necessity that it brings, we pray Thee to prepare us for the coming days. Enlighten our darkness and strengthen our weakness.

Thou God of light and truth in these strangely tangled times when confused cries echo throughout the world, we pray for strong leadership.

We rejoice in the tokens of Thy favor which have been our portion hitherto and now, since our forefathers laid the foundations of this State. We humbly beseech Thee that we may always prove ourselves a people mindful of Thy power and do Thy will.

To those who sit in seats of authority impart purity of motive, right judgment in counsel, direction in administration, and to the people of this State grant loyalty, industry and godliness, that all things may tend to the healing of divisions, the establishment of peace and harmony for the best good of everyone.

Do Thou bless our State with honorable industry, sound learning and pure religion. Defend our liberties and preserve our unity. Save us from violence, discord and confusion, from pride and arrogance and from every evil way.

For the great power entrusted to these leaders, for fidelity of those set in authority and the peace maintained by righteous laws, for protection from outward dangers and deliverance from inward strife for an honorable place among the states and the opportunity of service to the nation, keep Thou this Commonwealth beneath Thy care and guide the State according to Thy will.

In the name of the Father, the Son and the Holy Spirit. Amen.

Reps.-elect Rebecca Gagnon and Belcourt led the Pledge of Allegiance.

(Speaker in the Chair)

Rep. Spirou congratulated the House Speaker.

Speaker Roberts presented Mr. O'Neil a gavel.

The Speaker addressed the House as follows:

INAUGURAL ADDRESS—SPEAKER OF THE HOUSE

George B. Roberts, Jr.

Mr. Temporary Chairman and Members of the House, again I want to thank my family, my friends and supporters for having the patience and faith in my candidacy for Speaker of the House. Former speakers James O'Neil, Marshall Cobleigh, Walter Peterson and Senator Norris Cotton have all told me that the road to the Speakership would be paved with humility. This I have found to be true.

As House Majority Leader I worked with everyone but my real role was to organize and reflect the wishes of the Majority Party. As your Speaker, I will work with everyone and my primary role will be to organize and reflect the wishes of the entire membership. As long as we choose to work in this nation by political parties, a House Speaker will come from one party or the other, but as I look at the membership today I do not see the membership as Republicans or Democrats . . . I see a single body—The House of Representatives of the State of New Hampshire. It is now my responsibility as Speaker to serve this body and I pledge to do so to the best of my ability.

Within this Legislature there will always be legitimate differences of opinion. For the real purpose of a legislature is to provide a formal process for resolving conflicts always present in a free society. As your presiding officer I intend to keep this process formal and to maintain courtesy and decorum at all times. Unless otherwise ordered by the House, I will rule in such a manner to guarantee respect in this institution. All members should have an equal opportunity to debate in a floor debate, and I will ask chairmen of committees to schedule committee sessions in the mornings only so that all members will be present for a proper quorum. As your presiding officer I will start the sessions on time and on most legislative days convene the House at 12:30 for the routine business and begin the debate by 1:00 o'clock.

As your presiding officer, the Speaker will be the impartial protector of your rights. When the House is in session we are more than mere individuals. Each is a public office holder and each has a constitutional and statutory right to be heard and to be treated with the respect that the position should command. While the members might be divided on issues from now until July, we will always express these differences within the restraint of rules of decorum and respect for each other.

A speaker of a legislative body has many roles. The role most visible is presiding officer, but the speaker has many other duties to perform.

In the role as a general manager, the Speaker's position is one which has evolved through the traditions of western political thought. Throughout free nations legislative bodies organize by choosing a leader and giving that leader sufficient authority to manage. The members then hold their leader responsible for the exercise of that authority. Without the proper authority, it would be impossible to manage and responsibility would be hard to establish.

This legislative tradition survives because it has proven to be effective. As your speaker I shall exercise that authority that you delegate to me. In the process I shall consult with all factions and specifically with the leadership of the Minority Party but . . . decisions will be as your Speaker and I expect you to hold me responsible for them.

After adjournment of today's session, I plan to meet and consult with the Minority Leader concerning committee assignments. To the fullest extent possible members will receive their first choice. This will not always be possible because many members of the House recognize that certain committees in the past have appeared to be more popular than others, and because we are limited to 23 members on each committee.

As your Speaker, in some cases the wishes of an individual member cannot be the sole consideration for making these appointments. In the role as general manager of the House the Speaker must carefully balance the strength of experienced members with the fresh viewpoints of new members. The Speaker, in fairness to the House as a

whole, must see that each committee includes spokesmen for both sides of controversial issues which will come before the House.

With these considerations in mind, appointments will be made in consultation with the Minority Leader and without prejudice. However, they will be the Speaker's appointments subject as always to the will of the House.

There will be no unimportant committees this session. I hope we can re-vitalize those committees, which in the past have lost their popularity or those who were inactive. As an example, I see the committee on Claims, Military and Veterans Affairs expanding its duties to become more knowledgeable about our State National Guard, National military installations within the State, the National Defense Act and the Natural Disaster Act of 1973. Likewise, I see the committee on Statutory Revision playing a very active role in election reform. I see the Ways and Means Committee as an important committee in giving the House guidance on how to pay for state services.

In short, I see each committee assignment as an active and important one and I will do my best to make sure that your time is well spent—challenging and productive.

A third major role of the Speaker is to propose improvements in the legislative process which will benefit the House. This too, is a traditional role and as members of the 144th General Court we will be the first to benefit from some of these improvements.

You have already been introduced to the electronic roll call system which will spare so many hours. During this session we will have the use of an automatic bill status retrieval system located in the House Clerk's Office and in the Sergeant-at-Arms Room for access to all members. There will be suggestions of other innovations using modern technology which I hope this House will consider as it struggles with the problems of the 20th century.

During this session we will be faced with major inconveniences caused by the lack of proper office space. However, we will also be the last legislative session to operate under that handicap. The Legislative Office Building will be open for our use in the late summer. In the event of a Special Session, not unlikely in recent years, we will be the first legislature to use the facilities specifically designed to meet legislative needs. During this session requests to equip the Legislative Office Building will come before you and I would hope that you would support these requests so history will record this legislature as making a major contribution to legislative improvement.

Likewise, we will also be the last legislature to face severe parking problems. While the Legislative Office Building will provide parking for 120 vehicles I will ask for your support to provide for additional parking facilities outlined in House Bill 5, a bill jointly sponsored by leaders from both parties, which will appropriate additional dollars for a 200 car parking facility located in Concord both to meet our needs and to keep our commitment with the City of Concord.

During our two year term we will be asked to deal with great demands on state government because of economic and social uncertainty. While the Constitution limits us to 90 days this should be our only limitation.

Hard work is the first prerequisite for a productive session but we must have additional tools to assist committees and individual members if we are to meet this challenge with equity and compassion.

As a first step in providing you with these tools, I will today establish a secretarial pool for the use of the entire membership. You will find in Room 313 three secretaries who will be hired on a merit basis after interviews conducted by the personal secretaries of the minority leader and speaker. This steno pool is there to serve you. Their first priority will be to assist you with committee reports and committee correspondence without regard to your political party or position of leadership. Their second priority will be to assist you in your capacity as an individual house member with correspondence to constituents and state agencies. This service will be available to every member on a first come—first serve basis.

As your Speaker, I shall submit other proposals designed to improve the internal operation of the House. Your support of these proposals will be solicited and your suggestions will be received with respect. An opportunity to effect change and improve our legislature will be open to every member of this House.

Past speakers have from time to time proposed substantive and procedural programs. In my capacity as Speaker, I shall introduce only those measures which will serve the concerns we have in common. As a member of the House with a

legislative district, I must fulfill my duty to the citizens who sent me here and I will sponsor legislation mindful of my constitutional duty.

These then, are the three primary roles of the Speaker as we in New Hampshire have come to know them—presiding officer, general administrator and House leader.

All three of these roles have a history and all three are accepted as the Speaker's role throughout western political tradition. We Americans are junior partners in this legislative tradition—a tradition which has guided us for almost 200 years.

Most of the decisions made here are the product of individual judgment and as such are difficult to categorize in terms of party designation or philosophic groups. To a surprising degree we operate by consensus although our rules are careful to provide for other alternatives. Those who elected us describe this fact when they tend to say that "The House did so and so," instead of attributing it to individual members or to a particular party.

Because this is so, I believe an emerging fourth role of the Speaker is to act as spokesman for the House.

Whenever we, as a House, pass needed reforms, resolve conflicting demands, respond to the concerns of the people, then we, as a House, should be credited with this accomplishment and the Speaker acts as its spokesman to maintain its position.

In the final analysis, we are not merely a debating society of 400 with separate parochial viewpoints. We are a single body here to work together for the good of all. We are a single body whose whole can be greater than the sum of its parts. We are the New Hampshire House of Representatives, and I am truly honored to be its Speaker.

Thank you for your courtesy, your support and may the 144th Session of the New Hampshire General Court be recognized as the session that finally made the Legislature co-equal with the Judicial and Executive Branches.

Rep. Lawton moved that the remarks of the Speaker be printed in the Journal.
Adopted.

RULES OF THE HOUSE

THE DUTY OF THE SPEAKER

1. The Speaker shall take the chair at precisely the hour to which the House shall have adjourned, and shall immediately call the members to order and the members shall take their seats. They shall activate their voting station as soon as they take their seats; when they leave their seats for any reason they shall deactivate their station.

2. He shall preserve decorum and order, may speak on points of order in preference to other members, rising for that purpose, and shall decide questions of order, subject to an appeal to the House by any two members, which appeal shall be decided by a majority vote of the members present and voting.

3. There shall be three forms of putting the question, to wit: "As many as are of the opinion (as the case may be) say aye"; and after the affirmative vote is expressed, "Those of a contrary opinion say no". If the speaker doubts the voice vote or a division is called for, each member shall, at his voting station, press the yes or no button when the speaker calls for the vote. When the speaker closes the vote he shall rise and state the decision of the House. When a division has been requested or when a roll call vote has been moved and sufficiently seconded by five members, the speaker shall put the question and open the voting for not more than thirty seconds. Each member at his voting station, shall press the yes or no button unless excused by the House for a special reason.

A member who is to be absent when a question is put may pair his vote with another member also to be absent, who intends to vote on the opposite side of the question. Pairs shall be permitted only if a roll call is taken on such question. Both members shall file such pair in writing with the Clerk before the question is put. In all cases of pairing, the vote of neither member shall be counted in determining the result of the roll call; but the Clerk shall announce all pairs and shall enter them on the Journal.

4. All committees shall be appointed by the Speaker unless otherwise directed by the House, provided the membership on all standing committees of the House shall be divided between the two major political parties in the same proportion that the membership of the House belonging to the majority party bears to the House membership of the minority party. No member shall serve on more than two standing policy committees. The appointments to committees for the majority party shall be made by the Speaker and appointments to committees for the minority party shall be made by the Speaker with the advice of the duly appointed minority party floor leader. Notwithstanding the provisions of this rule, the Speaker and the minority party floor leader may agree upon a different proportion for the membership of any particular committee.

5. The Speaker, unless otherwise ordered by the House, shall refer to the appropriate committees all bills, resolutions, memorials, petitions, accounts, and other matters coming before the House, and upon recommendation of the Committee on Rules may refer the same jointly to two committees or to a special committee.

6. The Speaker shall not be called upon to vote unless the House be equally divided, or unless his vote, if given to the minority, will make the division equal; and in case of such equal division the question shall be lost.

7. All bills, resolutions and addresses, after passage, shall be signed by the Speaker and all warrants, subpoenas and other processes issued by order of the House shall be under his hand and seal attested by the Clerk.

8. In case of any disturbance or disorderly conduct in the galleries, the Speaker or chairman of the committee of the whole house shall have the power to order the same to be cleared.

9. No person but the members and officers of the House, the Governor, members of the Council and members of the Senate, the Secretary of State, Treasurer, and Clerks of the Senate shall be admitted within the door of the Representatives' chamber while the House is in session except on invitation of a member who shall obtain guest cards from the Speaker, the Clerk, or the Assistant Clerk, except in public hearings, parties, their counsel and witnesses under the direction of the Speaker. No lobbyist, department head or other non-member who is closely connected with legislation pending before the House shall be permitted on the floor of the House at any time; nor while the House is in session, shall any such person be permitted to be in the House Sergeant-at-Arms area.

10. The Speaker shall have power to substitute any member to perform the duties of the Chair, if the Speaker is absent, the Speaker shall designate a member to perform the duties of the Chair unless otherwise ordered by the House.

11. When any member is about to speak in debate, make a motion, or deliver any matter to the House, he shall rise from his seat and respectfully address himself to the Speaker, declaring as he does the purpose for which he rises to speak.

12. If any member transgresses the rules of the House, the Speaker shall, or any member may, call him to order; in which case the member so called to order shall immediately sit down, and the question of order shall then be distinctly stated from the chair, and the House if appealed to, shall decide the case by a majority vote of the members present and voting, but if there is no immediate appeal, the decision of the Speaker shall be conclusive.

13. In all cases the member first rising shall speak first. When two members rise at the same time, the Speaker shall name the person to speak. When many members choose to speak they may file their names with the Clerk who will supply the list to the Speaker who shall name the order in which they shall speak.

14. No member shall speak more than twice on the same question without leave of the House; nor more than once until every member choosing to speak shall have spoken.

15. While the Speaker is putting a question or addressing the House, no one shall walk out of or across the House and while a member is speaking, no one shall pass between him and the chair nor entertain private discourse, nor shall any member leave his seat while the voting machine is in use.

No person, including members of the House, except law enforcement officers while actively engaged in carrying out their duties as such, shall carry or have in his possession any firearm while he is in the House Chamber, anterooms, cloakrooms, or any portion of the State House adjacent to any of the above. Any person in violation of this rule shall be subject to ejection from any such premises on the order of the Speaker and disciplinary action and arrest or both by action of the House.

Nothing in this Rule shall indicate that the Security officer appointed by the House under Rule 56 has the right to stop and search a member of the House on the premises of the House.

16. No member shall vote on any question in which he is directly interested; nor in any case where he was not present when the question was put; nor sit upon any committee when he is directly interested in the question under consideration. If a member takes this rule for purposes of voting, he shall so inform the Clerk, who shall so inform the House. In case of such interest of a member of a committee, the fact shall be reported to the House, and another person may be substituted on that question in his place.

17. (Refer to new House Rule No. 3.)

18. Before any petition shall be received and read, the substance of the same in concise form, the name of the member or person presenting it and his district shall be recorded thereon; and the Speaker shall state the substance of the petition.

19. After a motion is stated by the Speaker, it shall be in possession of the House, but may be withdrawn at any time before an amendment.

20. When any question is under debate, no motion shall be received, but, first, to adjourn; second, to lay upon the table; third, for the previous question; fourth, to postpone to a certain day; fifth, to commit; sixth, to amend; seventh to postpone indefinitely; which several motions shall have precedence in the order in which they

are so arranged. Motions to adjourn, to lay upon the table, for the previous question, and to take from the table shall be decided without debate. Motions to postpone to a certain day shall be debatable both as to time and subject matter.

(a) In all cases not provided for by the Constitution, the rules of the House or the Joint Rules, "Mason's Manual of Legislative Procedure" shall be referred to as the primary guide.

21. The Speaker shall put the previous question in the following form; "Shall the main question now be put?" and all debate upon the main question shall be suspended until the previous question has been decided. After the adoption of the previous question, the sense of the House shall forthwith be taken upon pending amendments, in their regular order, and then upon the main question. The motion for the previous question shall not be put unless demanded by three members.

22. All incidental questions of order arising after a motion for the previous question and related to the subjects affected by the order of the previous question shall be decided without debate.

23. If the previous question is decided in the negative, it shall not be again in order for the particular question under consideration until after adjournment, but the main question shall be left before the House and disposed of as though the previous question had not been put.

24. When a question is postponed indefinitely the same shall not be acted upon during the same session except whenever two-thirds of the whole number of elected members shall, on division taken, vote in favor thereof.

25. Any member may call for a division of the question when the sense will admit it; and upon a motion to amend, the refusal by the maker of the amendment to strike out words shall neither preclude amendment to such words nor a motion to strike out and insert.

26. A motion for commitment, until it is decided, shall preclude all amendments to the main question; and all motions and reports may be committed at the pleasure of the House.

27. No new motion shall be admitted under color of amendment as a substitute for the motion under debate.

28. (a) No vote shall be reconsidered unless the motion for reconsideration is made by a member who voted with the prevailing side and while the bill or resolution is in the possession of the House.

(b) Notice of a motion for reconsideration shall be in order only when given to the House in open session prior to adjournment on the same day on which the vote was passed or on the next day on which the House shall be in session within one-half hour after the convening of the early session and any such notice of reconsideration shall be effective for three legislative days only and thereafter shall be null and void.

(c) When notice of reconsideration is received by the House, the Clerk of the House shall hold the bill or resolution relative to which such notice has been served until the expiration of the time within which such notice is effective.

29. When the reading of a paper or a document is objected to by a member, the question shall be determined by a vote of the House without debate.

30. Each member shall reasonably and punctually attend to his duty in the House or Committee, and no one shall absent himself from the service of the House or Committee unless he have leave, or be sick and unable to attend.

31. The Speaker shall appoint a teller for each division of the House, whose duty it shall be to report to the Chair the state of the vote, whenever a division of the House is called for.

No such resolutions or activities shall be brought before the House unless they are approved by the Subcommittee. Any such resolutions or activities brought before the House with the approval of the Subcommittee shall be scheduled so as not to interfere with the official business of the House. The term "non-legislative activities" shall include the introduction of House guests, seat pocket insertions and journal announcements. The Subcommittee shall also examine all proposed legislation filed with Legislative Services to prevent, where possible, the duplication of bills or resolutions of a similar nature or content.

They may consider and report periodically to the House upon such other subjects concerning the financial interests of the state as may be appropriate; and such other matters as may be referred to it.

33. The standing committees, or any special committee, shall meet during the sessions at the respective committee rooms at such times as the committee may determine, unless the House shall otherwise order; and no committee shall sit during the sitting of the House unless the Speaker shall consider it necessary. The committees shall promptly consider and report on all matters referred to them. The Speaker may authorize any committee having a heavy load of work to meet as needed on non-legislative days, provided however that no public hearings may be held on such days without prior approval by the House.

34. The first named member of any committee appointed by the Speaker shall be chairman; and in case of his absence or being excused by the House the next named member, and so on, as often as the case may happen, unless otherwise ordered by the Speaker.

35. When any committee shall report otherwise than by bill, they shall, if the subject permit, submit with their report resolutions calling for such action as the committee shall recommend.

36. Whenever it shall not be convenient for any standing committee to attend properly to all the business which may be properly referred to it, the Speaker may, on a vote of the House to that effect, appoint an additional committee on the same subject, to consist of the same number of members as the original committee, whose duty it shall be to take into consideration all matters in relation to that subject which shall be referred to it by the House, and to report thereon.

OF BILLS

37. All petitions, memorials and other papers addressed to the House and all bills and resolutions to be introduced in the House, shall be endorsed with the name and the district of the person presenting them and with the subject matter of the same. Every bill shall be marked on the first page "House Bill" and numbered serially; every joint resolution shall be marked "House Joint Resolution" and numbered serially; every concurrent resolution proposing a constitutional amendment shall be marked "Concurrent Resolution Proposing a Constitutional Amendment" and numbered serially; and every other concurrent resolution shall be marked "House Concurrent Resolution" and numbered serially, as each bill or resolution is introduced into the House.

38. All petitions, memorials and other papers addressed to the House and all bills and resolutions to be introduced in the House shall be delivered or caused to be delivered to the Office of Legislative Services by the person presenting them. Legislative Services shall prepare the bills, resolutions, petitions, memorials and other papers in proper form and shall present the same to the member for signature. Legislative Services shall give precedence in drafting legislation to any measure which carries an appropriation and all such legislation shall be prepared for signature by the sponsor by March 1.

During any adjournment the Speaker may receive bills and resolutions for printing and for reference to committee; provided that no bill shall have a public hearing until it is formally introduced into the House. The Speaker shall take up all bills and resolutions for introduction at the early session.

39. All joint resolutions shall be treated in the same manner as bills.

40. Every bill and joint resolution shall have three several readings in the House previous to its passage. The first and second readings and referral to committee shall be by title only which may be accomplished by a conglomerate resolution, after which the bill shall be referred by the Speaker to the appropriate committee and shall be printed as provided in Rule 42, unless otherwise ordered by the House. No bill

after it has been read a second time shall have a third reading until after adjournment from the early session. The time assigned for the third reading of bills, resolutions and joint resolutions shall be in the late session unless otherwise ordered by the House. The orders of the day for the reading of bills shall hold for every succeeding day until disposed of.

41. No amendment shall be made but upon the second reading of a bill; and all amendments to bills shall be in writing, with the name of the member and the district he represents thereon.

(a) No amendment that is not germane to the subject matter of the bill or resolution or joint resolution or concurrent resolution shall be added to any bill or resolution or joint resolution or concurrent resolution.

42. After every bill shall have been read a second time, and referred by the Speaker to the appropriate committee, the Clerk shall procure a sufficient number of copies, printed on paper of uniform size, for the use of the legislature, and cause the same to be distributed to the members, and when printed the bill shall be immediately delivered to the committee to which it shall have been referred. Bills received from the Senate shall be printed at the same stage of their procedure unless they have been printed in the Senate and copies distributed in the House, in which case any amendment made by the Senate shall be duplicated and distributed in the House.

43. A hearing shall be held upon each bill referred to a committee, and notice of such hearing shall be advertised at least two days in the Calendar of the House. When requested by the President of the Senate, the Speaker may authorize and direct the appropriate House Committee or committees to sit with the appropriate Senate committee or committees at a public hearing of any Senate bill, and no further public hearing on such bill shall be required when such bill is subsequently received in the House from the Senate.

The hearing provided for by this Rule shall be held upon each bill referred to a committee within twelve legislative days of such referral, not counting for the purposes of this Rule any legislative days prior to the distribution of printed copies of such measure. The Clerk shall keep an accurate record of the date of distribution of printed copies of each bill and shall notify the Speaker whenever twelve legislative days have passed. The Speaker shall then revoke the reference of such measure to committee and shall place such bill before the House for action, upon giving notice of three legislative days in the Calendar of the House. A committee hearing held on or before the expiration of such three-day notice period shall take precedence over the order of the Speaker. Whenever it shall not be convenient for any committee to hold a hearing on a bill within twelve legislative days, the committee may ask the House for extensions of time with regard to that particular bill. Each extension of time shall not exceed six legislative days and shall take precedence over action by the Speaker. This rule shall not apply to bills assigned to the Appropriations Committee or to the Ways and Means Committee.

44. When a bill is reported favorably with an amendment, the report of the committee shall state the amendment and then recite the section of the bill in full as amended. The amendment, if the change is material, shall be printed in the calendar of the House on or before the date that the report of the committee is listed for action, and the listing shall include the appropriate reference to the date and page of such printing in the Calendar. All bills otherwise reported shall be laid upon the table and shall not be finally acted upon until the following legislative day, and a list of such bills with the report thereon shall be published in the Journal or proceedings for the day on which they were reported.

45. All bills and joint resolutions appropriating state money which have been favorably reported from any committee, except those from the Committee on Claims, Military and Veterans Affairs which appropriate for a claim against the state, shall be referred to the Committee on Appropriations. If any such bills or resolutions have been referred jointly to the Committee on Appropriations and another standing committee, the Committee on Appropriations may report separately and no further hearings shall be required by the Committee on Appropriations.

46. No request by a member of the House for drafting a bill or resolution providing for new state revenue, for a change in any existing state revenue statute, or containing an appropriation, other than the general budget or the capital budget bill,

shall be accepted by the Legislative Drafting Service for processing unless the subject matter of the legislation, with complete information as to details, has been filed with said Service no later than the twelfth legislative day and any such bill or resolution may not be introduced into the House later than March first.

47. No standing rule of the House shall be suspended unless two-thirds of the members present vote in favor thereof. The above rule shall not apply to House Rule 24.

48. No rule shall be rescinded unless two days notice of the motion has been given and two-thirds of those present vote therefor.

OF THE COMMITTEE OF THE WHOLE HOUSE

49. The House may resolve itself into a committee of the whole House at any time on the motion of a member made for that purpose; and in forming a committee of the whole House the Speaker shall leave the chair, and a chairman to preside in committee shall be appointed by the Speaker.

50. Upon bills and resolutions committed to a committee of the whole House, the bill or resolution shall first be read throughout by the Clerk, and then again read and debated by clauses, leaving the preamble of the bill to be last considered; the body of the bill or resolution shall not be defaced or interlined, but all amendments, noting the page and line, shall be duly entered by the Clerk on a separate paper, as the same shall be agreed to by the committee and so reported to the House. After report, the bill or resolution shall again be subject to be debated and amended by clauses before a question to pass it to a third reading be taken.

51. The rules of proceeding in the House shall be observed in committee of the whole House, so far as they may be applicable, except the rule limiting the time of speaking.

ORDER OF BUSINESS OF THE DAY

52. The Speaker shall call for petitions from members of the House. The petitions having been presented and disposed of, reports first from the standing and then from the select committees shall be called for and disposed of. And the above business shall be done in no other part of the day, except by permission of the House.

53. The unfinished business in which the House was engaged at the last preceding adjournments, if called for by any member, shall have preference over all other business except the general order of the day; and no motion, or any other business except the general order of the day, shall be received without special leave of the House, until the former is disposed of.

54. Adjournment. No motion for adjournment for more than five days shall be in order unless prior notice has been given in open session at least two legislative days before the motion is offered.

PERSONNEL OF THE HOUSE

55. The elective and appointive non-member officers and personnel of the House shall be under the direction of the Speaker, who shall define the duties not fixed by statute or otherwise ordered by the House.

56. No officer or employee of the House during the session or any adjournment thereof shall purchase or contract for the purchase, pay or promise to pay any sum of money on behalf of the House or issue any requisition or manifest without first securing the approval in writing of the Appropriations Committee or such member or subcommittee of the same as said committee may designate for the purpose. The Speaker may appoint a Chief Security Officer who shall be a person trained and experienced in security matters or law enforcement work. His duties shall be, under the supervision and direction of the Speaker, to prevent the deliberations of the House from being disrupted or interfered with by any person or persons not members thereof. No employee or attache of the House Sergeant-at-Arms shall directly or indirectly, interest or concern himself with the passage or consideration of any measure whatsoever. If any such employee or attache so interests, or concerns himself with any measure it shall be grounds for summary dismissal.

EXPEDITING BUSINESS

57. No Committee shall be in possession of any bill for more than fifteen legislative days after its assignment to that committee, not counting for the purposes of this rule any legislative days prior to the distribution of printed copies of such

measure. The Clerk shall keep an accurate record of the date of distribution of printed copies of each bill and shall notify the Speaker whenever fifteen legislative days have passed. The Speaker shall then revoke the reference of such measure to committee and shall place such bill before the House for action, upon giving notice of three legislative days in the calendar of the House. A committee report filed on or before the expiration of such three-day notice period shall take precedence over the order of the Speaker. Whenever it shall not be convenient for any committee to attend properly to a bill within fifteen legislative days, the committee may ask the House for extensions of time with regard to that particular bill. Each extension of time shall not exceed six legislative days and shall take precedence over action by the Speaker. This rule shall not apply to bills assigned to the Appropriations Committee or to the Ways and Means Committee.

58. Any standing committee other than the Appropriations Committee to whom a bill or resolution containing an appropriation has been referred shall report such bill or resolution to the floor of the House by April first or earlier.

59. All revenue bills, whether providing for new state revenue or an amendment to existing state revenue statutes shall be reported to the floor of the House no later than June first.

60. The Speaker may designate any legislative day as a consent calendar day by giving printed notice in the journal for the two legislative days immediately preceding said day. No matter shall be acted upon on any such day except those placed on the calendar for such a day and printed in the calendar of the House for the two days immediately preceding such a day. All such matters, on a consent calendar day, shall be acted on without debate. Any member may request, on a consent calendar day, at any point in the action on any such matter that it be passed over. No further action shall be taken on said matter on that day and any action or votes taken prior to said request shall be thereby automatically rescinded. It shall be placed on the calendar for the next legislative day and shall be before the House for action on said legislative day.

61. If more than one House member requests that legislation of an involved and voluminous nature be drafted on the same subject matter, but with some variations so that the main body of each bill even though drafted separately would be practically duplicates, the Office of Legislative Services shall advise the Subcommittee on House Resolutions and Screening of such a situation. The subcommittee, after consultation with the requesting members, shall endeavor to have them co-sponsor one bill but if this cannot be achieved it may find that it is in the best interests of the House for the sake of expediency and clarity of understanding to provide for expository bills. If the subcommittee so finds, it shall direct the Office of Legislative Services to draft a model bill providing for a statute which achieves the prime purpose requested by all such members but which shall not include all the variations which any one of them has specified. Said bill shall be introduced into the House by the Subcommittee on House Resolutions and Screening as a model bill. The subcommittee shall then also direct the Office of Legislative Services to draft a bill for each of the requesting members, or for any member who at a later date requests a similar bill, in expository form only, that is to say, such bills shall not be drafted in legal or statutory form but shall explain in ordinary language and form what each such bill proposes and in such expository form they shall be introduced into the House; provided however that any member may insist on having his legislative request drafted in legal form even though the bill is also drafted in expository form. Such a model bill and all the expository bills on the same subject matter shall be referred to the same committee.

The Office of Legislative Services, unless otherwise directed by the sponsor, shall prepare a list of titles and sponsors of suggested legislation, which shall be posted prior to and during the session.

Almighty God, King of Kings and Lord of Lords, from Whom proceedeth power, dominion in heaven and on earth, we reverently bow in all humility, acknowledging our dependence upon Thee and our gratefulness to Thee for the many blessings we receive day by day.

We beseech Thee to continue to look with favor upon this august assembly of Thy servants coming from many communities and representing their constituents; the President of the United States, the Governor-elect of this State and all others elected or named to positions of authority.

O Lord God of hosts, in Whom our fathers trusted and found their faith rewarded by Thy gracious care, do Thou bless the people of this great State and Nation. We give Thee humble and hearty thanks for the lives and examples of those who serve with the highest ideals and noblest aspirations.

Fashion into one happy people all who serve, coming hither from many kindreds and places. Imbue with the spirit of wisdom those who are trusted with authority and in the time of prosperity fill our hearts with thankfulness and in the day of trouble suffer not our trust in Thee to fail.

Imbue our leaders with the spirit of understanding, goodness and truth: so rule their hearts and minds and bless their endeavors that law and order, justice and peace may everywhere become more evident.

Preserve us from tragedies and calamities, from pestilence and famine, war, conspiracy and rebellion; but especially from national sins and corruption.

Unite all the people of this great State in purpose to defend the principle of freedom and brotherhood. Help us to emulate loyalty and may there be a continuance of an enduring foundation always living true to the ideals of its founders.

Make us strong and great in the fear of God and in the love of righteousness so that being blessed of Thee, we may become a blessing to all, to the praise and to the glory of Thy grace, through Jesus Christ. In accordance with Thy divine will we pray—Amen

HOUSE CONCURRENT RESOLUTION 2

authorizing the payment of certain personnel from

December 25-31, 1974

Reps. French and Spirou offered the following:

HCR 2, authorizing the payment of certain personnel from December 25-31, 1974.

Whereas, the Constitution provides that from the last Wednesday in December in the even-numbered years until the first Wednesday in January in the odd-numbered years there is no General Court in existence which period covered the dates from December 25, 1974 through December 31, 1974; and

Whereas, during said week in order for necessary preparations to be made for the convening of the 1975 General Court, it was necessary that certain legislative employees and attaches work during that period; and

Whereas, because of the non-existence of any General Court in that period no person had the authority to pay such personnel it is necessary in order to make payment that the 1975 General Court authorize such payments.

Now Therefore Be It Resolved by the House, the Senate concurring;

That the responsible officers of the General Court be hereby authorized and directed to pay employees and attaches of the General Court who worked during the period from December 25, 1974 through December 31, 1974 inclusive the amounts they are entitled to for such employment, the total amount of said payments not to exceed \$4,000.00 and that said payments be charged against the appropriate line items of the legislative appropriation.

SUSPENSION OF RULES

Reps. Griffin and Chambers moved that the rules be so far suspended as to dispense with printing, committee reference, hearing, advertising in the calendar of HCR 2, authorizing the payment of certain personnel from December 25-31, 1974, and that the resolution be adopted.

Adopted by the necessary 2/3 vote.

NOTICE OF RECONSIDERATION

Rep. C. The President of the Senate Alf E. Jacobson administered the oath of office to His Excellency, Meldrim Thomson, Jr., and presented him with a copy of the State Constitution.

A prayer for peace was offered by Rev. George Venetos, St. George's Greek Orthodox Cathedral.

His Excellency, Meldrim Thomson, Jr., administered the oath of office to the Honorable Councilors-elect.

A prayer of Thanksgiving was offered by Rabbi Samuel Umen, Temple Adath Yeshurun.

The Governor then delivered his inaugural address as follows:

people of our State. I am determined that within the limit of my abilities we shall improve upon that record of service.

To each and every person who through the years contributed so much to make our work possible, I extend the appreciation of a grateful heart.

Two years ago I said that I would daily try to follow the wise counsel of the Prophet Isaiah who said:

"Learn to do well; seek judgement, relieve the oppressed, judge the fatherless and plead for the widow. Come now, and let us reason together."

This sage advice shall continue to be the lodestar of our administration.

With appreciation to your Historian, Leon Anderson, I am advised that this 1975 General Court has already become historic. When you convened yesterday on New Year's Day it was for a final time in a span of sixty-two years.

New Hampshire voters recently amended our Constitution so that in the future biennial sessions of the Legislature will convene on the first Wednesday after the first Tuesday of January. This new procedure abolishes an eighty-four year old requirement that the Legislature meet on the first Wednesday of January, in odd numbered years, even if it should fall on New Year's Day.

When our present Constitution became effective in 1784, it provided that the Legislature would be convened annually the first Wednesday of June, which was always free of holidays. This practice continued even after the state government, including the Legislature, went on a biennial basis in 1879.

But when the Constitution was again amended to shift legislative sessions from June to January, as of 1891, New Year's Day became a day on which the Legislature could meet. Thus, the General Court has convened on this holiday six times prior to yesterday. This first occurred in 1913, which, was the last time the Democrats controlled the Governorship, the Executive Council and both branches of the Legislature, simultaneously. Since then the Legislature has met on New Year's Day in 1919, 1941, 1947 and 1969.

Before we cast our moorings for the two year voyage ahead, let us look to the lines of our ship of state and the constitutional compass by which we steer her.

A proper understanding of our great constitution of 1784, the second oldest in the nation, is essential to the success of our voyage.

We believe in state sovereignty and the federal concept of duality that frames it.

The New Hampshire Constitution in Part I, Article 2 describes the nature of state sovereignty by proclaiming that "the people of this state have the sole and exclusive right of governing themselves as a free, sovereign and independent state" except for that power expressly delegated to the Congress.

Only in the Constitution of Massachusetts can we find a similar provision.

In the tenth amendment of the Federal Constitution, state sovereignty is affirmed by the reservation to the states of all powers not expressly delegated to the federal government.

Tragically, the clear line of demarcation of power between the state and federal governments drawn by Madison in the 45th Federalist Paper has become obscured, if not obliterated.

Madison expressed the intent of the founding fathers on this point by stating that the powers of the state governments are numerous and indefinite.

"The powers reserved to the several states will extend to all the objects, which, in the ordinary course of affairs; concern the lives, liberties, and properties of the people, and the internal order, improvement, and prosperity of the state."

Federal intrusion into states that began as a tiny stream many years ago now washes across state boundaries in a full and greedy tide of usurpation.

Who can believe that the founding fathers ever intended that an omnipotent federal government should exercise control over abortions, capital punishment, busing, schools, wages and hours of state and local employees, and levy penalties in factories without due process?

We believe that if the concept of federalism is to survive and continue to sustain our freedom, we must have a new delineation of those sovereign powers that belong to the state and those delegated to the federal government.

With this in mind I have asked the Attorney General to find support from other states for an action against the federal government that might sharply define the division of powers between state and federal government.

In New Hampshire we firmly believe that all power is derived from the people.

In our constitution we reiterate this belief several times.

INAUGURAL ADDRESS
of
MELDRIM THOMSON, JR.
Governor of New Hampshire

Mr. Speaker, Mr. President, Members of the General Court, distinguished guests, ladies and gentlemen:

I come here today to account faithfully for my stewardship for the past two years and humbly to accept the challenge of a second term as Governor of our sovereign State of New Hampshire.

I am deeply mindful of the great opportunity that has been mine to serve the State, it is essential that we constantly remind ourselves that each of us sought and were granted the privilege of serving our people—not ruling them.

To this end we might each adopt as the high purpose of our term of service here the sentiment expressed in that finest of all provisions of our Constitution: namely, Part I, Article 38, that reads:

“A frequent recurrence to the fundamental principles of the Constitution, and a constant adherence to justice, moderation, temperance, industry, frugality, and all the social virtues, are indispensably necessary to preserve the blessings of liberty and good government; the people ought, therefore, to have a particular regard to all those principles in the choice of their officers and representatives, and they have a right to require of their lawgivers and magistrates, an exact and constant observance of them, in the formation and execution of the laws necessary for the good administration of government.”

We are here to serve the people. Let us do it well that freedom might continue to flourish in our land.

Our economy today is much like that which faced the Pharaoh of Ancient Egypt when Joseph interpreted for him his dream of the seven kine and seven ears of corn. We have had in America and in many countries of the world several years of prosperity, growth and attendant inflation. Now we are caught up in a time of recession.

The affects of our recession have thus far been less disastrous than in the rest of the nation or most of the world. However, New Hampshire is not an island unto itself, and the economic waves that wash the other states eventually reach us also.

The problems generated by the world-wide recession will consume here in the State House most of our labor in the months ahead.

For the first time in several decades unemployment at the national level has spilled over past norms.

Across America the percent of unemployed persons is pushing seven and the number of persons unemployed is more than six million. Both of these figures will surely go higher until we recognize that there can be no such thing as a little bit of uncontrolled recession.

Just as escalating inflation, if unchecked, ultimately brings bankruptcy, so will unbroken recession move eventually into depression.

America has suffered a number of recessions and several depressions in its two hundred year history. Not one of these economic ills was cured by slogonizing on through public spending panaceas.

The chicken in every pot and the assurance that prosperity was just around the corner of the Hoover days in the great depression was no more effective in restoring economic normalcy than was the Rooseveltian admonition that we had nothing to fear but fear itself.

With all due respect to President Ford, the “WIN” acrostic, whether spelt forwards or backwards, will not add one job to the nation's economy.

The cure for our present recession is not more federal taxes such as the balloon-tested gasoline tax and surtax, which happily the President says he has now abandoned.

Nor will the antidote be found in deficit public spending such as the recently enacted public assistance act that will pump four and a half billion more into an already swollen bureaucracy, nor eight additional billion dollars of deficit spending for unemployment benefits.

Very little of public works monies ever reach the pockets of the average taxpayer. In the long run the creation of new public jobs in a time of recession only add to the problem because they contribute to the total indebtedness without creating new wealth.

What is needed from Washington far more than massive federal handouts is a strong leadership at both ends of Pennsylvania Avenue with the courage to admit that America's recession is due to restrictive government policies that stifle free enterprise. We need a national leadership with the good sense to realize that we can lick this recession if we make it possible for America's unemployed to return to their jobs where they can create the products that contribute to the wealth of the nation.

Instead of closing steel mills in Gary, letting a coal strike run for weeks without invoking the Taft-Hartley Act; instead of shipping all kinds of precious grains by the hundreds of millions of tons to the four corners of the world, and submitting to the extortionate demands of oil-producing countries, Americans should arouse themselves to the urgent need to work and produce as though our very lives depended upon it—as in truth they most certainly do!

We must tighten our economic belts for the next year. We must balance our governmental budgets, avoid new taxes, cut government restrictions on free enterprise, and use our capital resources in productive purpose.

This is the distasteful medicine of national self-discipline. Nothing less will erase the recession and restore prosperity. The world has never found a substitute for hard work as a means of generating wealth.

The recession has hit New Hampshire.

We have about 19,000 persons unemployed as compared with 13,000 a year ago. For those 19,000 out of a civilian labor force of 328,000, the recession is real, unpleasant and downright tragic.

They deserve and will have nothing less than our best efforts to restore them to gainful employment as quickly as possible.

However, in comparison with our sister New England states our economy is strong. It possesses a potential resilience much greater than that of other states in the Northeast.

For example, in the area of unemployment for the month of November our rate of unemployment stood at 5.1. The national rate was 6.2, that of the other New England states varied from 6.8 to 8.3.

Another important economic indicator is the insured unemployment rate. This reflects the number of workers actually drawing unemployment benefits.

As of last November, New Hampshire had a low rate of 3.2 compared to the national average of 3.7. The rate of the other New England states ran from 4.2 to 5.5.

Perhaps the most significant factor in our Unemployment Compensation Fund stood at \$59 million.

For these funds federal authorities set a standard of adequacy for this area. It is generally 4 percent of annual taxable wages.

New Hampshire is in a very favorable position in this regard. Our current 6.1 percent of annual taxable wages to our Unemployment Compensation Fund is substantially above the 4 percent standard of adequacy.

For other New England states it runs from a low of .2 percent for Vermont to 2.8 percent for Massachusetts.

Both Vermont and Connecticut have had to borrow monies from the federal government to keep their respective funds solvent. The other New England states may have to do the same within the next several months.

We owe much credit to past legislatures that had the courage to withstand over the years raids on the unemployment fund by special interests.

The wisdom of the General Court in preserving the adequacy of our Unemployment Compensation Fund makes it possible for this Legislature to improve our benefit structure to serve better our unemployed. And this, of course, is why we have unemployment compensation.

The status of unemployment in New Hampshire is only one indication of the economic well being of our body politic. There are many more.

For example, our low per capita taxes—the lowest north of West Virginia and east of Ohio.

An overall projection shows an 8.1 percent industrial growth to 1980—the largest such projected gain of any New England state.

A population growth that is faster than any other New England state and that now ranks us eighth among all the states in the nation.

In personal income growth for 1973 New Hampshire ranked 21st among the states with a 10.7 percent increase. This exceeded all other New England states.

Many of these and other New Hampshire vital economic statistics will be found in a new and excellent "Annual Report on the Economy of the State—1973", prepared for the Department of Resources and Economic Development by experts of Colby College—New Hampshire. The report is being released today. I would urge each of you to get a copy.

For more than a decade America has been victimized by an environmental mystic that has insisted on multivarious studies that have crippled progress for endless months and years and at a cost of millions of taxpayers dollars.

Thus, had we proceeded with the construction of the Alaska pipeline when oil was first discovered on the North Slope instead of spending \$10 million on an environmental study, one copy of which weighed 160 pounds when published, we might now be enjoying the benefits of cutting by at least one-third the high cost of foreign oil—a savings of three to four billion dollars for our homes, industries and utilities, and eventually for our consumers.

Instead we'll now wait another three years before the black gold of Prudhoe Bay, can help America.

Off the shores of our Atlantic States billions of barrels of oil and trillions of cubic feet of gas lie locked deep on the Atlantic Continental Shelf.

At long last the Secretary of the Interior has proposed to begin leasing exploratory rights in the Baltimore Trough of the Continental Shelf next summer.

Even if we began leasing and exploring next summer, it would be 1890 before we could hope to see the first oil trickle in from these great deposits.

And yet, despite our desperate need for more domestic oil, we find a host of public officials—many in the Congress and in State Houses—who now plead for longer delays and more studies!

Here in New Hampshire we have experienced on many occasions the high cost of duplicative studies for highway projects. In many instances these are but the delaying tactics of a few who want no progress at all.

Either we must restore balance between progress and environmental concerns or we shall see the current recession deepen further.

Commerce is the life blood of an industrial nation. It is the jugular vein of a great nation. Disrupt it and the nation will soon perish.

America today is dependent on energy to move its commerce.

If American and the other industrial nations of the world continue their growing reliance for oil on the Organization of Petroleum Exporting countries, we will be destroyed in another decade.

The mid-east countries, Africa and Venezuela will then become the nations of wealth and power.

The World Bank, in a private report, has projected that the OPEC oil producing block of nations could control 1 trillion dollars by 1985. And a large part of that would be drained away from our taxpayers.

The price of energy has become an economic time bomb that jeopardizes not only the economic well being of the people of New Hampshire and of the United States, but perils the peace and security of the entire world.

December 23, 1973 when the OPEC countries quadrupled the price of oil is as significant in the history of the world's economy as Pearl Harbor was to our international security.

We need not be dependent for long on the OPEC countries if we will bring in the oil and gas on our continental shelves.

At the same time we must move forward with a crash program of construction of nuclear plants.

This is the advice recently given to the United Nations by the father of the Atomic Bomb, Dr. Edward Teller. He dismissed the objections of environmentalists as exaggerated.

Dr. Teller said, "There is not a single obstacle to massive use of nuclear reactors that cannot be overcome."

On this all important subject I shall soon submit to you a more comprehensive report with detailed recommendations for legislation.

The problems of taxes and the budgets will take much of our time and efforts.

By law the Governor must submit his recommended operating budget by February 15th. This year the budget will be submitted to you about February 1st in order that you might have two weeks lead time for work on it. The same accelerated schedule will apply to the capital budget.

The books of the State for fiscal 1974 should be closed and the results available to you in another two weeks. They will show an unappropriated surplus as of last July 1 of \$25 million. Approximately \$15 million of this surplus will be wiped out in current fiscal 1975 by the appropriations made at the Special Session last spring.

For the biennium 1976-77 we shall have to follow the advice of our Constitution and practice moderation and frugality.

Our present estimates of projected revenue for the biennium 1976-77 and our known costs of government operations indicates that we will have available for increased expenditures from \$15 to \$20 million. This will be about half of the increase that was available to us for the current biennium.

The total request of all agencies was about \$900 million for the biennium. Against this our current appropriations of state and federal monies is \$617.2 million.

At present we have 7,869 permanent positions. The new positions requested by all agencies number 1,593. We will be fortunate if we can add 200 new positions.

I understand that other New England states face budget deficits now and the dismal prospect of heavy new taxes in the immediate future. That is not the case in New Hampshire.

Instead, we have a current surplus and the happy prospect of an increase in expendable revenues of approximately 5 to 6 percent for the new biennium.

This means that welfare cannot get its requested increase of \$21 million. Agencies that built their budgets on more than a 5 percent increase are going to have to trim them.

Working together we shall have to determine the priorities for increased appropriations. I would hope that your emphasis would be on human needs, as mine will be.

You are all familiar with my firm and irrevocable position on taxes. In times such as these we must not place the burden of new state taxes on our people.

I shall honor my campaign commitment to the voters. There will be no broad-based tax in this biennium.

If you in your wisdom were to pass a casino bill with adequate safeguards for the people, I would not oppose it, providing it carried a referendum provision permitting the voters to have a final say on the subject. I say this not to invite a casino bill but rather to let you know how I would stand on the matter.

As we face the tough decisions of budget making, we would do well to remember the advice given to the nation by that great Democrat, Grover Cleveland, in his Second Annual Message of 1886. Cleveland said:

"When more of the people's sustenance is exacted through the form of taxation than is necessary to meet the just obligations of Government and expenses of its economical administration, such exaction becomes ruthless extortion and a violation of the fundamental principles of free government."

I shall present to you during the next few weeks a number of legislative suggestions for your consideration. Rather than take your time now to highlight these proposals, let me briefly say that they will relate to:

State institutions, including the hospital, prison and Laconia School.

Public Education, including teachers negotiations.

Agriculture

Labor, including workmen's compensation

The Judiciary

Energy, both production and conservation

Land use management, that respects private ownership and local control

Tightening of criminal penalties

Welfare reform

One important area of reform for which I shall solicit your cooperation relates to the Advisory Commission on Health and Welfare.

The long impasse on the appointment of a Commissioner of Health and Welfare must be ended, and that in a manner in which the will of the people can be expressed through their elected officials.

We cannot tolerate longer a situation in which special professional interests can frustrate the will of those to whom the people look for leadership.

Our Constitution is clear on the subject of the separation of powers. In Part 1, Article 37, we are told that the essential powers of government are the Legislative, Executive, and Judicial and that they "ought to be kept as separate from, and independent of, each other, as the nature of a free government will admit."

The right to appoint has traditionally been a part of the executive power. The Governor and Council believe that the Health and Welfare impasse would never have occurred if the appointive powers of the people's elected executive officials had not been diluted in part to the Advisory Commission.

This Commission of professionals could be useful if it was advisory only.

I have been in close contact with the Attorney General on the question of a special election for the United States Senate seat. I shall immediately be consulting with legislative leaders on the subject. I may present to you at your next meeting a recommendation for action in this matter.

In conclusion, I would point out that I have tried to re-organize and streamline the operations of the Governor's Office that we might better cooperate with you.

As your session progresses we will undoubtedly disagree on some subjects.

As far as I am concerned there will be patience instead of conflict; moderation instead of vituperation; and cooperation in lieu of pressure; that we might together preserve the blessings of liberty and good government.

My wife and I look forward to a renewal of the pancake breakfasts of the last session at the Bridges House. We derived much pleasure and benefit from having the members of the General Court attend these breakfasts. We look forward to having you again.

These are grave times. They call for firm, strong leadership.

I call upon the members of this General Court to join with me in demonstrating that leadership necessary to restore jobs to our people and confidence in our political institutions.

You are the Bicentennial General Court. As we observe New Hampshire's leadership in the war for freedom, let us determine to solve today's problems with the same courage, faith and vision that marked the tough decisions of our Founding Fathers.

In July, 1777, the fortunes of the colonists were at a low ebb. They had won no significant battles. The British forces were strong and on the move.

Our Legislature called upon John Stark to lead a force of New Hampshire men to Bennington and Saratoga. Clouds of despair hung heavy over the Granite Colony.

On July 18, 1777, that great New Hampshire patriot, John Langdon, then Speaker, rose before the predecessor of this body and said:

"I have \$1000 in hard money. I will pledge my plate for \$3000 more. I have 70 hogsheads of Tobago Rum which will be sold for the most they will bring.

"They are at the service of the State.

"If we succeed in defending our firesides and our homes, I will be remunerated. If we do not the property will be of no value to me."

Let us catch that vision splendid of those Founding Fathers.

To ourselves and our children, let us renew, by our actions in the months ahead, the pledge they made of their lives, fortunes, and sacred honor, so that with God's help, this Nation's destiny may stretch to the sunset of time.

A prayer for a successful administration was offered by Rev. Melvin E. Moody, Dublin Christian Academy.

The Rev. Monsignor John F. Burke, Diocese of Manchester gave the Benediction.

On motion of Sen. Ferdinando the Joint Convention rose.

Wednesday, 8Jan75

The House met at 12:30 o'clock.

Prayer was offered by Guest Chaplain Rev. Frank Guinello, Jr., First Methodist Church of Rochester.

Almighty and Eternal God, Thou art the power and creative force within all things, all events, all governments—even within our frail and tentative lives. We stand ready to let Thy power re-order, and redirect all our thoughts, actions and decisions. We confess our reluctance to bring our lives into line with Thy guiding will. We confess our indifference to the power of Thy presence in our lives. So guide, rule and uphold us that we will give ourselves to Thy powerful spirit.

Grant to these servants of our State, wisdom in their decisions, understanding and patience in their concern for others, love and mercy in their judgments. Strengthen their sense of responsibility for the general welfare of all the people. Do not let them think, when this prayer is ended, that their dependence upon Thee is over, and forget Thy presence and will for the rest of the day. Let these quiet moments of reflection be a constant light to their servanthood.

For all the people, we pray a new courage, a new faith in themselves and their leaders, a new quiet humility before Thee in the face of present crisis and confusion.

“Lead on, O King eternal,
Till sin's fierce war shall cease,
For not with swords loud clashing,
Nor roll of stirring drums,
With deeds of love and mercy,
The heavenly kingdom comes.” Amen.

Rep. Ainley led the Pledge of Allegiance.

Let us Pray:

Thank You dear God for the gifts of life and time and for all the privileges and responsibilities that are ours this day. Help us to use both wisely and well, in serving You and Your creation.

Remind us Father that anything morally wrong can never be socially, economically, religiously, governmentally or politically right.

Let us be excited with the truth that we are persons with the power to understand and choose, to feel and love, to dream dreams and have visions, to give and build, to be sensitive and creative—to be persons.

Although often tempted, we do not ask You God to bless what we do here but, rather, bless the leadership of our great state, gathered in this sanctuary for law and justice, that what we do here may be pleasing in Your sight and a blessing to mankind.

God bless us with Your Grace, Peace and Wisdom. Amen!

Mr. Speaker and Members:

It is not my intention to speak at this time on the merits of HB 60, which I consider to be non-controversial, but rather to comment briefly on the background of the legislator who signed the report form on HB 60, Rep. Rose Vachon of Manchester.

For the benefit of the membership, Rep. Rose Vachon is the widow of a gentleman who was held in the highest esteem by his colleagues in this House from 1961-1973, Rep. Marcel Vachon of Manchester.

The Committee on Claims, Military and Veterans Affairs voted unanimously that the honor of reporting our first bill for the '75 session should belong to Rep. Rose Vachon, on the basis that HB 60 pertained to equal rights for women, insofar as women being permitted to enlist in the New Hampshire National Guard, and further, to honor the memory of a man who gallantly served his country in the U.S. Army during World War II, and who served the State of New Hampshire with distinction as a member of this House of Representatives for seven terms.

The House met at 12:30 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

God of all Truth, give us strength and courage to respond to truth unafraid.

How easy it is for all of us to deceive ourselves and others. Sometimes, Lord, we think by calling a tail a leg we can say a sheep has five legs. Not so. A four legged sheep has but four legs no matter how we rage on or silently pretend.

We are important people that meet here in privileged assembly. The fruit of truth or the lack of it hangs in balance here. Let there be truth, O Lord! Thy Truth prevail. Let there be no sacrifice of Truth among us.

In the Name of the God of Truth, Amen!

Rep. Vachon led the Pledge of Allegiance.

On motion of Rep. French the House adjourned at 4:29 o'clock.

Thursday, 23Jan75

The House met at 12:30 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

God our Father, You are versatile beyond our understanding. You make the giant stars and the tiny atom. You make the galaxy to turn and the flower to bloom. And we confess that we often are unsure of what our purpose is in this mysterious creation, so we pray for light. Help us now to see our individual call to a purpose You have ordained. Give us the strength to do Your Will, as loved and accepted persons, as best we know and understand it to be. We can do no more—we can do no less and still be true to ourselves and to You. In the Master's Name, Amen.

HOUSE CONCURRENT RESOLUTION NO. 9

Reps. Close, Lawton, Lockhart, Altman, Coutermarsh and Oleson offer the following:

HCR 9, establishing a joint committee to study and make recommendations on railroad conditions in this state.

Referred to the subcommittee on Resolutions and Screening.

COMMITTEE REPORTS

HB 40, relative to interest rates on small loans. Inexpedient to legislate. Rep. Lamy for Banks and Insurance.

No valid reason offered by sponsor as to why this should be done. All factual information supported committee decision. The cost of money to finance companies now is such that many companies went in the hole last year at the present rates. A further reduction would mean that many people would be unable to borrow at all.

Resolution adopted.

HB 58, authorizing the governor to enter into agreements with veterinary medical schools; increasing the maximum payment permitted for each student; and providing for determinations of residency by the trustees of the university of New Hampshire. Ought to pass with amendment. Rep. Krasker for Education.

The need for veterinarians in New Hampshire is well documented. This bill, which must go to Appropriations, is a small step in the direction of seeing that New Hampshire residents are able to go to veterinary schools with state loans. The committee vote was unanimous.

AMENDMENT

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Declaration of Legislative Intent. To promote the declared state interest of providing educational opportunities only to persons who are bona fide residents of this state and have contributed to the support of this state, the general court establishes in section 3 of this act more stringent procedures for determining the residency of persons applying for acceptance as sponsored students of veterinary medicine under RSA 332-C.

Amendment adopted.

Referred to Appropriations.

HB 43, relative to the student trustee in the state university system. Ought to pass with amendment. Rep. Lessard for Education.

The committee voted unanimously that the students should have a voice in nominating the student trustee. The bill provides for the rotation of the student trustee among UNH, Keene, Plymouth, each to serve for one year.

The amendment provides for the governor to retain his power of appointment from the three student nominees.

AMENDMENT

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Trustee to be Rotated Between Three Schools and Nominated by Students. Amend RSA 187:5, III (supp), as inserted by 1971, 161:1, by striking out said paragraph and inserting in place thereof the following:

III. One member shall be a student enrolled at the New Hampshire college of agriculture and the mechanic arts of the university of New Hampshire, Keene state college or Plymouth state college. The office of student trustee shall be rotated among the three schools in the order in which they are listed. The students enrolled and classified as full-time students at the school entitled to a trustee that year shall elect in May three nominees for appointment as a trustee by the governor and council. The term of the student trustee shall commence on September first following his nomination and shall be for one year contingent upon the trustee's continued enrollment as a student at said school. If the governor and council fail to appoint one of the nominees so elected by September first after the election, the nominee who received the highest number of votes in the election shall serve as the student trustee. In the event a student trustee ceases to be a student at said school for any reason, the next school in order shall hold a special election to elect three nominees for appointment by the governor and council as the student trustee to serve for the remainder of the predecessor's term plus one year. If the governor and council fail to appoint one of the nominees so elected within sixty days after the election, the nominee who received the highest number of votes in the election shall serve as the student trustee.

2 Transitional Period. The student trustee nominated in May 1975 pursuant to RSA 187:5, III, as inserted by section 1 of this act, shall take office upon the expiration of his predecessor's term or September 1, 1975, whichever occurs first and serve until August 31, 1976.

3 Effective Date. This act shall take effect on May 1, 1975.

Amendment adopted.

Ordered to third reading.

Rep. Cornelius wished to be recorded in favor of HB 43 as amended.

HB 93, relative to revision of engineering laws. Ought to pass. Rep. Brouillard for Executive Departments and Administration.

A bill, requested by the Board of Registration of Engineers, increasing certain fees and updating two sections of the original law.

Ordered to third reading.

Drake moved that the House vacate the reference of HB 160 relative to compensating the town of Raymond for rendering municipal services for property purchased by the state and making an appropriation thereof to the committee on appropriations and re-refer said bill to the committee on Public Works.

PROTEST AND DISSENT

Rep. Daniel Healy

Reasons for protest and dissent against the passage of Senate Bill 28, providing for a special election for the office of United States senator as amended and Senate Concurrent Resolution 3, as amended as submitted by Daniel J. Healy, Hillsborough Dist. 29.

On June 21, 1788, the great State of New Hampshire ratified and made the Constitution of the United States the fundamental Law of our land. The first Article of that Constitution included Section No. 5 entitled "Each House to be the judge of the election and qualifications of its members, regulations as to Quorum".

The language of that Article pertinent to the issues decided today is as follows: "Each House shall be the judge of the elections, returns and qualifications of its members". Since the date of its ratification no one has seriously questioned its desirability as an effective tool in the Organization of the United States Congress.

Today Senate Bill 28 entitled An Act providing for a special election for the Office of United States Senator, as amended by the Senate and House and Senate Concurrent Resolution 3, as amended captioned Urging the U. S. Senate to authorize a new election in the contest for this state's U. S. Senate seat have been approved. It would be an act of gross neglect of my Legislative duties if I as a member of the General Court did not set out forthright my rationalization of my opposition to the passage of this Senate Bill and Concurrent Resolution.

Senate Bill 28 as amended was diabolically contrived with its primary purpose to avoid and to make ineffectual existing N. H. Statutes pertaining to elections and to improperly influence the United States Senate in its deliberations under the power granted to it under Article 1, Section No. 5 of the Constitution of the United States making it mandatory for it to judge the elections, returns and qualifications of its members.

To ask members of the United States Senate who have sworn to fully and faithfully perform their duties and to defend and uphold the Constitution of the United States to cowardly and cravenly disavow their oaths of office and by subterfuge avoid their responsibilities under this Article is an act of such impropriety that I could not possibly vote for such irresponsible action.

To propose to the members of the General Court that they forsake their oaths and to make ineffectual the election Statutes of this State that clearly outline the procedures under which a valid election is to be resolved is a proposition that I cannot honorably support. To take a selective case under special circumstances and to request that special standards now be approved is to abuse the prerogatives granted to us under our State Constitution.

No member of this Legislature nor any voter of this State having lived under the protection of the Constitution of the United States and the State of New Hampshire can acquiesce to the abridgement of these vital Documents under the pretext of necessary Legislation for the protection of the rights of the citizens of this state. This is the most fallacious argument ever presented to the General Court and I have complete faith that the people of this State will not be mislead or deceived by it. I could not permit the negation of a properly held election under the existing laws of our land by a vote of approval.

Rep. French moved that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Tuesday next at 12:30 o'clock.

Adopted.

On motion of Reps. French and Spirou, the House adjourned at 1:15 o'clock.

Tuesday, 28Jan75

The House met at 12:30 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Father in heaven, who in creative labor brought forth the world and all that is in it, teach us your purpose for our labors. Guide us by your Spirit to put the labor of our minds and bodies to constructive, meaningful use. Let us dare to hear and see your prophetic truth everywhere even though it be found "on subway walls and tenement halls". Let us respond to our changing times with honesty and openness rather than react which often means rejection on our part. The experience of our changing times calls for response not reaction. "Silence like a cancer grows". Let us be the disturbers of the silence of apathy and indecision and all forms of evil that destroy persons, communities, states and nations May our legislative voice be a Gospel Clarion—a loud clear voice for the good news of truth and justice for all mankind. May Your healing presence be with Ted Aucella, our Sergeant-at-Arms in his hour of need and with all who need Your healing touch upon body, mind, soul and spirit. This I pray in the name of the Good News Man, Jesus Christ. Amen.

COMMITTEE REPORTS

HB 61, relative to the rehabilitation of the Laconia state armory. Majority: Ought to pass; Rep. Benton for Claims, Military and Veterans Affairs. Minority: Inexpedient to legislate. (Rep. Parolise).

Majority: Since 1961, the Adjutant General has been seeking, without success, a suitable location for a new National Guard Armory in Laconia. The Committee made an on-site inspection of the existing armory, constructed in 1927. The foundation and shell of the building appear to be structurally sound; however, repairs and replacements must be made in all areas of the building to effect operating economies, meet safety, fire and health standards and prevent further deterioration. The Treasurer of New Hampshire has been holding, since 1961, approximately \$108,000, which is available for a building rehabilitation program. Minority: Rep. Parolise is of the opinion that there is not a valid reason to retain an armory in Laconia, and therefore, believes that the money presently being held by the Treasurer should be used for some better purpose than renovating the existing armory.

Reps. Benton, Daniell, Hildreth and Sabbow spoke in favor of the bill.

Reps. Parker and Parolise spoke against the bill.

Previous question was moved and sufficiently seconded.

Adopted.

Referred to Appropriations.

HB 68, increasing certain special retirement benefits payable from the highway fund. Ought to pass. Rep. Parr for Claims, Military and Veterans Affairs.

By legislation in 1953, two elderly ladies, widows of employees of the Department of Public Works and Highways, have been receiving a small monthly pension from the "Highway Trust Fund", payable for the life of the two ladies. There are no other persons receiving pensions from the highway trust fund. One lady also receives a small amount from Social Security, the other a small "veterans pension", both are opposed to applying for or accepting any other form of relief. Rep. Benton explained the bill and spoke in its favor. Ordered to third reading.

HB 11, relative to land surveyor certifications on recorded condominium plans. Ought to pass with amendment. Rep. Duprey for Executive Departments and Administration.

Bill allows land surveyors to certify their work on condominium plans.

AMENDMENT

Amend RSA 479-A:12, as inserted by section 1 of the bill, by striking out same and inserting in place thereof the following:

479-A:12 Copy of Floor Plans to be Filed. Simultaneously with the recording of the declaration there shall be filed in the office of the recording officer a set of the floor plans of the building showing the layout, location, unit numbers and dimensions of the units, stating the name of the building or that it has no name. Those portions of the plans prepared by a registered land surveyor shall bear the verified statement of a registered land surveyor and all other portions of the plans shall bear the verified statement of a registered architect or a registered professional engineer certifying that they are accurate copies of portions of the plans of the building as filed with and approved by the municipal or other governmental subdivision having jurisdiction over the issuance of permits for the construction of buildings, if any. Said plans shall be drawn in full compliance with the requirements as to material, markings, size and other specifications as set forth in RSA 478:13-a in those counties which have adopted the provisions of RSA 478:13-a. If such plans do not include a verified statement by such land surveyor and architect or engineer that such plans fully and accurately depict the layout, location, unit designations and dimensions of all of the units as built, there shall be recorded prior to each first conveyance of any particular unit with respect to which such a statement was not made an amendment to the declaration to which shall be attached a verified statement of a registered land surveyor as to the portions of plans prepared by a registered land surveyor and a verified statement of a registered architect or a registered professional engineer as to all other portions of plans certifying that the plans theretofore filed, or being filed simultaneously with such amendment, fully and accurately depict the layout, location, unit designations and dimensions of such particular unit as built. Such plans shall be kept by the recording officer, indexed in the same manner as a conveyance entitled to record.

Rep. Duprey explained the amendment.

Amendment adopted.

Ordered to third reading.

SB 23, permitting the presiding officers of the legislature to provide for additional distributions of the manual and pamphlet laws. Ought to pass. Rep. Carswell for Executive Departments and Administration.

This bill merely provides for disposal of unallocated copies of manual and pamphlet laws.

Ordered to third reading.

HB 32, changing the name of Black Pond in the town of Windsor and restricting the use of power boats thereon. Inexpedient to legislate. Rep. Boyd for Resources, Recreation and Development.

It is the committee's position that renaming of ponds is unwise in circumstances such as these, due to rendering existing maps inaccurate and adding to any confusions existing in title to real property. It also feels that regulation of boats in the matters contemplated is more equitably accomplished through petition to the Division of Safety Services, Department of Safety.

Resolution adopted.

HB 63, relative to permitting aliens to be licensed as real estate salesmen or brokers and to qualify for appointment to the New Hampshire real estate commission, Inexpedient to legislate. Rep. Morgan for Statutory Revision.

Application for such a recount shall be by written petition signed by at least fifty legal voters of said county presented to the secretary of state within ten days after the biennial election. Eternal and gracious God, whose ways are higher than our ways, whose thoughts are higher than our thoughts, help us in the quests of our minds to arrive at deeper knowledge of Your greatness. May Your Spirit guide us in the ways of wisdom and lead us to the truth. Satisfy the desires of our hearts for goodness, by delivering us from evil and making us receptive to Your Grace.

As we gather here once again we rejoice in Your constant Love. We look to You, our Father, as a God of deliverance. Deliver us again, O God. Confuse those who plan evil. Restrain those who practice injustice. Give us righteous leadership in our time.

We give You thanks dear God, for the life of Ted Aucella. We give You hearty thanks for the good examples of this Your servant who, having finished his course in faith, rests now from his labors. Help us our Creator God to accept death as a part of Your great plan. Receive our friend and fellow servant into Your loving care. Bless and give strength to the family and all those most intimately concerned.

Adopted.

HB 87, establishing the towns of Londonderry and Windham as separate districts for representation in the general court. Ought to pass. Rep. Morgan for Statutory Revision.

It was the unanimous opinion of the committee that this bill ought to pass. The two towns of Londonderry and Windham have virtually nothing in common, including fire departments, school districts, different senatorial districts, and are separated physically by a river.

Ordered to third reading.

HB 94, relative to authorizing payment for travel expenses for members of the bicentennial commission. Ought to pass. Rep. Morgan for Statutory Revision.

The committee was of the opinion that this bill ought to pass. It is apparent that general expenses of this new committee will not be borne by the state, but that

the state will reimburse actual mileage at the regular state mileage rate for state employees.

Referred to Appropriations.

HB 27, providing for a change in official responsibility relative to commercial boating, from the director of the division of motor vehicles to the director of the division of safety services. Ought to pass. Rep. Tavitian for Transportation.

Resolution adopted.

HB 69, providing the New Hampshire transportation authority with note issuing powers. Inexpedient to legislate. Rep. Erler for Transportation.

Unnecessary expenditure at this time.

Resolution adopted.

Rep. David Bradley moved that the Speaker's remarks relative to the sub-committee on Resolutions and Screening be printed in the Journal.

Adopted.

The Speaker has met with the House Subcommittee on Resolutions and Screening and brings to the attention of the members of continuance of that committee and under Rule 32, Section 4, "It shall be the duty of the Subcommittee on House Resolutions and Screening to examine all House resolutions and proposed non-legislative activities for the purpose of determining whether or not same are of sufficient importance or interest to warrant being brought before the House. No such resolutions or activities shall be brought before the House unless they are approved by the Subcommittee. Any such resolutions or activities brought before the House with the approval of the Subcommittee shall be scheduled so as not to interfere with the official business of the House. The term "non-legislative activities" shall include the introduction of House guests, seat pocket insertions and calendar announcements. The Subcommittee shall also examine all proposed legislation filed with Legislative Services to prevent, where possible, the duplication of bills or resolutions of a similar nature or content."

It is the last sentence which the Speaker would like to bring to the attention of the members. The subcommittee is in the process of looking through all the LSR numbers and the like subject matters by title in an effort to group these bills together and suggest to members, where possible, that they could either co-sponsor or perhaps there is not a need for the introduction. However, the committee will not make any attempt to prevent the introduction of a bill but will make every effort to coordinate and bring together house members in an effort to co-sponsor to reduce duplication.

It has come to the attention of the Speaker that one of the administrative problems has been that like subject matter is introduced throughout the first part of the legislative session at different times creating a situation which was demonstrated today, where a committee chairman has to move for extension of bills or to hold a bill so the like subject and matter can be heard at the same time in the same committee. In an effort to do this correctly and so that the Speaker will get the bills to be referred about the same time, the House Resolutions and Screening Subcommittee is doing a search of LSR's and is contacting members of the House to get their cooperation. Legislative Services is making every attempt to draft those bills together so as not to prevent or not to hold back any other bills, but to draft those bills together so they would be scheduled about the same time.

I would ask the house members to cooperate fully with the Resolutions and Screening Committee. We think that perhaps through this process we could make a more stream-lined administration of bill handling before it is even received or comes into the Speaker's office or is received by the House.

Rep. French moved that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet tomorrow at 12:30 o'clock.

Adopted.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

God of all good and perfect gifts, encourage us by Your Grace to be thankful people—for the gift of time and a friendly greeting, the ever present challenge and a warm cup of coffee, for the support of our families and the look of confidence, in us, on a child's face, for the air we breathe and the breath of conscience that moves us to our best, for the leadership of great men and women and the persons who do the many unheralded tasks that set us free to serve in this high calling.

How often we are like the woman at the well—lives in need of new purpose and direction. Teach us to delight in quiet times for renewal of strength and vision, humbly seeking to know and do Your Will. May Your Will and pleasure become our will and pleasure, and then our labors shall not be in vain. In the name of the One who always meets us at the wells of honest and open seeking, I pray. Amen!

Rep. Mabel Richardson led the Pledge of Allegiance.

Reps. Casassa and Southwick, the day, illness.

Rep. Goff, the day, important business.

INTRODUCTION OF GUESTS

Lisa Lamy, daughter of Rep. Lamy.

Places a sport above the livelihood of lobstermen. Impossible to police.

Adopted.

Rep. Winkley moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to her motion.

Reps. Maynard, Stimmell and Griffin spoke against the motion.

Rep. Gorman spoke in favor of the motion.

Motion lost.

Resolution adopted.

HB 34, requiring members of the general court to comply with competitive bidding procedures in transactions with the state. Ought to pass with amendment. Rep. Morgan for Statutory Revision.

Discussion of the bill and amendment brought out that the \$25 limit had been in force for many years, but that with gradual reduction in the value of the dollar was too low to be useful. The increased limit of \$200 seemed more practical, but would still be the total amount of any one transaction.

AMENDMENT

Amend the bill by striking out section 1 of same and inserting in place thereof the following:

1 Members of General Court to Comply with Competitive Bidding Practices. Amend RSA 95:1 (supp), as amended, by striking out said section and inserting in place thereof the following:

95:1 Public Officials Barred From Certain Private Dealings. No person holding a public office, as such, in state or any political subdivision governmental service shall, by contract or otherwise, except by open competitive bidding, buy real estate, sell or buy goods, commodities, or other personal property of a value in excess of two hundred dollars at any one sale to or from the state or political subdivision under which he holds his public office.

Whereas, Theodore Aucella, Sergeant-at-Arms of the House of Representatives of
the 1975 Session of the New Hampshire General Court, was an exemplary
representative of the citizen-legislator, and

Whereas, "Ted" served his town as school board member, budget committee
member, selectman and representative to the General Court, and

Whereas, he served his county as deputy sheriff and as a member of the Executive
Committee of the County Convention, and

Almighty God, who has given us this good land for our heritage; we humbly beseech You that we may always prove ourselves a people mindful of Your favor and glad to do Your will. Bless our land with honorable industry, sound learning and pure manners.

Save us from violence, discord, and confusion; from pride and arrogance, and from every evil way. Defend our liberties, and fashion into one united people the multitudes that have come to our state out of many kindreds and tongues.

Let there be watchmen upon our walls, O God, who shall give us no rest until we make America a praise in the earth. NOTICE

The Subcommittee on House Resolutions and Screening has identified 145 LSR's that have been filed without sponsors. This is apparently the result of an old tradition

that permitted department heads to file proposed legislation in this manner, but the tradition runs contrary to the House Resolution requiring that all proposed legislation be filed by its sponsors before the twelfth legislative day.

The Speaker will permit department heads to arrange for sponsors for these LSR's providing that sponsors are listed with Legislative Services by 5:00 p.m. on Wednesday, February 5.

INTRODUCTION OF

HOUSE CONCURRENT RESOLUTION 12

Reps. Spirou, Chambers and Cecelia Winn offered the following:

HCR 12, memorializing Congress to block any cutbacks in the food stamp program.

Referred to Subcommittee on Resolutions and Screening.

SIX-DAY EXTENSIONS GRANTED

HB 10, eliminating the United States citizenship requirement to qualify for licensing as a real estate salesman or broker, and HB 48, relative to age requirements for dog licensing. (Statutory Revision).

HB 8, prohibiting the use of studded tires on vehicles during the period from April first to November first of any year. (Transportation).

HB 29, establishing a study committee to review and recommend legislation relative to boating and navigation on state waterways, and making an appropriation therefor. (Resources, Recreation and Development).

COMMITTEE REPORTS

HB 192, relative to requiring school districts to provide education for pupils under the age of twenty-one. Ought to pass. Rep. Hager for Education.

The state laws contained this provision up until 1973 when the age of majority was lowered to eighteen. This is basically a housekeeping measure to restore a workable statute.

Ordered to third reading.

HB 215, relative to eliminating the limitation on the distribution of copies of school laws. Ought to pass. Rep. Hager for Education.

This is a housekeeping measure. The original statute was enacted in 1905.

Ordered to third reading.

HB 117, reducing the age at which persons may donate blood to seventeen. Ought to pass. Rep. Gabrielle Gagnon for Health & Welfare.

This bill brings blood program in line with national trends. Surrounding states have reduced age limit to seventeen.

Ordered to third reading.

HB 66, relative to fees for the superior court. Ought to pass. Rep. Hobbs for Judiciary.

Doubles most entrance fees, establishes several new fees.

Ordered to third reading.

HB 82, permitting law enforcement officers on official duty to wear firearms in the courts of the state. Majority: Inexpedient to legislate; Rep. Shapiro for Judiciary.

Minority: Ought to pass. (Reps. Riley, Daniel J. Healy, Sayer, Hobbs, Ayles, Record, Morrisette, Habel and Mansfield)

Record: RSA490 is the law that deals with the powers of the New Hampshire Supreme Court. The bill attempts to direct the supervision of that court over other courts of the state. From the testimony it appeared that the witnesses were thinking in terms of the municipal or district courts, but there is no such limitation in the bill.

The majority of the committee felt that the present law and court rules allow for sufficient courtroom security; the individual judge should have the right to decide the rules and regulations for his court; proper courtroom atmosphere should not allow prosecutors and witnesses, even though police officers, to carry sidearms. There is also a question whether the legislature has the constitutional authority to dictate rules of court.

The Court is revising its rules on the wearing of sidearms in court.

Minority: The minority of the Committee on Judiciary conclude that HB 82 is justified under prevailing conditions and circumstances.

It was agreed that debate on HB 82 be limited to a maximum of one hour.

Rep. Riley moved that the report of the minority, ought to pass, be substituted for the report of the majority, inexpedient to legislate, and spoke to her motion.

Rep. Shapiro spoke against the motion.

Reps. George Gordon, Sayer, Coutermarsh, Daniel Healy, George Wiggins and James Humphrey spoke in favor of the motion.

Rep. McManus spoke against the motion.

Reps. Tarr and Bednar wish to be recorded in favor of the minority report.

Rep. Ellis moved the previous question.

Sufficiently seconded.

Adopted.

Rep. George Gordon requested a roll call.

Sufficiently seconded.

and the motion passed.

Ordered to third reading.

Rep. Cooney, who voted no on the question of substituting ought to pass for inexpedient to legislate on HB 82, has informed the Clerk that he inadvertently voted incorrectly and meant to vote yes.

Rep. Fleisher wished to be recorded in opposition to HB 82.

HB 83 increasing the penalties for intoxication. Inexpedient to legislate. Rep. McManus for Judiciary.

The present law seems adequate. Passage of this bill would jeopardize receipt of federal funds if and when HB 81 is passed.

Rep. George Gordon moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to his motion.

Reps. McManus, Haller, Plourde, Roma Spaulding and Douzanis spoke against the motion.

Rep. Kenneth Spaulding moved the previous question.

Sufficiently seconded.

Adopted.

Motion lost.

Resolution adopted.

HB 111, relative to bond requirements in felony cases. Inexpedient to legislate. Rep. Southwick for Judiciary.

Permits payment to court clerk of ten per cent of bail set, rather than to

Resolution adopted.

HB 126, repealing the New Hampshire Fair Trade Law. Ought to pass. Rep. Cynthia Clark for Judiciary.

Repeals the law which permitted setting of fair trade prices by the manufacturer.
Practice seems to be outdated.
Ordered to third reading.

This bill clarifies the existing law and makes way for a board of appeal.

AMENDMENT

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Restriction of Building Permits. Amend RSA 156 by inserting after section 3-a the following new section:

156:3-b Building Permits Restricted. The building inspector shall not issue any building or occupancy permit for any proposed construction, remodeling or maintenance which will not comply with any or all zoning ordinances, building codes or planning board regulations which are in effect, unless written approval for such issuance has been granted pursuant to the provisions of RSA 156:4-a or 4-b. If any building inspector is found in a prosecution for violation of RSA 643:1 to have issued any permit contrary to the provisions of this section, it shall be prima facie evidence that he has knowingly refrained from performing a duty imposed on him by law.

Rep. Bednar explained the amendment.

Amendment adopted.

Ordered to third reading.

HB 115, to reclassify a certain section of highway in the towns of Pelham and Hudson. Ought to pass. Rep. Coburn for Public Works.

The substantial increase in traffic on this road merits the change in classification.

Approved by the board of selectmen of both towns.

Ordered to third reading.

HB 175, to reclassify a certain highway in the town of Warren. Ought to pass. Rep. Ellis for Public Works.

Section of roadway has no value as a part of the state secondary system.

Affirmation made at 1974 town meeting.

The American Red Cross requests their name be deleted from the statute because it conflicts with their national policy. If at some future time the Red Cross wishes to reinstate the program, no further change of the statute would be required.

HR 2, donating a state flag to the Arnold Expedition Historical Society.

Whereas, the Benedict Arnold Expedition Historical Society is celebrating the two hundredth anniversary of the American expedition to Quebec in 1775 and the society plans a reenactment of this outstanding historic event as part of our country's celebration of the American Revolution Bicentennial, and

Whereas, all of the states which are represented in this historic reenactment are donating flags to commemorate the participation of citizens from their states in this historic event, and

Whereas, the state of New Hampshire should be represented at this historic event, now therefore be it

Resolved by the House of Representatives

That the House of Representatives donate a New Hampshire state flag to the Arnold Expedition Historical Society for use in the reenactment of the American expedition to Quebec in 1775.

Adopted.

Reps. French and Spirou offered the following:

SCR 2, requiring bills requested by executive departments to be identified.

Whereas, it would be informative and beneficial to members of the legislature to be advised if a piece of proposed legislation emanated from an executive department; now, therefore, be it

Resolved by the Senate, the House of Representatives Concurring:

That, so far as possible, a statement be written into the analysis of any proposed piece of legislation which originated from and was requested by an executive department, including the Governor's office, stating that fact and identifying the executive department concerned.

Adopted.

HCR 6, memorializing Congress to liberalize social security disability payments.

Whereas, the disability clause in the Social Security Act is inadequate; and

Whereas, the insured must sustain himself and his dependents for a full six months without any income; and

Whereas, the insured in many cases must seek public aid or welfare to live and support his dependents; now, therefore, be it

Resolved by the House of Representatives, the Senate concurring:

That the New Hampshire delegation to the Congress of the United States be requested to introduce during this session of Congress legislation to shorten the disability waiting time from six months to a maximum of three months, and that all payments be made retroactive to the date of the onset of the disability; and

That copies of this resolution be sent by the clerk of the House to all members of the New Hampshire delegation of the Congress of the United States.

Adopted.

Reps. Turner, Belair, Russell Chase and Coutermarsh offered the following:

HCR 10, notifying Congress and the President of this state's opposition to any increase in tariffs on imported petroleum.

Whereas, it has been proposed that the chief executive of the United States

exercise the authority vested in him to impose increased tariffs on imported petroleum; and

Whereas, it is necessary that energy consumption be reduced in this country, but such reduction should not cause one sector of the country to shoulder an unfair share of the burden; and

Whereas, the proposed increased tariffs will undoubtedly have a pervasive influence on the cost of living in New Hampshire and the Northeast because of its forced reliance on imported petroleum and negative economic impact on New Hampshire industry and tourism; now therefore be it

Resolved by the House of Representatives, the Senate Concurring:

That, the Legislature of the State of New Hampshire hereby expresses its opposition to the proposed increased tariff and urges the President and the Congress of the United States to take action to assure that there will be no increase in the tariff on imported petroleum; and

That, copies of this resolution be immediately forwarded by the clerk of the House of Representatives to each member of the congressional delegation from New Hampshire to the Speaker of the House of Representatives and the President of the Senate of the United States and to the President of the United States.

Adopted.

"You who have ears to hear with, hear! You who have eyes to see with, see!" This, O God, is Your ever present challenge. Set us free to truly hear and see. Of course, we would be less than truly free persons if we were to think more highly of ourselves than we ought to. And yet, You have made us just a little lower than the angels, in Your design of all things. Which is to affirm that we are important.

Fortify us with Your Wisdom and Truth as we exercise our human uniqueness—the power to choose, understand; love, communicate; be sensitive, have compassion. Save us from the grasp of the trivial and unimportant that drains away our divine call as persons.

Let our motivations be in tune with You, Dear Lord; In harmony with Your Divine Plan, as we as open and honest persons see Your Plan, and then we as leaders of people will be channels for wholeness for persons and nations.

Our sympathy and concern reaches out to the family of the Minority Leader, Chris Spirou, at his father's death. Encompass the family with love and strength. Amen!

Rep. Howard led the Pledge of Allegiance.

Reps. Cullity and French moved that the House be in Joint Convention to receive the Governor's Budget message.

JOINT CONVENTION

BUDGET MESSAGE OF GOVERNOR MELDRIM THOMSON, JR. FOR THE FISCAL BIENNIUM 1976-1977

Mr. Speaker, Mr. President. Honorable Members of the General Court—

Once again I submit to you a proposed state budget for the fiscal years of the ensuing biennium, as required by RSA 9:2.

By presenting the budget now, instead of waiting until February 15th, you will have one legislative week of lead time. I hope this will prove helpful in your important work on this vital legislation.

The proposed state budget for 1976-1977 is a thrift budget.

It is, as required by law, a balanced budget.

It is a Yankee budget in that it provides for growth of state services within the framework of anticipated revenues. It places emphasis on the human needs of our people without resorting to deficit spending.

Finally, and of utmost importance to our people in these days of hydra-headed inflation, recession and depression, this budget is a no-tax-increase budget!

In preparing our 1976-77 budget we were mindful of the wise recommendation of the drafters of the New Hampshire Constitution that frugality is necessary to preserve the blessings of liberty and good government; that economy is a most essential virtue in all states; and that it is a duty of our magistrates and legislators to inculcate the principles of industry and economy among the people.

The general fund operating budget for 1976-77 that we suggest is \$312.9 million. This compares with \$274.8 million for our current biennium. It represents an increase of 13.9 per cent.

The departments and agencies asked for general fund revenues of \$390.7 million or 42.2 per cent more than our current general fund operating budget.

The total proposed budget including all sources of revenues—federal government, fees, licenses, and so forth, is \$835.0 million as compared to \$736.2 for the current biennium. This is a 13.4 per cent increase.

Please note that out of the total proposed budget of \$835 million, \$215.8 will come from the Federal government.

If he who pays the fiddler can call the tune then how can we truly govern ourselves as a free, sovereign and independent state as stated in our Constitution?

In physical size this budget consists of one volume of 444 pages that weighs three pounds.

By comparison the budget of the State of Hawaii, the youngest state in the Union with an area two-third's the size of ours and a population slightly larger, consisted of four volumes of 2,117 pages.

Big budgets spell big trouble!

Although Hawaii is only 15 years old as a state its per capita debt is \$1,186.11 compared to our \$225.77. Its per capita state tax is \$584.26 compared to our \$204.41.

A four per cent sales tax and a graduated income tax from two and one-fourth per cent on the first \$500 to 11 per cent on \$30,000 helped the Aloha State build a bigger per capita debt and tax in 15 years than we were able to do in 200 years!

The financial integrity of New Hampshire is superior to that of the Federal Government or of the other New England states.

Fortunately for us, New Hampshire has never adopted the suicidal practice of borrowing to lend to others as the Federal Government does, or of hiring money for things unnecessary.

For the current biennium we neither raised taxes nor increased the rate of established taxes. As of the fiscal year ending last July 1 we had a surplus of \$24.7 million—the largest surplus in the history of our State.

Under this proposed budget we project a surplus of \$8.3 million for fiscal 1976 and a surplus of \$1.4 for 1977.

Consider our unique financial position!

It is my understanding that each of our sister New England states completed their last fiscal year in the red. Now each is contemplating a substantial increase of the tax burden of their respective people.

The federal government which is well on the way to national bankruptcy is caught on the treadmill of irresponsible spending.

The President has just announced a proposed budget of \$349 billion which includes a planned deficit of \$52 billion. This proposed deficit equals the entire national budget for 1954. And the deficit could go to \$70 billion the President warns, if the Congress fails to make the cuts in welfare and related services which he recommends.

The tax burden that New Hampshire lays on its citizens is far lighter than that of other states in New England.

According to the prestigious Tax Foundation of New York our state per capita tax for 1974 was \$204.41.

The per capita state tax in other New England states in 1974 ran from \$321.25 in Maine to \$381.92 for Vermont.

The comparison is equally favorable for New Hampshire taxpayers if local (including real property) and state taxes are added together.

The per capita local and state taxes for New Hampshire in 1973 were \$453.55. For the other New England states it ranged from \$514.32 for Maine to \$727.21 in Connecticut.

Just across the Connecticut River the citizens of our sister state of Vermont paid a total local-state per capita tax in 1973 of \$618.23 compared to ours of \$453.33 and those same neighbors now face the prospect of having to pay even higher taxes in these painful days of high inflation and dwindling real income.

If we turn to a comparison of the indebtedness of the New England states we find New Hampshire again in a favored position.

In 1973 the per capita state debt in New Hampshire was \$225.77.

The per capita state debt of the other New England states varied from \$348.55 in Maine to \$906.91 in Vermont.

New Hampshire's comparative excellence in the areas of taxes and public debt are

the result of self-discipline and restraint by a long line of wise legislators who reflected the will of their constituents.

To many of you who are veterans of this chamber goes the praise for the sound position of our public finances.

While New Hampshire citizens can take pride and some comfort in the comparative soundness of our financial position, we can not be smug or indifferent about it.

A good fiscal position, like personal liberty, requires eternal vigilance on the part of the people and their representatives.

If we turn the spotlight of comparison on ourselves we find that in the past ten years the cost of state government has tripled.

For the biennium 1966-67 the state revenues amounted to \$90.8 million and appropriations were \$94.8 million.

For the new biennium of 1976-77 we anticipate revenues of \$302.6 and expenditures of \$316.2.

With a population of 680 thousand in 1966 growing to a projected population of 860 in 1977, we find that the state per capita revenues increased in the same years from \$132 to \$353 and state per capita revenues rose from \$137 to \$389.

Thus, the cost of state government in New Hampshire has been doubling once every five years in the past decade.

Our magistrates and legislators must continue to exercise great caution in extracting taxes from our citizens and demonstrate even greater prudence in the wise use of the public funds entrusted to their custody.

In preparing this budget we faced three alternatives.

1. We could stay within anticipated revenues and draw upon our surplus if need be.

2. We could spend only from revenues and protect our surplus for the future.

3. Or we could seek new revenues—meaning new taxes or higher rates of present taxes.

We chose the first course because it allowed continued growth in essential state services and avoided any new taxes or increase in tax rates.

We estimate that the net revenue available to the state for the current biennium will be \$269.7 million to next June 30. This includes federal revenue sharing and the deduction of debt service. It should leave us with an estimated unappropriated surplus of \$15 million next July first.

For the 1976-77 biennium we anticipated that the net revenues available will be \$292.2 million. The projected surplus at the end of the new biennium would be \$1.4 million.

Thus, under our present tax structure, and by using most of this \$15 million surplus we anticipated by the end of the current fiscal year, we will have only \$22.5 million more to spend in the new biennium than in the current one.

Thank goodness we have a surplus on which we can thus draw in preparing our new budget. Without it we would be offering today a no-growth budget.

Beginning last June 30th with a surplus of \$24.7 million we anticipate that under the proposed budget this will shrink in three years to \$1.4 million as follows.

In 1975 excess expenditures will consume \$9.7 million. Fiscal 1976 will take \$6.7 million, and 1977 will absorb another \$6.9 million.

For the past decade the State has enjoyed a steady growth of its General Fund Unrestricted Revenues of about 13 per cent a year.

Now, with the onslaught of the recession, the traditional rate of growth in our revenues fell to 4.9 per cent in 1974.

Important areas of decline of growth include liquor and horse racing.

For 10 years revenues from liquor averaged 12.5 per cent per year. In 1974 this plummeted to an increase of one per cent.

Horse racing increased at an average rate of 6.3 per cent a year. In fiscal 1974 it decreased by 21.6 per cent.

Two bright lights on the revenue horizon in 1974 were Business Profits and Dog Racing. The former increased by 25 per cent and the latter by an unprecedented 91 per cent. We expect that the rate of increase from these two important sources of revenue will be more modest in the next few years.

Given an economy through 1977 no worse than at present, we would expect an average growth in our revenues of five per cent a year for the ensuing biennium.

When we began planning for the new budget last fall we knew that the normal

growth of our revenues had been clipped by the recession and that our expenditures for fiscal 1975 were higher than anticipated income.

We set a goal of five per cent growth per year for the biennium but realized that in order to achieve such growth we would have to cut deeply into our surplus.

Let me review the major pruning procedures we followed.

—Do not do a meat axe job—be reasonable and able to justify cuts.

—Some agencies will be cut below five per cent guidelines to achieve an average five per cent for the entire budget.

—Recognize the staffing and operation of new buildings and similar needs.

—Look for functions and positions that can be eliminated entirely.

—All out-of-state travel cut one-half of current level.

—In-state-travel cut where possible. All taxable meals were removed from budget and a general footnote added that provides for reimbursement of meals only when connected with a necessary overnight stop and under such rates and regulations as may be established by Governor and Council.

—Conferences, workshops, training and education for employees, and the like, to be cut by one-half.

—Where a state function could be shifted to a federal program, this was done to cut the general fund appropriation.

Let us see how the application of our guidelines affected some sample agencies as we sought to build into the budget an average growth of five per cent.

—UNIVERSITY SYSTEM. The Board of Trustees of the University System asked for a biennium budget of \$52.9 million. This is a 45.0 per cent increase over the current budget of \$36.3 million. This proposed budget allocates \$41.4 million for the University System which is a 14 per cent increase over the current appropriation.

There is no way for us to give the University System the extra \$11.5 million which the trustees have requested, short of some tax which we would oppose. Perhaps they should review again many of the high academic salaries and mini-teaching assignments of many professors. Certainly the \$45 to \$60 thousand dollar salary now being contemplated for the new chancellor would seem out of line.

We might also question the wisdom of the University's purchase of 479 acres of land in the past two years.

—WELFARE. The Welfare Department requested \$58.9 for the new biennium. This is a 56.2 per cent increase over the current \$37.7 appropriated for welfare.

For this budget we increased welfare to \$42.0 million, an increase of 13.8 per cent. It is our firm conviction that there are substantial savings to be effected by welfare through improvement in its present wasteful management. The millions we lose to errors and frauds and begin to lose to federal sanctions should be revamped for welfare recipients and taxpayers alike.

—NEW HAMPSHIRE HOSPITAL. During the past two years the General Fund Revenues for the New Hampshire Hospital were increased by some \$10 million over the prior biennium.

For the new biennium the Hospital officials are asking for a further increase of 10.5 million.

We definitely do not believe the increase requested is necessary with a declining population and an increasing employee-patient ratio.

From 1971 to 1974 the population has decreased from 1807 to 1290 and is expected to fall to 1000 by 1977. In the same time the number of employees has increased from 1124 to 1349. This gives us a current ratio of employee to patient of 1 to .9.

The Hospital asked for a budget of \$38.3 or 37.8 per cent above the current one. We propose a budget of \$33.3 million, an increase of 19.8 per cent.

—STATE PRISON. The State Prison has the same neglected needs that affected the Hospital two years ago; hence we made substantial increases for the Prison.

The Prison asked for a budget of \$6.2 million or an increase of 77.1 per cent over the current budget. In our proposed budget we have allowed the Prison \$4.8 million or an increase of 37.1 per cent above the current budget.

—PERSONNEL. At present the State has 7,854 classified permanent employees and 237 unclassified positions for a total of 8,091.

The executive agencies asked for 1,589 new permanent positions, or an increase of 19.5 per cent. Instead we allowed for 327 new permanent positions and recommended that eight others be abolished.

It should be noted that of the 327 new permanent positions included in this

budget, 216 are presently temporary positions. So in fact we are recommending only 111 new permanent positions, or an actual increase in states personnel of just 1.4 per cent.

—EDUCATION. We preserved for Foundation Aid the same formula used for the current budget. This gave us a figure of \$7.7 which is an increase of nine per cent.

We are recommending full funding for the school lunch program. We are using a 75 federal 25 state match at a total of \$761.080 for the biennium. While this will cost the State more it will mean that students will not have to be charged more for their lunches.

Under our budget the state's share of salaries for superintendents, assistant superintendents and teacher consultants will be paid directly to school districts as a grant-in-aid.

We propose an increase in tuition for in-state students at the Vocational-Technical Schools. In Concord the tuition would go from \$300 to \$425 and for the other schools it would increase from \$280 to \$400. The suggested increases are in keeping with the present costs in similar New England schools.

In the area of vocational rehabilitation education our total budget is substantially at the same level of spending in fiscal 1975. This is because in 1976 federal funds were budgeted at a lower level. We believe these federal funds will be again increased.

—HEALTH. All of our health services were increased. New positions were provided at Laconia State School where the budget would be increased 7.7 per cent in fiscal 1976 and further increased by 1.2 per cent in 1977.

The Veterans' Home would receive increases of 7.1 per cent and 30.3 per cent respectively for 1976 and 1977.

—MISCELLANEOUS. The Governor's Commission on Crime and Delinquency is up about five per cent. However, in order to avoid the administrative confusion which resulted when state match funds were left in the agencies seeking crime funds, we brought into the Commission budget state match funds of \$125 thousand per year.

We performed a similar bookkeeping transaction in Central Data Processing by allocating to the several agencies employing CDP services the funds with which to purchase those services. When these allocations are added to direct appropriations for CDP, we find that the total recommended appropriations for CDP amount to \$5 million for the biennium for an increase of 13.6 per cent.

As of June 30th the Fish and Game Department had a cash balance of \$112 thousand. Revenue from license fees has fallen off drastically. Consequently, we are recommending a cut in appropriations for this Department and an increase in General Fund appropriations from \$25 to \$200 thousand to provide for search and rescue operations and other costs. We recommend the elimination of 23 permanent positions. We have restored to this agency's budget the Richmond Hatchery, two conservation officer positions and one stock clerk.

The Greyhound Racing Commission has been making spectacular increases over prior revenue estimates for the past year. Good management at Seabrook and Hinsdale have undoubtedly contributed to the most welcomed flood of dog track revenues. The Commission will need more funds for its operations and hence has a budget increase of 65 per cent.

The Superior Court budget is up 35 per cent primarily because of a new Justice; Police Standards and Training Council would become a permanent state agency with three classified employees and one unclassified director and an increase of 217 per cent in its budget since the State would be picking up \$69 thousand.

For the Agriculture Department we recommend an increase of 2.4 per cent. Too long have we neglected this important segment of our economy. We ask that promotion funds be increased from \$500 to \$25,000 and assistance to the agricultural fairs be continued at \$300 thousand per year.

The great majority of our agencies were highly cooperative in the difficult task of preparing this budget. To each of them I express my grateful appreciation.

Permit me personally to commend the following agencies that came in either with decreased budgets or budgets under the 5 per cent goal.

Adjutant General
Agriculture Department
Attorney General
Board of Probation
Civil Air Patrol

Human Rights Commission
Insurance Department
Judicial Council
Labor Department
Liquor Commission

Civil Defense
Commission on Eminent Domain
Coordinator of Highway Safety
Horse Racing Commission

Probate Court
Public Utilities Commission
Department of Safety

For special praise I single out the Insurance Department. If we had an administrator of the year award it would have to go to Insurance Commissioner Frank E. Whaland.

Commissioner Whaland has not only brought current the three year backlog of work that faced him when he became Commissioner, but he has recommended the elimination of three positions in his department which he finds unnecessary, and a reduction in his budget for 1976 of 6.5 per cent and a further reduction in 1977 of 8.5 per cent.

The financial books of this State through June 30, 1974, were closed as of February 1. The Comptroller's Report covering this item should be ready for distribution by March 1.

This seven month lapse from the end of the fiscal year to the balancing of the books is a great improvement over the more than 18 months that existed in early 1973. With computer improvements that will be made we are confident that in the future the State's books will be closed within three months of the end of each fiscal year.

At this point I wish to thank the Fiscal Committee for their favorable response to the Comptroller's request for the loan of two accountants from the Office of the Legislative Budget Assistant. Messrs. Ernest Gleason and George Russell were of great help to the Comptroller in closing the books.

Two years ago I suggested that you consider closing the Nursing School at the Hospital. This provoked a storm of protest, some sentimental and some practical.

It's a careless hunter who steps on the same open trap twice. I am not about to do that!

In the past two years I have worked hard to improve the lot of the nurses at the Hospital and to help the Nursing School.

However, as Governor looking at the entire economic picture of the State, I am bound to call your attention to the following facts about which I shall make no recommendations.

The annual per capita cost for training student nurses at the Concord Technical Institute is \$1,828. This compares with a similar annual cost to the taxpayers of \$5,500 per student nurse at the Hospital.

In the past seven years 22 per cent of the student nurses who graduated from the hospital were employed at the Hospital.

Approximately 33,000 square feet of space for dormitories and classrooms is used in Londergon and Johnson Halls.

I am happy to conclude these remarks by expressing publicly my deep appreciation to Comptroller Arthur Fowler, Personnel Director Roy Lang and their respective assistants for the long, hard hours of work they devoted to the preparation of the 1976-1977 budget.

I am also grateful, once again, to Representative Joseph Eaton for his willingness to chair the budget hearings for me.

To Representative George Wiggins and Senator Ward Brown I extend sincere thanks for their attendance at the budget hearings at my request.

To Representative Arthur Drake and Senator Rob Trowbridge and to all members of their respective committees I am pleased to pledge my sincere and whole-hearted cooperation in finalizing a budget that will render a maximum service to our people with the limited funds available.

Our proposed budget is built on today's economy.

It proposes no new taxes and is balanced for the next two years.

If the economy improves, as we all pray that it will, we shall have more funds to spend as our revenues increase under the present tax structure.

If the economy grows worse, it will require severe belt tightening and could even invoke action by the Advisory Budget Control Committee created by RSA Section 9:13-a to 13-c. For this reason the legislative appointments to this Committee should be made soon.

Frugality, thrift and work must be the watchwords of our conduct in the immediate years ahead. If we lace these yankee virtues together with faith in

ourselves and trust in our God, our labors together here will be fruitful for our people.

On motion of Rep. Downing the Joint Convention rose.

The present law provides some incentive for responsibility by the town for the control of dogs. The dog tax pays for damage done by dogs, but the town can collect from the owner of the dog doing the damage. In many cases the victim does not know the owner of the dog and if this bill were passed would have no recourse.

Resolution adopted.

HB 125, providing for payment of resident workers at the Laconia state school; providing for new positions at said school, and making an appropriation therefor. Ought to pass with amendment. Rep. Senter for State Institutions.

This action is required to conform with federal minimum wage requirements. Without conformance much therapeutic activity will have to be abandoned.

171:2-a Payment of Resident Workers. The director of the division of mental health is authorized to pay wages to working residents at the Laconia state school and training center and may issue rules to implement a payment program which does not conflict with federal requirements. A portion of the payments to working residents shall be subject to the payment of care, treatment and maintenance charges as provided in RSA 8:43.

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Appropriation. There is hereby appropriated to department of health and welfare, division of mental health for the benefit of the Laconia state school and training center the sum of twenty-nine thousand two hundred ninety-four dollars for the fiscal year ending June 30, 1975, as follows:

Permanent	\$13,395
Other	
Payment of resident workers	14,560

Amendment adopted.

Referred to Appropriations.

HB 110, providing for an annual observance by proclamation of September seventeenth as Constitution Day. Ought to pass with amendment. Rep. Morgan for Statutory Revision.

AN ACT

September seventeenth as Constitution days.

Amend the bill by striking out section 1 and inserting in place thereof the following:

COMMITTEE REPORTS

HB 240, to delete the position of commandant at the state veterans' home from the list of positions which are entitled to maintenance and to increase the statutory salary and making an appropriation therefor. Ought to pass. Rep. Myrl R. Eaton for Claims, Military and Veterans Affairs.

Present trend is away from furnishing quarters to those in charge of "domiciliary" care institutions; with qualified personnel on twenty-four hour duty, and with good roads, there is no valid reason for the person in charge to actually reside on the premises. Legislation in 1973 resulted in the taking of quarters from the Warden and Deputy Warden of the State Prison. Additionally, the quarters presently available to the commandant of the New Hampshire Veterans Home are scheduled for demolition in the spring of 1975, to make way for a hospital. Referred to appropriations.

HB 137, requiring the dating of retail containers of cream. Ought to pass with amendment. Rep. Greene for Environment and Agriculture.

As amended, the bill requires that all cream containers be conspicuously marked with the date of the last day on which it may be sold.

AMENDMENT

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Dating of Retail Containers of Cream. Amend RSA 184 by inserting after section 30-f the following new section:

184:30-g Dating of Retail Containers of Cream Required.

I. In this section, "cream" means that portion of milk, rich in butter fat, which rises to the surface of milk on standing, and is fresh and clean. It contains less than thirty percent but not less than eighteen percent by weight of milk fat and not more than two-tenths percent of acid-reacting substances, calculated in terms of lactic acid.

II. All retail containers of cream sold or offered for sale shall be conspicuously marked with the date of the last day on which it may be sold or offered for sale with a reasonable expectation that the cream will not be sour, as determined by the manufacturer.

Amendment adopted.

Ordered to third reading.

HB 218, permitting regional planning commissions to receive grants for pilot programs for solid waste disposal. Ought to pass. Rep. Greene for Environment and Agriculture.

This corrects an oversight in the listing of those who could apply for solid waste pilot program grants by adding regional planning commissions to the list. The committee vote was unanimous.

Ordered to third reading.

HB 264, relative to the practice of professional engineering by registered professional engineers. Inexpedient to legislate. Rep. Duprey for Executive Departments and Administration.

No real need for the bill was established. The present law does not prevent civil engineers from doing general surveying. Neither the New Hampshire Branch of the American Society of Civil Engineers or the Professional Engineers Registration Board took a position in favor of the bill.

Rep. Duprey moved that HB 264 be recommitted to the Committee on Executive Departments and Administration and spoke to his motion.

Adopted.

HB 138, relative to the season for taking wild deer by gun and bow and arrow. Inexpedient to legislate. Rep. Scott for Fish and Game.

No one in favor of the bill, including the sponsor.

Resolution Adopted.

HB 199, relative to the trapping of beaver, fisher and otter. Inexpedient to legislate. Rep. Scott for Fish and Game.

Undue hardship to trappers. Authority should stay with Legislature.

Rep. Cushman moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to her motion.

Reps. Stimmell, Huggins, and William Boucher spoke against the motion.

Rep. Milton Cate spoke in favor of the motion.

Rep. French moved the previous question.

Sufficiently seconded.

Adopted.

Motion lost.

Resolution adopted.

HB 77, relative to registered nurses and practical nurses, their education and registration; and making an appropriation therefor. Ought to pass. Rep. Roma A. Spaulding for Health and Welfare.

This bill combines RSA Chapter pertaining to registered nurses (RSA 326-A) and the Chapter pertaining to practical nurses and scholarships (RSA 326) into a single Chapter covering the subject matter contained in respective Chapters. The board of nursing education and registration is expanded from five to six members, giving the practical nurses a board member, which they do not have under the present statute. The bill further standardizes the various discrepancies that now exist in the two Chapters.

Referred to Appropriations.

HB 100, prohibiting pay toilets in buildings and facilities open to the public. Ought to pass with amendment. Rep. Sullivan for Health and Welfare.

The installation, maintenance or use of any type of pay toilet facilities in any building or facility open to the public is prohibited unless there are one or more free toilets in same location.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

limiting the use of pay toilets in buildings
and facilities open to the public.

Amend RSA 147:9-a as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

147:8-a Pay Toilets. The installation, maintenance or use of any type of pay toilet facilities in any building or facility open to the public is prohibited unless there are one or more free toilets in the same location.

HB 102, providing for the care and treatment of children with asthma and related lung disease and making an appropriation therefor. Ought to pass. Rep. Gabrielle V. Gagnon for Health and Welfare.

This bill establishes a program to provide financial assistance to children under age eighteen who suffer from asthma and related chronic lung disease for the necessary care and treatment for such disease.

Referred to Appropriations.

SB 7, requiring hairdresser instructors to present a certified record of approved training before renewing their licenses. Ought to pass. Rep. Haller for Health and Welfare.

This bill would specify that hairdresser instructors must certify to the Board of Registration of Hairdressers that they have completed fourteen hours of teacher training in an approved seminar or school in the year preceding their application for license renewal. The law now requires only fourteen hours of "hairdressing training".

Ordered to third reading.

SB 13, to eliminate the health certification for hairdressers and manicurists. Ought to pass. Rep. Sullivan for Health and Welfare.

This bill eliminates the requirement that hairdressers and manicurists be certified by a physician to be not afflicted with tuberculosis, venereal disease or any other communicable disease.

Ordered to third reading.

SB 14, relative to changing the nomenclature in RSA chapter concerning beauty salons. Ought to pass. Rep. Osgood for Health and Welfare.

This bill amends the statutes regulating the practice of cosmetology by deleting the words "hairdresser", "shop", "hairdressing", and "Board of registration of hairdressers" and inserting in their place "Cosmetologist", "salon", "cosmetology" and "Board of cosmetology" respectively.

Ordered to third reading.

HB 19, prohibiting participation with the council of state governments. Inexpedient to legislate. Rep. Shea for Legislative Administration.

The committee felt that participation in the Council of State Governments was worthwhile.

Resolution adopted.

HB 21, restricting travel expenses at state expense for members of the general court on official business outside of the state. Inexpedient to legislate. Rep. Casassa for Legislative Administration.

This bill would accomplish the opposite of the sponsor's intent.

Resolution adopted.

HB 84, relative to the use of office space in the state house and providing for a press room on the second floor. Inexpedient to legislate. Rep. Milne for Legislative Administration.

The committee is aware of the inconvenience caused by moving the Press from room 214 but felt that the present arrangement would have to suffice, at least until the space shortage is relieved.

Resolution adopted.

HB 37, relative to regulation of the establishment and operation of mobile home parks. Inexpedient to legislate. Rep. Bednar for Municipal and County Government.

This bill has been researched by a subcommittee. The committee does not feel that it covers the entire subject.

Resolution adopted.

HB 150, relative to county bonds. Ought to pass. Rep. Roy W. Davis for Municipal and County Government.

This bill corrects a wrong reference in law and requires the county convention to meet not less than seven days nor more than fourteen days after a public hearing on a county bond issue.
Ordered to third reading.

Rep. Drake addressed the House on the state of the budget.

Every legislative session that I have been Chairman of the Appropriations Committee, I have felt the responsibility to inform this body of my analysis of the financial condition of the State. The statement I am about to make will specify the current condition as I understand it, and, as conditions change and/or become clearer, I will ask your indulgence to appear before you again.

The Governor's message contained significant qualifications. From this message, I quote:

"1) Given an economy through 1977 worse than at present, we would expect an average growth in our revenue of 5 per cent a year for the ensuing biennium.

2) If the economy improves, and we all pray that it will, we shall have more funds to spend as our revenues increase under the present tax structure.

3) If the economy grows worse, it will require severe belt tightening and could even invoke action by the Advisory Budget Control Committee created by RSA Section 9:13-A to 13-C. For this reason, the Legislative appointments to this Committee should be made soon."

The Governor has inferred by his appeal to the Legislative Leadership to appoint members to this Committee that his recommendations may not be as sound as first appearance would indicate. The Advisory Budget Control Committee was not established as an alternative to sound budgeting practices but was established as an emergency measure, if one should arise, to control the amount of the deficit.

House Rule 32(a) states in part that the Appropriations Committee "shall submit to the House on or before May 1 a budget bill for the biennium which submits a balanced budget."

The Governor's General Fund Appropriation recommendation for 1976-1977 proposed an increase of 13.9 per cent over the expenditures or appropriations of the previous biennium. The fiscal year 1975 appropriations were substantially increased by the 1974 special session. It is unreasonable, then, to use the biennial appropriations and utilize these amounts as the base from which one should project needs.

On this basis, the Governor's recommendations prove to be an actual increase of only 2.2 per cent for 1976 over adjusted authorization for 1975 and 3.61 per cent for FY1977 over FY1976 recommendations. If these recommendations remain and the cost of living which increased 11 per cent in 1974 continues into 1975, even with some moderation, the agencies will have less purchasing power to maintain current levels of service.

The Governor estimates revenue increases of 5 per cent each year of the biennium, a conservative estimate in normal times. Drastic business cutbacks and layoffs support the fact that these are not normal times. Taking into consideration what we all see around us and read in the press every day, I believe his revenue estimates are at least \$4.5 million too high.

The Business Profits Tax, one of our three largest revenue producers, is, in my opinion, at a critical turning point. While our current revenues are still running ahead of previous years, there is a significant question as to what the future holds for profits both nationally and, more specifically, here in the State of New Hampshire.

We probably will not be in a position to give a reliable estimate until May 15th when the final returns are in for the previous calendar year.

As you know, a suit has been filed against the State of New Hampshire to void the commuter tax. It has been presented to the United States Supreme Court, and we are now awaiting the decision. If the decision is unfavorable for New Hampshire, using the Governor's estimates, we would lose \$3.9 million of revenue for 1975 and \$9.4 million of revenue for the ensuing biennium. In all years prior, we have collected \$10.8 million. All of these are now hanging in the balance.

Revenues have been, and in all probability will be, affected by the gasoline shortage and/or a rise in the price of gasoline. There seems to be a direct correlation between gasoline consumption and liquor and tobacco sales. This again produces a question concerning the growth rate of General Fund revenues for 1976 and 1977.

Let me publicly commend the House Ways and Means Committee for its diligence

and perseverance in the study of State revenues. I intend to cooperate fully with the efforts of the Ways and Means Committee to accomplish its duties and will use its estimates of revenues for 1976-1977 in the regular budgeting process.

If my estimate of revenue is correct and subsequently verified by the Ways and Means Committee, we will have to submit, to fulfill the provisions of House Rule 32(a), an operating budget \$3 million lower than the Governor's recommended budget. This will leave no funds available for Legislative specials such as State employee pay raises, older retirees' cost-of-living increases, aid to the elderly, or any other new spending programs. New programs cannot be our first priority, particularly when there is a serious question about our ability to fund current programs or services. Logic, to me, dictates that we must first make our decisions on the operating budget and finance that which we must continue, and then if funds are available, provide for new programs.

My main area of concern is that we provide the necessary human services in the next biennium to reduce hardship and suffering. If the revenue picture does not change during the session, in my opinion, we will not have a thrift budget, but will have an austerity budget.

Reps. French and Chambers moved that Rep. Drake's remarks be printed in the Journal.

Adopted.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Our Father, help us to realize that there are many injustices and inequalities in life, that poverty, hardships, and suffering are often the lot of good people, and that evildoers are not always punished immediately for their wrongs. Help us to understand that we can take any experience of life and use it as a means of growth and development of right character if it is accepted in the right attitude. Clarify our thinking and enable us to know what is right. Grant that we may accept our full share of responsibility in every situation. When times of testing come and we are tempted to lower our standards, give us the power to make each decision as You would have us do, and to meet each experience courageously and victoriously. In Jesus' name, Amen!

increasing maximum amount of prizes allowed in beano games.

Amend the bill by striking out section 1 and renumbering sections 2 and 3 to read as follows:

1 and 2 Respectively.

Amendment adopted.

Ordered to third reading.

In response to an inquiry from the press on the subject of mileage payments to members and attaches, the Speaker made the following remarks:

The present policy cannot be changed by administrative action. Reimbursing legislative employees for mileage is governed by the provisions of RSA 14:18 which specifies that mileage will be paid "for each day of attendance." The reimbursement of members of the legislature is governed by Part II, Article 15 of the New Hampshire Constitution which requires that "each member shall receive mileage for actual daily attendance on legislative days."

Changing the law and the constitution to provide that mileage will be paid only for actual miles travelled will cause, if done separate from other actions, more problems than it solves. A member of the Berlin delegation who uses his mileage to cover the expenses of his room and board while in Concord for a legislative session may well not be able to afford to serve if the mileage payment is eliminated. This is particularly true in today's inflationary economy because the rate for payment of legislative mileage has not been changed since 1960. And almost all legislative staff employees, unlike regular state employees, have no tenure, no benefits and a job that disappears on the first of July. It is unrealistic to expect people to relocate on the basis of temporary employment; it is insensitive to expect that geographical distribution will play no part in the hiring of legislative employees.

An equitable solution to this problem will require a change in the Constitution so that members receive at least enough of a salary to permit them to pay for the actual expenses incurred while serving in the legislature. Payment on the basis of miles actually travelled would then be fair and reasonable.

With regard to staff, I believe that permanent legislative staff should be placed in the same category as state employees. They should receive benefits and they should not be paid mileage for travels to and from work. However, while we remain a part-time legislature, it will be difficult to abolish mileage payments for part-time legislative employees.

Of course, there is no guarantee that these more equitable solutions will be less expensive than the present system.

UNANIMOUS CONSENT

Rep. Spirou addressed the House by unanimous consent.

Mr. Speaker, I rise to share with you and my House colleagues, my profound concern about the effects of the current economic conditions on our New Hampshire citizens.

On the national level, the unemployment rate is well over 8.2 per cent, already hitting epidemic proportions and predicted to get worse before it gets better.

The economic situation of New Hampshire is no better. Our reported state unemployment rate is at 6.4 per cent—or about 22,000 able-bodied workers without jobs. This tragic figure does not include those struggling with part-time jobs or those who do not qualify for unemployment benefits. The Commissioner of the Department of Employment Security has publicly stated, over the weekend, that he expects the reported unemployment rate to reach 7.5 per cent that, more realistically, will represent 10 per cent. And that's a lot of unemployed New Hampshire citizens.

In Manchester 4200 citizens are out of work (6.6 per cent of the work force); In Berlin 1300 (8.6 per cent); In Dover/Rochester 3000 (8.4 per cent); In Franklin/Laconia 2400 (8.1 per cent); In Portsmouth 2150 (6.2 per cent); In Concord 1800 (5.5 per cent); In Claremont 1400 (5.3 per cent); In Keene 1500 (5.3 per cent); and in Nashua 3000 (4.8 per cent).

For these people the situation is a crisis of survival! I think what the statistics show is that the next few months are going to be an unusually difficult time for many New Hampshire folk. They also indicate that the economic slump is having, and will continue to have, a profound effect on state, private, and local agencies designed to deal with human services and economic assistance. If this is the case, we elected representatives, need to give those New Hampshire folks and those agencies all the help we can. We ought to find out what support and help they need, before the session ends.

I think it is important for us to know how the Manpower administration is coping with the emergency employment programs. Is this agency implementing the law? Is the staffing sufficient to administer the program effectively? Are they procuring as much money from federal sources as New Hampshire is entitled to?

What are the Community Action agencies doing? Are they properly staffed? Do they need the support of the Legislature to help them respond adequately to people's immediate needs?

And then there is the Department of Employment Security.—When people lose their jobs, this department should be the first place for them to seek assistance. How is the department responding? Are claims being paid promptly? Is additional staff needed to handle the current economic crunch? Is the department taking advantage of federal assistance programs to help the jobless by providing additional emergency benefits? Is there anything we can do as a Legislature to help the employment service section in the department to be more effective?

Today's jobless citizens face not only the loss of their paycheck, but also, their inability to provide for the bare minimum needs of their families.

We, as a Legislature, should satisfy ourselves that the current level of unemployment benefits is consistent with a decent human existence. If the Department of Employment Security is the first resort for our unemployed, welfare sources should be the last. When a person's unemployment benefits run out, there is no place else to go but to seek public assistance at local and county levels. There are no state welfare benefit provisions for able bodied men and women willing to work, but unable to find jobs in these recessionary times.

Are our local and county public assistance programs prepared for the pressure they are going to feel in the coming months? Is there any central source where hard-pressed local public officials can go for guidance and help in solving their problems?

Mr. Speaker, if we are to face our responsibilities through change and improvement, these questions must be answered before we go home at the end of June. These are not political questions. They transcend party lines and ideological positions. The people affected by the present economic difficulties are looking to us for direction. We should do whatever we can to alleviate severe conditions.

While the solutions may be difficult, getting the necessary information should not be, if we make use of the vested authority we have as a legislative body. Traditionally, when we want facts, we go get them. We establish a special committee composed of respected members from both political parties, reflecting different points of view. These special committees with which we are all familiar, act as our eyes and ears. They have prestige and authority to bring forth responses from those who don't really want to respond.

So, I think the time has come for us to establish a special committee whose function will be to see whether state agencies, charged with the responsibility of providing essential services to the unemployed, are equipped to meet the challenge of present times.

I propose that the Speaker appoint such a committee to be chaired by the majority and minority leader of the house; remaining members consisting of the chairpersons of the House Committees on Executive Departments and Administration; Labor; State Institutions; Health and Welfare; as well as the Democratic liaison members of those committees. The committee should hold hearings throughout the state to solicit the views of people affected. It should also solicit participation and testimony from the various state, local, and private agencies in order to produce the answers we need. The committee should report back to the House not later than April 30th.

Mr. Speaker, the unemployed citizens of our state need our immediate attention. What I have suggested is a modest proposal but the potential results can be substantial. I respectfully urge you to act upon it promptly!

Rep. Gelinas moved that Rep. Spirou's remarks be printed in the Journal.

Adopted.

The Speaker announced that Thursday, Feb. 20, will be a consent calendar day.

Rep. French moved that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Tuesday next at 12:30 o'clock.

JOINT CONVENTION

Frank P. Kenison, Chief Justice of the Supreme Court, addressed the Convention.

THE STATE OF THE JUDICIARY

Mr. Speaker, Mr. President, His Excellency the Governor, and Honorable Members of the Senate and House of Representatives:

It is only by virtue of the cordial invitation of the Speaker of the House and the President of the Senate pursuant to House Concurrent Resolution No. 7 (HCR 7) that I am privileged to speak to you today as a representative of the Judiciary of this State. You will recall that this Legislature, in 1971, provided that the Chief Justice of the Supreme Court should address the Legislature at each regular session on matters relating to the improvement of the administration of justice in New Hampshire RSA 490-A:3(c) (Supp.); Laws 1971 ch. 459. Courts, like Legislatures and Governors, in performing the duties imposed on them by law inevitably antagonize some people as well as make a few friends. However it is hoped that the ladies and gentlemen of the Senate and the House who are in the former category will not regard this law as a form of unusual and cruel punishment prohibited by our constitution but, in any event, I leave you with a happy thought that it can be repealed if you think the punishment is too severe.

In introducing this talk I referred to the members of the Senate and the House of Representatives as honorable and did so in good faith, using the term in its true and genuine sense. Let me disavow at the very beginning any thought that the term is used in the sense that it was used by that abrasive, cynical wit, Ambrose Bierce, who prepared a compendium of definitions which he called "The Devil's Dictionary". In defining "honorable" he said that "in legislative bodies it is customary to mention all members as honorable; as, 'the honorable gentleman is a scurvy cur.'"

In a more serious vein, it is considered a high privilege to discuss with you some of the activities and ongoing programs and plans that the Judiciary of this State is pursuing with vigor and to the best of its abilities. Two years ago you were advised that the Judiciary in this State may be fairly described as alive, well and awake. We

repeat this statement with confidence in 1975. Perhaps it would be well in this connection to explain that statement with a slightly different emphasis. The idea was best expressed by the publisher of a well-known national newspaper who was asked how he would describe the success of his paper. After some thought he replied as follows: "We're sometimes proud of it, seldom ashamed of it and never satisfied." The institution of the Supreme Court and the Judiciary of this State, although it takes pride in its work and is seldom ashamed of it, is never satisfied with the present because it believes that with constant effort it can be improved and become a better institution than it was or is. This constant self-examination and reexamination is the prime factor which holds high hope that the Judiciary of this State continues to be a part of the twentieth century in a manner that enables us to meet the problems of change, progress and new developments. We are not in a state of crisis and we wish to affirm again that courts and police do not cause crime even though they continue to be convenient targets to blame for it. Scandal has not reached the shores of the Judiciary in this State and we continue to develop preventive methods to see that it does not. If at times other departments of our government become impatient with the results and the employment of new legal methods there may be comfort in the wisdom of that noted constitutional scholar, Paul Freund, who in discussing constitutional matters said: "Sometimes the practical-minded need to be reminded that we hit the target by aiming above it."

Two years ago in the State of the Judiciary address to the Legislature it was suggested that there be established a procedure for the review of State Prison sentences by three judges of the Superior Court who would act as a review division of that court. What was recommended then and recommended now is that we have a procedure similar to that in Connecticut, Massachusetts and Maryland, but it would be a more streamlined, efficient and speedy approach to sentence review. The review division would meet in Concord, provide a speedy review of criminal sentences and produce a coordination and uniformity which would far outweigh the minimal cost involved. There are many appeals in criminal matters which may have little if anything to do with the guilt or innocence of the accused but are taken because the sentence is considered unjust. This proposal would eliminate many of those appeals and would be far less expensive to the judicial system and would do much to prevent unrest in our major penal institution. As a member of the Supreme Court, having some familiarity with its problems, I can assure you that this method is preferable to the appellate review of sentences by the Supreme Court which is advocated elsewhere in the nation.

This proposal has received the support of the Superior Court and the implementing legislation has been prepared under the supervision of Chief Justice Keller of that court. The Supreme Court, the Judicial Council and other committees that have studied the matter have also endorsed the proposal. It is highly recommended for your consideration at this session of the Legislature.

For twenty years the Legislature has been struggling with various bills to improve the District and Municipal Court System in this State. Some progress has been made but more recently several committees and commissions have come to the conclusion that it is time for New Hampshire to do what most other states have done in this field. The Governor's Commission on Court Systems Improvement, under the chairmanship of Judge Maurice Bois of the Superior Court, last year recommended eighteen full-time district court judges and two new district courts. If this is enacted into law it will provide improved service to the public, more direct supervision of the courts within the system, avoid inevitable conflicts that parttime judges may face and result in improved courtroom facilities. This concept has been endorsed by the Judicial Council and would constitute a significant advance if the Legislature, in its wisdom, decides to enact it at this session. These recommendations by the Judicial Council and the Governor's Commission on Court System Improvement are beneficial and in the public interest. I am not particularly concerned with the details of the drafting of the bill, except to say that some protection should be given to the judges already serving within the district court system.

In 1973, Senate Bill 214 was referred to the Judicial Council for study and recommendation. That bill provided that the present ratio of one superior court judge for each sixty thousand of State population be lowered to forty thousand of State population. The Judicial Council, although realizing the increasing caseload in the Superior Court, thought that this provided more judges than could be accommodated under existing courtroom facilities and recommended that the ratio

be placed at one judge for every fifty-five thousand. This recommendation is one in which I concur and call to your attention at this session.

Both the Governor's Commission on Court Systems Improvement (see 16 N.H.B.J. 59-93 (1974)) and the Judicial Council (see 15th Report of the Judicial Council 34-35 (1974)) have recommended that New Hampshire adopt a merit selection plan for the selection of judges. This is an important proposal which merits the combined attention and cooperation of the legislative, executive and judicial branches of the State government.

This is an appropriate opportunity to congratulate the Legislature on one of its outstanding attributes which the public frequently overlooks. Over the years this Legislature has enacted many progressive, innovative and forward-looking measures. An excellent example is the creation of the New Hampshire Court Accreditation Commission in 1971. RSA 490:5-a to 5-e (Supp.) New Hampshire was the first state in the United States to authorize and establish by legislative act a Court Accreditation Commission. This commission, under the chairmanship of Judge John King of the Superior Court, continues its quiet, careful work in assisting cities, towns and counties in upgrading and improving their courthouses and court facilities. Undoubtedly Arthur Drake, Chairman of the Appropriations Committee and C. R. Trowbridge, Chairman of the Senate Finance Committee will be pleased to know that this is one agency appointed by the Supreme Court that is operated competently without State funding because its dedicated members have volunteered their time, services and expenses. It was only recently that they received a small grant from the Governor's Commission on Crime and Delinquency to cover printing and incidental costs.

The Supreme Court has appointed a committee under the chairmanship of Attorney John Graf to make a comprehensive study and survey of the American Bar Association's Standards Relating to the Administration of Criminal Justice. This committee will report its findings and conclusions and will indicate the extent to which the State of New Hampshire has complied with these standards and goals. This is a time-consuming project which will require the combined talents of the Legislature and the bench and bar of this State. It is a progressive step which should be of great benefit in determining what we can do to improve the administration of criminal justice in this State.

In this ear of inflation and grim fiscal reality it may be unwise to suggest a new, although minor, expenditure of State funds. However, it is my duty to report to you that in one respect New Hampshire has the dubious distinction of being one of only four states that does not have a state court administrator. This leaves the rhetorical question whether the other states are doing something right or whether New Hampshire is doing something wrong.

Part I, article 37 of our State Constitution provides that the three departments of government, legislative, executive and judicial ought to be kept as separate from, and independent of each other as the nature of a free government will admit. The Supreme Court has consistently jealously guarded this doctrine of separation of powers. In all of our decisions and in our advisory opinions we shall continue to do so. We respect the power and the independence of the Governor and of the Legislature and that is one of the reasons that we have never attempted to compete with the Legislature in determining the wisdom, expediency or desirability of legislation it enacts because it is entitled to and receives from this court a presumption of constitutionality. Opinion of the Justices, 110 N.H. 359, 266 A.2d 823 (1970).

Although the Judiciary does not have the power of the sword of the Executive, now the power of the purse of the Legislature, it will continue to retain its independence and work in harmony and cooperation with the executive and legislative branches of the government as it has in the past. Confrontation between the three great powers of the State government may result in stalemates and frustrate reasonable compromises; on the other hand, cooperation between the three departments of government generally result in progress thereby eliminating some battle scars. We need to heed the wise dictum of Mr. Justice Holmes when he said: "We must remember that the machinery of government would not work if it were not allowed a little play in its joints." *Bain Peanut Co. of Texas v. Pinson*, 282 U.S. 499, 501 (1931). The judiciary, by its very nature, is restricted to working on and digesting what the fortuitous eddies and currents of litigation may wash its way. Nevertheless, the Supreme Court and the Judiciary of this State will continue to

maintain and guard its house of justice for the humble as well as the powerful, for the poor as well as the rich, for the minority as well as the majority and for the unpopular as well as the popular. "Law is the lubricant that enables our system to work. It must be flexible, adapting to the changing needs of changing times. Our courts cannot and do not march to the cadence of ancient learning, blindly applying to the problem at hand principles derived from totally different circumstances. They look instead to the best teaching of the past as a guide to the intelligent solution of the problems of today." W. Cary and C. Bright, *The Developing Law of Endowment Funds: "The Law and the Lore Revisited"* 1, 51 (1974). To accomplish this goal and to make the law of New Hampshire responsive to the needs of its people in our time, to which we are firmly devoted, we need the constructive criticism of all branches of government and its citizens.

In closing, we wish you well and congratulate this fully independent Legislature which is not controlled or dominated by any group, any lobby, any organization, any newspaper or any department of government. Thank you again for your cooperation in making this State a better place in which to live and work and may the proud traditions of your past be with you at all times.

ENROLLED BILLS AMENDMENTS

SB 14, relative to changing the nomenclature in RSA chapter concerning beauty salons.

AMENDMENT

Amend the bill by striking out section 22 and by renumbering the original sections 23 and 24 to read 22 and 23, respectively.

Adopted.

SB 7, requiring hairdresser instructors to present a certified record of approved training before renewing their licenses.

AMENDMENT

Amend RSA 314:22 as inserted by section 1 of the bill by striking out in line 12 the word "hairdresser" and inserting in place thereof the word (cosmetologist) so that said line, as amended, shall read as follows: said expiration date. No license for cosmetologist instructor shall be re-

Adopted.

SB 13, to eliminate the health certification for hairdressers and manicurists.

AMENDMENT

Amend the bill by striking out section 2 and inserting in place thereof the following: 2 Effective Date. This act shall take effect upon its passage.

Adopted.

The Enrolled Bills Amendments to SB 7, SB 13 and SB 14 are necessary because SB 7 amends RSA 314:22 and SB 13 repeals RSA 314:23, and SB 14 amends both of these same sections. The Enrolled Bills Amendments to these bills are necessary so that the obvious intention of the Legislature in passing all three bills will be effected.

For example, the effective date of SB 13 is changed to be effective on passage which then immediately repeals RSA 314:23; and SB 14 is left effective 60 days after passage but the section in that bill which amends RSA 314:23 is deleted. If this were not done, when SB 14 becomes effective it would re-enact RSA 314:23.

The amendment to SB 7 incorporates in RSA 314:22 the change which is made to that section by SB 14. If this were not done, when SB 7 becomes effective it would negate the change which was made in that RSA section by SB 14.

and HB 144 was recommitted.

HB 24, relative to the publishing of certain material in the annual reports of county officers. Ought to pass with amendment. Rep. Gage for Municipal and County Government.

The deletion of names of paupers, feeble-minded and prisoners from the annual county reports is in line with the desire to preclude embarrassment to the families of such persons. Such information, if actually required, is available from the officials concerned, therefore, there is no need to publish this material in public reports.

AMENDMENT

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Annual Reports Due. Amend RSA 30:1 (supp), as amended, by striking out said section and inserting in place thereof the following:

30:1 Making, Publication, Penalty. The sheriff, the jailer, the physician, the clerk of court, the county attorney, the treasurer, the county commissioner and the superintendent of the county farm of each county shall make up several reports to the close of the county's fiscal year annually, and the same shall be printed together in pamphlet form before or during the second month following the close of the county's fiscal year. Whoever violates any provision of this section shall be guilty of a violation and the fine shall be paid to the treasurer of the county of which said person is an official.

2 Publishing of Statistics in Lieu of Names. Amend RSA 30:3, as amended, by striking out said section and inserting in place thereof the following: 30:3 Contents; Form.

- (a) Total cost of maintaining a nursing home;
- (b) Number of patients maintained at the nursing home;
- (c) Number of prisoners in each category of criminal offenses committed;
- (d) Total cost of maintaining prisoners at the county farms, computed by the same method in each county; and
- (e) Number of people helped outside the farms and the towns in which they reside.

11. The reports of the several officers as prescribed in paragraph 1, shall be submitted to the county commissioners in as much detail as the commissioners may require.

CACR 2, relating to decreasing the age requirement for members of the senate. Providing that the age requirement for members of the senate is decreased from thirty to twenty-five years of age. Resolution requesting Supreme Court opinion. Rep. Jonas for Constitutional Revision.

RESOLUTION

Whereas there is presently pending before the House of Representatives CACR 2 relating to decreasing the age requirement for members of the senate, providing that the age requirement for members of the senate is decreased; and

Whereas Resolution No. 21 of the 1974 Constitutional Convention relating to residency requirements for election to the office of state senator and governor's councilor, providing that the residency requirement be reduced from seven years to four years was adopted by said convention and will be presented to the voters at the biennial election in November 1978; and

Whereas Resolution No. 94 of the 1974 Constitutional Convention relating to the qualifications of senators, providing that if a senator moves from his district, he shall forfeit his seat in the senate was adopted by said convention and will be presented to the voters at the biennial election in November, 1976; and

Whereas CACR 2 and Resolutions No. 21 and 94 amend Article 29 of Part Second of the Constitution of New Hampshire in different ways without regard to what the other resolution provides; and

Whereas the House is uncertain as to the effect of its amendment to Article 29 of Part Second of the Constitution if such amendment is adopted by the people in March, 1976 and the people later adopt Resolution No. 94 in November, 1976, and Resolution No. 21 in November, 1978; and

Whereas the General Court cannot amend Resolutions No. 21 and 94 to make said resolutions compatible with CACR 2; now therefore be it

Resolved by the House of Representatives that the justices of the supreme court be respectfully requested to give their opinion upon the following questions:

1. If the people adopt CACR 2 in March, 1976, and Resolution NO. 94 of the 1974 Constitutional Convention is adopted by the people in November, 1976, and Resolution No. 21 is adopted by the people in November, 1978, how will Article 29 of Part Second of the Constitution of New Hampshire read?

2. If the people adopt CACR 2 in March, 1976, and Resolution NO. 94 of the 1974 Constitutional Convention is not adopted by the people in November, 1976, but Resolution No. 21 is adopted by the people in November, 1978, how will Article 29 of Part Second of the Constitution of New Hampshire read?

3. If the people adopt CACR 2 in March, 1976 and Resolution No. 94 of the 1974 Constitutional Convention in November, 1976, but Resolution No. 21 is not adopted by the people in November, 1978, how will Article 29 of Part Second of the Constitution of New Hampshire read?

Adopted.

The Speaker responded to Rep. Spirou's request to set up a committee to deal with the problem of unemployment in the state as follows:

After careful consideration of the remarks made on the floor last week without advance notice to the Speaker, I have met with the Chairman of the Labor Committee to consider the best way for us as a House to deal with the very important problems of unemployment in the state of New Hampshire.

As a result of this meeting, I have sent a letter to Rep. Skinner which reads as follows:

The Hon. Patricia M. Skinner, Chairman
Committee on Labor, Human Resources and Rehabilitation
House of Representatives
Dear Rep. Skinner:

In response to a request made on the floor without prior notice to the Speaker, I am writing to ask that you, as Chairman of the House Committee on Labor, Human Resources and Rehabilitation, appoint a sub-committee to deal with the problem of unemployment in New Hampshire.

The original proposal suggested that a special committee be established to deal with this important problem. I have rejected this suggestion for the following reasons:

1. A special committee was set up by the 1973 legislature to study the problems of unemployed workers in New Hampshire. The report of this special committee has to date resulted in no proposed legislation for consideration during this session.

2. The original proposal to establish a special committee would have required that the majority and minority leaders and three standing committee chairmen (in addition to the chairman of the labor committee) absent themselves from their regular duties during a legislative session to handle matters not directly within their purview.

3. As Speaker, it is my intention to strengthen standing committees by referring priority items to them whenever the subject matter involved clearly lies within their jurisdiction. The provisions of House Rule 32-K show this is clearly the case in the present instance.

Because of the importance of this task, I would hope that the members of this sub-committee would be willing to devote a significant amount of time to it. I would also hope that each member would be prepared to spend a good deal of time listening to both those who are unemployed and those who are charged with assisting the unemployed so that the recommendations of this sub-committee will be balanced and fair.

More specifically, the sub-committee should be prepared to:

1. Hold open meetings in as many areas that have employment security district offices as is possible;

2. Meet with state and federal agency personnel involved with employment and job training including the department of employment security, the department of manpower affairs, community action agencies and all other agencies within the state and region presently involved with federal funds for employment and job training purposes;

3. Evaluate present and proposed federal and state legislation in terms of New Hampshire's ability to participate in programs designed to assist the unemployed;

4. Review the statistical basis presently used to determine the unemployment rate and decide whether this is a true reflection of the unemployment rate in the state;

5. Review the eligibility requirements for unemployment compensation, public employment positions and job training programs and make recommendations for changes in these requirements if any are required; and

6. Recommend ways in which the process of certifying eligibility for benefits due unemployed workers can be expedited.

This sub-committee will be given continuing responsibility for reviewing the employment situation in New Hampshire and making recommendations to the House whenever appropriate. However, I would hope that a preliminary report, together with any legislation proposed for action during the present session, would be in the possession of the House no later than April 30.

This office and the entire Republican leadership will cooperate in any way

possible to assist the sub-committee with the important work of assisting the unemployed of this state.

Sincerely,
George B. Roberts, Jr.

Rep. Skinner has responded to this request as follows:
The Hon. George B. Roberts, Jr.
Speaker of the House

Dear Mr. Speaker:

In response to your request for the appointment of a sub-committee to deal with the problem of unemployment in New Hampshire, I have today appointed the following members from the House Labor Committee:

Reps. Robert D. Tropea, Chairman, Burnham A. Judd, Patricia M. Skinner, Jane Kelley, and Robert D. Wheeler.

All the members of this sub-committee understand the importance of the task assigned to them and all have promised to invest their best efforts in the work of this sub-committee.

Sincerely,
Patricia M. Skinner, Chairman
Labor, Human Resources and
Rehabilitation

Rep. French moved that the Speaker's remarks be printed in the Journal.
Adopted.

UNANIMOUS CONSENT

French moved that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Thursday next at 12:30 o'clock.

Father of all Mankind, thank You for the gift of another day, for the new opportunity to be real persons of worth and purpose. How delightful it is God to watch a child take the carelessness of "Silly Putty" and with childlike care and faith mold it and love it into a bouncy ball, with an almost miracle like sense of purpose. Look Lord, it is controllable!

Hear us Lord! "You are the Potter and we are the clay. Mold us and make us in Your own way." With humble and contrite hearts and minds, let this Holy season of Lent, be for us a time for self-examination, penitence and renewal. In a much mis-directed age give us Your direction. The people look for Your Truth in our leadership. Let it be Lord, let it be. Amen!

COMMITTEE REPORTS

HB 58, authorizing the governor to enter into agreements with veterinary medical schools; increasing the maximum payment permitted for each student; and providing for determinations of residency by the trustees of the university of New Hampshire. Ought to pass with amendment. Rep. Drake for Appropriations.

Unanimous vote of the Committee.

AMENDMENT

Amend RSA 322-C:1-a, I as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

1. The determination of whether an applicant for assistance under this chapter is a resident of this state shall be made by the board of trustees of the university of New Hampshire, provided, however that such applicant shall be eligible for such assistance only if he has been domiciled in this state for at least twelve months prior to submitting his application for such assistance.

Amend the bill by striking out section 2 and renumbering section 3 through 5 to read as 2, 3 and 4 respectively.

Amendment adopted

Ordered to third reading.

HB 161, to reimburse the town of Dummer for revenue lost due to the taking of Pontook dam and making an appropriation therefor. Ought to pass with amendment. Rep. George I. Wiggins for Claims, Military and Veterans Affairs.

Since 1968 the town of Dummer has been denied property tax revenue from approximately 700 acres of land abutting the Pontook Reservoir. Formerly owned by the Public Service Company of New Hampshire, the land was turned over to the state, for development as a state park. Work on such park has not yet been started. The committee was firmly convinced that this situation was manifestly unfair to the town of Dummer, and that corrective action was long overdue; as at least eight other municipalities currently receive sums of money in lieu of property taxes.

AMENDMENT

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Appropriation. The sum of two thousand three hundred seventy-nine dollars and forty cents is hereby appropriated for the fiscal year ending June 30, 1975, and a like sum for the fiscal year ending June 30, 1976, to be paid to the town of Dummer, in lieu of taxes on Pontook dam. The governor is authorized to draw his warrant for the sums hereby appropriated out of any money in the treasury not otherwise appropriated.

Amendment adopted.
Ordered to third reading.

HB 344, prohibiting the practice of witchcraft in public schools. Inexpedient to legislate. Rep. Hager for Education.

This matter is already covered by state board policy (page 2684, January 15, 1975) "the outright advocacy of witchery or witchcraft as a lifestyle or religious belief is unacceptable in our public schools. However, the appropriate use of the occult and supernatural theme in developing knowledge and appreciation of various literary forms and techniques is acceptable." Using this policy the local school boards can adequately deal with the subject.

Rep. Joseph Cote moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to his motion.

Rep. William Boucher spoke against the motion.

Rep. Hildreth moved the previous question.

Sufficiently seconded.

Adopted.

Rep. Cote requested a roll call and subsequently withdrew his request.

Motion lost.

Rep. Hager moved that HB 344 be indefinitely postponed and spoke to her motion.

Whereas doubt has been expressed as to the constitutionality of certain provisions of said bill;

Now, therefore, Be It Resolved by the House of Representatives;

That the Justices of the Supreme Court be respectfully requested to give their opinion upon the following important questions of law:

Would any provision of the Constitution be violated by the provision in said bill establishing a sixty day time limit within which the governor and council must make an appointment to the office of Commissioner of Health and Welfare from the list of nominees furnished by the Advisory Commission?

2. Would any provision of the Constitution be violated by the provision in said bill empowering the Advisory Commission to make an appointment to the office of

Commissioner of Health and Welfare in the event that the governor and council shall fail to make an appointment within such sixty day period?

Further resolved that the clerk of the house be instructed to transmit to the clerk of the Supreme Court six copies of this resolution and six copies of House Bill No. 36.

Adopted.

HB 324, relative to the personnel staffing of state liquor stores on the holidays said stores are permitted to be open. Inexpedient to legislate. Rep. Brouillard for Executive Departments and Administration.

Most of the committee felt this was an administrative, not legislative matter. The holiday openings were passed on the promise that staffing would be voluntary. Resolution adopted.

HB 207, prohibiting the use of a trawl or drag in the Piscataqua River for the taking of any fin fish. Ought to pass with amendment. Rep. Anthony T. Randall for Fish and Game.

To prevent draggers from taking fin fish.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

prohibiting the use of certain trawls or a drag seine
in the Piscataqua River for the taking of any fin fish.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Trawl or Drag Use Prohibited. Amend RSA 211:49, I (supp), as inserted by 1973, 549:1, by striking out said paragraph and inserting in place thereof the following:

(c) If the applicant wishes to take said fish or smelt for three consecutive days, four dollars, and the agent shall hereupon issue a three-day nonresident fishing license for said time only under the restrictions of this title.

Amendment adopted.

Ordered to third reading.

HB 81, to establish standards of care and treatment of alcoholics, intoxicated persons, and drug dependent people. Majority: Ought to pass with amendment; Rep. Haller for Health and Welfare. Minority: Inexpedient to legislate. (Reps. George E. Gordon, Chris Andersen)

Majority: This bill is an adaptation of the Uniform Alcoholism and Intoxication Treatment Act. This bill provides standards of care in treatment of alcoholics and intoxicated persons who are handicapped by the use of alcohol in a program of comprehensive treatment. It provides for control of alcohol drinking through education, treatment, community organization and research.

Minority: The minority feels that HB 81 is a complicated measure and similar measures are not working well in other states. It is also a very expensive proposition and we are not able to cope with such a measure at this time.

Rep. French moved debate be limited to forty minutes equally divided.

Adopted.

Rep. George Gordon moved that the report of the minority, inexpedient to legislate, be substituted for the report of the majority, ought to pass, and spoke to his motion.

COMMITTEE REPORTS

(Consent Calendar)

Rep. French moved that the House adopt the committee recommendations of Inexpedient to legislate on HB's 332, 158, 157 and 196 and further moved that the House adopt the committee recommendations of ought to pass on HB's 346, 136, 290, 205, 258, 109, 255 and 322.

Adopted.

HB 332, providing full pay for persons injured and covered under the purview of workmen's compensation. Inexpedient to legislate. Rep. McDonough for Labor, Human Resources and Rehabilitation.

Bill now opposed by one of sponsors; it would reduce a worker's incentive. unanimous vote by the committee.

HB 158, providing for a special motor vehicle number plate for military aides to the governor. Inexpedient to legislate. Rep. Ryan for Transportation.

New Hampshire being a small state with the largest legislature in the country under present law could have a possible 448 sets of special legislative plates on the highways. In addition the Governor's council can add another 20. It was the feeling of the committee that to add any more plates, particularly for persons not elected by the voting process, would further injure the public relations of state government. The people this bill would provide plates for are ceremonial appointees of the Governor.

HB 157, providing for special motor vehicle registration plates for the majority and minority leaders of the house of representatives. Inexpedient to legislate. Rep. Young for Transportation.

Committee felt because the majority leader and minority leader already have legislative plates additional special plates not necessary. The title of majority leader and minority leader are not constitutional offices.

HB 196, relative to the implied consent of chemical testing of blood of boat operators or pilots who operate boats upon the public waters of the state of New Hampshire. Inexpedient to legislate. Rep. Ryan for Transportation.

No real need shown for this legislation at this time.

Properly relates this section of the law to the penalties of the criminal code. Non-controversial.

HB 290, increasing the penalty for reckless operation of a motor vehicle. Ought to pass. Rep. Ayles for Judiciary.

Increases the penalty from violation to misdemeanor. This makes the penalty consistent with similar violations of the motor vehicle laws. Non-controversial.

HB 205, to reclassify a certain highway in the town of Danville. Ought to pass. Rep. Charles E. Cummings for Public Works.

Housekeeping measure for extension of Route 111-A to connect with Route 111.

HB 258, providing for the continued revision of the Revised Statutes Annotated. Ought to pass. Rep. Morgan for Statutory Revision.

Legislative Services has adequate staff to proceed with this on a continuing basis.

HB 109, eliminating residence identification on ballots for biennial elections, other elections of national or state officers, and primaries. Ought to pass. Rep. Morgan for Statutory Revision.

Residence identification unnecessary, and omission will reduce cost of preparing ballots.

HB 255, providing for ten-day, temporary motor vehicle plates for motor vehicles, trailers, semi-trailers or tractors purchased from a dealer outside of New Hampshire. Ought to pass. Rep. Ryan for Transportation.

This bill allows a person to legally drive a car purchased out of state back into New Hampshire.

HB 322, prohibiting operation of unauthorized ground vehicles at airports. Ought to pass. Rep. Parnagian for Transportation.

Committee vote was unanimous on this bill.

COMMITTEE REPORTS (Regular Calendar)

HB 339, relative to retirement credit for Mary S. Downey and requiring employer contributions toward her retirement fund and making an appropriation therefor. Inexpedient to legislate. Rep. Parr for Claims, Military and Veterans Affairs.

The committee was in sympathy with the plight of the claimant, but found no cogent reason to negate the statutes governing the New Hampshire teachers retirement system by granting an exception, which could well lead to requests by countless other teachers and state employees in similar circumstances. Further, it was considered manifestly unfair to assess the four municipalities concerned for the "employers contribution", ranging from one to four years, in these municipalities during the period 1929-1940, when teacher salaries were a great deal lower than today's salaries.

The vote in committee was unanimous.

Resolution adopted.

HB 216, prohibiting the use of buckshot in the taking of deer in the state. Ought to pass with amendment. Rep. Scott for Fish and Game.

To take care of local problems.

These colors, if approved by the director, shall be set forth in his license, and all buoys used by the licensee shall be marked accordingly. Also, each lobster boat must have painted said colors on port and starboard bow in a section not less than one foot square, or a freshly painted buoy set at the highest point on the boat excluding the mast and visible for three hundred sixty degrees. Amendment adopted.

Ordered to third reading.

HB 203, increasing the maximum rate of monthly payments for foster care of patients placed by the bureau of family care. Ought to pass with amendment. Rep. Nighswander for Health and Welfare.

The bill as amended provides that the Division of Mental Health shall establish rates for adult foster home care as part of the regular budget of the department. This will eliminate the necessity of special bills for funding the program at each session of the Legislature.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

permitting the division of mental health to establish
the rates of monthly payments for foster care of patients
placed by the bureau of family care.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Rates for Family Care Homes. Amend RSA 126-A:41 (supp), as inserted by 1967, 430:1, as amended, by striking out said section and inserting in place thereof the following:

It will provide for completion of new interchanges on the Central New Hampshire Turnpike, completion of improvements on the Blue Star Memorial Highway, and a new interchange at Dover-Somersworth.

The bill is appropriate at this time to stimulate the sagging economy in New Hampshire and provides employment for several hundred workers. Unanimous vote of committee.

Referred to appropriations.

HB 252, relative to expenditures for engineering and right of way acquisition for an extension of the Spaulding turnpike. Ought to pass. Rep. Fortier for Public Works.

Permits the Commissioner of Public Works and Highways to make expenditures for engineering work and acquiring rights of way for an extension of the Spaulding Turnpike, but only after such expenditures have been discussed at a public hearing and have subsequently been approved by the governor and council.

do." (Luke 23:34—RSV) Save us from moral blindness, open our eyes to the truth of right and wrong, to act with courage in the face of danger, political or otherwise. To love is to risk. Let us love You and Your precepts, with a willingness to risk ourselves to truly serve You and Your creations. There is wrong. There is right. Guide us by causing us to slow down and even stop on occasion, letting our souls catch up with our feet, and discern Your Will for our lives, state and people. Amen!

VETO MESSAGE ON HB 43

Edward C. Kelley, Deputy Secretary of State, appeared before the House to deliver a veto message from the Governor on HB 43.

The clerk read the message.

To The Honorable Members of the General Court

It is with deep regret that I return to the House of origin HB 43, an act relative to the student trustee in the State University System with my veto thereof.

I had sincerely hoped that I could agree with all bills that might come to my desk for action in this session.

HB 43 raises an important question with respect to the functions of our three branches of government; namely, the appointive power of the Executive branch.

This bill for the first time in our history would make it possible for a trustee to be selected by the vote of the student body. One-third or more of the students on the three campuses of the University System are from out-of-state and many of them are non-residents who are not voters in our state.

I believe it would be unfortunate to elect a trustee who might well be a non-resident but who could vote on matters affecting higher education and the taxes of New Hampshire without any accountability to our citizens.

I would also suggest that this bill would make it possible for a small percentage of students to elect a trustee who like a former student could give aid and comfort to an enemy of the nation in defiance of the best patriotic tradition of our State.

I sincerely feel that the power to appoint a student trustee should remain with the Governor and Council.

We do believe in rotating the appointments from one campus to another and would continue to make student trustee appointments on that basis in the future if you choose to leave the appointive power in the Executive branch which is, as you know, made up entirely of elected officials who are accountable to the voters for their actions.

I respectively hope that you will vote to sustain the veto of HB 43.

Meldrim Thomson, Jr.

The Speaker stated the parliamentary situation was: Shall HB 43 pass, not withstanding the veto by the Governor.

Reps. Hager, Cecelia Winn, William Boucher, Margaret Cote, Sara Townsend and Spirou spoke in favor.

Reps. Read and George Wiggins spoke against.

Rep. Wilfrid Boisvert moved the previous question.

Sufficiently seconded.

Adopted.

ENROLLED BILLS REPORT

HB 506, making a supplemental appropriation to the department of public works and highways to expedite engineering design of capital improvement and operational projects.

Mabel L. Richardson for the committee

On motion of Rep. Forsaith Daniels the House adjourned at 5:28 o'clock.

Thursday, 13Mar75

The House met at 12:30 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Dear Loving Father, hear our prayers. Be sensitive to our gladness and our sadness. Listen Lord, Listen. Can there be any two sadder words than "If Only. . .?" If only our leaders would do something. If only the plans we made had not gone astray. If only our children would have turned out the way we dreamed. If only we had not wasted our time, talents and treasures. If only we could get the economy moving in the right direction. O God, how near death we are with our "If Onlys". Bring us back to life in the spirit of "We Can"—"We Surely Can"! For You have made us but a little lower than the angels, which is to say, we are great, full of potential for just and right leadership. O God, set us free for great leadership, as our "We Can" spirit reaches out to Yours. In Jesus Name. Amen!

March 15th is the birthday of President and General Andrew Jackson, who commanded the victorious American troops at the Battle of New Orleans in January 1815. Among the troops commanded by Gen. Jackson was the 7th Regiment of Infantry, to be known thereafter as the "Cotton-balers", because they fired upon the advancing British from behind the safety of up-ended cotton bales. Rep. Richardson D. Benton served with the 7th Infantry Regiment in Korea in 1951. Appropriately Col. Benton led the pledge to the flag, in honor of the birthday of President Jackson on March 15th.

LEAVES OF ABSENCE

Reps. Favreau, Cooke, Gagne, McLane, Raymond Chase and Chris Andersen, the day, important business.

Reps. Lynch, Schwaner and Dunlap, the day, illness.

ENROLLED BILLS REPORT

HB 244, relative to school district liability for tuition for elementary and junior high school students attending schools in another district.

Mabel L. Richardson for the committee

SUPREME COURT OPINION

ON CACR 2

To the House of Representatives:

The undersigned justices of the supreme court return the following reply to the inquiries contained in your resolution adopted February 25, 1975, and filed with this court on February 26, 1975.

CACR 2, now pending before the House of Representatives, would propose an amendment to the New Hampshire constitution, part II, article 29, to be submitted to the voters in March 1976. The proposed amendment would lower from thirty to twenty-five the age below which "no person shall be capable of being elected a state senator" as provided by article 29.

As your resolution points out, the 1974 Constitutional Convention has proposed two different amendments of the same article 29, both of which would be submitted to the voters after the amendment proposed by CACR 2 has been acted upon by the voters. Resolution number 94, to be submitted to the voters in November 1976, would amend article 29 by adding thereto a provision that if a senator should cease to be an inhabitant of the district for which he was chosen, he should be disqualified and a vacancy in the position declared. The second amendment proposed by the convention, by resolution number 21 as finally adopted on June 26, 1974, would amend article 29 by reducing from seven to four years the required period that a

senator must have been an inhabitant of the State. This provision would also be applicable to members of the council by virtue of New Hampshire constitution, part II, article 61. The proposal of resolution number 21 is to be submitted to the voters in November 1978.

The questions contained in your resolution appear to have been prompted by the form of the convention resolutions, each of which restates article 29 in the form which it will take if amended pursuant to those resolutions only, the statement in each case retaining the present "age of thirty years" requirement now found in article 29. Thus the crux of your inquiries, as we understand them, is directed to the question of what effect the forms of these resolutions adopted by the 1974 convention would have upon the language of article 29, in the event that the amendments proposed by the convention should be adopted by the voters following adoption of the amendment proposed by CACR 2. Obviously if CACR 2 is approved by the voters, the revised versions of article 29 contained in the convention resolutions will become inaccurate, since article 29 will then contain the language proposed by CACR 2.

We are of the opinion that this would not invalidate affirmative action by the voters either upon the question to be submitted pursuant to CACR 2, or upon those to be submitted pursuant to the two resolutions of the convention. The questions to be submitted to the voters pursuant to resolutions 94 and 21 of the convention call for no change in the requirement of article 29 of the constitution relating to the age of a senator. The only question to be submitted to the voters under resolution 94 will read as follows: "Are you in favor of amending the constitution to provide that should a senator cease to be an inhabitant of the district for which he was chosen, he shall be disqualified to hold such position and a vacancy shall be declared?" Jour. for June 4, 1974, N.H. Const. Conv. (1974). The only question to be submitted pursuant to resolution 21 will read as follows: "Are you in favor of amending the constitution to reduce the residency requirement for the office of state senator and governor's councilor from seven to four years?" Jour. for June 26, 1974, N.H. Const. Conv. (1974). Thus in neither instance will the voters be called upon to take action with respect to the age requirement of article 29 which CACR 2 will previously have amended if adopted by the voters.

In our opinion therefore, affirmative action by the voters upon either or both of the questions to be submitted pursuant to the resolutions of the convention will not invalidate prior affirmative action by the voters under CACR 2; nor can action under those resolutions operate to restore to article 29 language previously altered by amendment of article 29 pursuant to CACR 2.

This is so because affirmative votes in response to the questions submitted to the voters pursuant to the convention resolutions will be effective only to amend article 29 in the respects stated in the questions voted upon, and not in other respects. "The result of what the voters did must be determined by 'the effect and meaning of the language' which they 'finally ratified and adopted'. Pollard v. Gregg, 77 N.H. 190, 194 . . . it does not seem to us wise to set a precedent which would give to a vote of the people a meaning not expressed nor reasonably to be implied from its terms, but resting upon an assumption of the voters' receipt and comprehension of information not appearing on the ballot." Concrete Co. v. Rheame Builders, 101 N.H. 59, 61, 132 A.2d 133, 136 (1957). See also Gerber v. King, 107 N.H. 495, 499, 225 A.2d 620, 623 (1967). Any inaccuracies in the restatement of the language of article 29 contained in the resolutions of the convention which would result from prior adoption of the CACR 2 amendment would come to no more than clerical error resulting from changed conditions, and would not be dispositive of the action of the voters. Moreover reference to the convention journals would clearly show that resolutions 21 and 94 were not intended to alter the minimum age requirement of article 29.

Question 1 is answered as follows: "If all three proposed amendments are approved by the voters, article 29 will read as follows:

"Provided nevertheless, that no person shall be capable of being elected a senator, who is not of the age of twenty-five years, and who shall not have been an inhabitant of this state for four years immediately preceding his election, and at the time thereof he shall be an inhabitant of the district for which he shall be chosen. Should such person, after election, cease to be an inhabitant of the district for which he was chosen, he shall be disqualified to hold said position and a vacancy shall be declared therein."

Question 2 is answered as follows: "If only the amendments proposed by CACR 2 and by constitutional convention resolution 21 are adopted, article 29 will read as follows:

"Provided nevertheless, that no person shall be capable of being elected a senator, who is not of the age of twenty-five years, and who shall not have been an inhabitant of this state for four years immediately preceding his election, and at the time thereof he shall be an inhabitant of the district for which he shall be chosen."

Question 3 is answered as follows: "If only the amendments proposed by CACR 2 and by constitutional convention resolution 94 are adopted, article 29 will read as follows:

"Provided nevertheless, that no person shall be capable of being elected a senator, who is not of the age of twenty-five years, and who shall not have been an inhabitant of this state for four years immediately preceding his election, and at the time thereof he shall be an inhabitant of the district for which he shall be chosen. Should such person, after election, cease to be an inhabitant of the district for which he was chosen, he shall be disqualified to hold said position and a vacancy shall be declared therein."

COMMITTEE REPORTS

(Regular calendar)

HB 294, permitting savings banks to act as trustees of individual retirement accounts. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

The Employee Retirement Income Security Act of 1974 authorizes individuals, not covered by retirement plans where they work, or if self-employed, to establish their own Individual Retirement Accounts (IRA) by deducting 15% of their income to set aside up to \$1500 each year tax-free. This act becomes effective this year.

Bill allows all banks not able to offer this service under present legislation to now be able to do so if they so desire.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

permitting savings banks, cooperative banks, building and loan associations and savings and loan associations to act as trustees of individual retirement accounts or plans

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Individual Retirement Accounts. Amend RSA 386 by inserting after section 55 the following new subdivision:

Individual Retirement Accounts

386:56 Individual Retirement Accounts. A savings bank shall have the power to act as trustee of an individual retirement account established pursuant to the provisions of the act of Congress entitled "Employee Retirement Income Security Act of 1974", and as said act may be further amended from time to time provided that the provisions of the written governing instrument creating such account permit, although they need not limit, the investment of the funds of such account in deposits in savings banks. In the event any individual retirement account of which a savings bank is serving as trustee ceases to be an exempt individual retirement account, in whole or in part, under the provisions of said "Employee Retirement Income Security Act of 1974", and as said act may be further amended from time to time, and regulations promulgated thereunder, the savings bank may, nevertheless, continue to act as trustee of any funds theretofore delivered to it under said trust and to hold, manage and dispose of the same in accordance with the applicable provisions of said governing instrument.

2 Individual Retirement Accounts. Amend RSA 393:61 (supp), as inserted by 1971, 385:1, by striking out said section and inserting in place thereof the following:

393:61 Trustee Powers. Any building and loan association, cooperative bank or savings and loan association shall have the power to act as trustee under a retirement plan established pursuant to the provisions of the act of congress entitled "Self-Employed Individuals Tax Retirement Act of 1962" as amended by the "Employee Retirement Income Security Act of 1974," and as said act may be further amended from time to time, provided that the provisions of such retirement plan permit, although they need not limit, the investment of the funds of such trust in deposits in such associations. In the event that any such retirement plan which, in the judgment of an association, constituted a qualified plan under the provisions of said "Self-Employed Individuals Tax Retirement Act of 1962" as amended by the "Employee Retirement Income Security Act of 1974," and as said act may be further amended from time to time, and the regulations promulgated thereunder at the time the trust was established and accepted by the association, is subsequently determined not to be such a qualified plan, in whole or in part, the association may, nevertheless, continue to act as trustee of any funds theretofore delivered to it under such plan and to dispose of the same in accordance with the directions of the grantor and the beneficiaries thereof. No association, in respect of funds of which it is trustee under this section, shall be required to segregate such funds for purposes of investment, unless the trust instrument so provides; but an association shall keep appropriate records for each trust showing in proper detail all transactions engaged in under the authority of this section.

3 Effective Date. This act shall take effect sixty days after its passage.

Amendment adopted.

Ordered to third reading.

HB 357, prohibiting an insurer of motor vehicles from designating the repair shop in which repairs will be made. Inexpedient to legislate. Rep. Shirley Clark for Banks and Insurance.

Insurance Commissioner has been aware of this problem. Now covered under Regulation 10. Insurance companies are more likely to pay attention to a regulation than they are to the law since they are more aware of regulations. Any violation of Regulation 10 may result in revocation of license or a \$2,500 fine by commissioner's order. Bill only covers claims made by you to your own insurance company. Does not cover any problems you may have in dealing with some one else's insurance company. Regulation 10 covers both possibilities. Regulation 10 further requires that the insurance company if it rejects a claim, in whole or in part, have on its notice of rejection the following: "We will, of course, be available to you to discuss the position we have taken. Should you, however, wish

to take this matter up with the New Hampshire Insurance Department, it maintains a service division to investigate complaints at 78 North Main Street, Concord, New Hampshire. The New Hampshire Insurance Department can be reached, toll free, by dialing 1-800-562-8279".

Committee felt that Regulation 10 covers more than the bill and that it should be given a chance to see how well it does the job.

Resolution adopted.

HB 168, prohibiting offering for sale or using a steel leghold animal trap which injures or maims and providing a penalty therefor. Inexpedient to legislate. Rep. Scott for Fish and Game.

Prohibits use of leghold traps which would create a hardship for trappers.

Rep. Sabbow moved that HB 168 be made a special order for Tuesday next.

Reps. Stimmell and Cushman spoke in favor of the motion.

Adopted.

HB 86, permitting any New Hampshire resident charged with a minor traffic offense to plead guilty by written waiver. Ought to pass with amendment. Rep. Hobbs for Judiciary.

This bill would simplify district court procedures for people convicted of minor traffic offenses.

AMENDMENT

Amend the title of the bill by striking out the same and inserting in place thereof the following:

AN ACT

establishing a procedure to enter guilty and nolo contendere
pleas by mail in district and municipal courts and
permitting any person charged with a minor
traffic offense to so plead and to utilize such procedure.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Waiver in Lieu of Court Appearance. Amend RSA 262 by inserting after section 37 the following new section:

262:37-a Waiver in Lieu of Court Appearance. Any person charged with a violation of the provisions of title XXI on motor vehicles, excluding a violation of RSA 262-A:61 and any offense for which the penalty is a misdemeanor or felony, may plead guilty or nolo contendere by mail by entering said plea as provided in RSA 502-A:19-b. If said plea is accepted by the court, the defendant shall not be required to appear personally or by counsel; otherwise he shall appear as directed by the court.

2 Procedure. Amend RSA 502-A by inserting after section 10-a the following new section:

502-A:19-b Pleas by Mail; Procedure. In any case in which a defendant may pursuant to RSA 262:37-a enter a plea by mail in a district or municipal court, the following procedure shall be followed:

I. If any such defendant shall notify the clerk of court in writing prior to the arraignment date that he desires to plead guilty or nolo contendere to the complaint, on the arraignment date, the court may assess a fine as though the defendant had appeared personally. The clerk of court shall forthwith notify the defendant by mailing or delivering to him a form approved by the administrative committee to pay said fine within a specified time as the form shall provide.

II. If a defendant does not enter such a plea by mail prior to the arraignment date and if he does not appear personally on that date, the court may determine what the fine would be upon a plea of guilty or nolo contendere and may continue the case to a definite date for arraignment. The clerk shall forthwith mail or deliver to the defendant a waiver of hearing form, approved by the administrative committee, to be completed and returned by the defendant to the court no later than the date to which the arraignment had been continued, together with the fine assessed by the court.

III. If a defendant fails to appear personally or by counsel, plead by mail, make timely return of a waiver of hearing form, or move for a continuance, he may be defaulted and the court may issue a warrant for his arrest. When required, the clerk shall send an appropriate return to the division of motor vehicles.

IV. For cause, the court in its discretion may refuse to accept a plea by mail and may order the defendant to appear personally in court for the disposition of his case. 3 Effective date. This act shall take effect sixty days after its passage.

Amendment adopted.
Ordered to third reading.

HB 236, limiting use of felony convictions as disqualifications for employment by the state or political subdivisions or to engage in a practice for which a license is required. Ought to pass with amendment. Rep. McManus for Judiciary.

Bill would provide increased employment opportunities to ex-offenders. Supported by state police, warden and parole department.

Rep. Frizzell moved that HB 236, be made a special order for Tuesday next and spoke to her motion.

Adopted.

HB 302, relative to the regular meeting days of the judicial council. Ought to pass with amendment. Rep. Riley for Judiciary.

Bill introduced at request of Judicial Council. It clarifies their procedure for meetings. Non-controversial.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Regular Meeting Days Changed. Amend RSA 494:5 by striking out said section and inserting in place thereof the following:

494:5 Meetings. The regular meetings of the council shall be held at Concord in January, April and October of each year. Other meetings, regular or special, may be held as provided by the rules and regulations of the council, except that at least two special meetings shall be held between January and July in those years when the legislature is in regular session.

Amendment adopted.
Ordered to third reading.

HB 304, establishing a commission to study local archival procedures. Ought to pass with amendment. Rep. Hanson for Municipal and County Government.

This commission would be instrumental in preserving town records.

AMENDMENT

Amend section 1 of the bill by striking out paragraphs IX and X and inserting in place thereof the following:

IX. One member of the association of historical societies of New Hampshire appointed by the president of that association;

X. One member of the New Hampshire municipal association appointed by the president of that association; and

XI. One historian from any New Hampshire college or university appointed by the chairman of the history department of the university of New Hampshire.

Amendment adopted.
Ordered to third reading.

RECESS

The Speaker requested a quorum count.

303 having answered, a quorum was declared present.

HB 30, relative to a change in party registration. Majority: Inexpedient to legislate; Rep. Morgan for Statutory Revision. Minority: Ought to pass with amendment. (Reps. Ambrose, Estee, Hildreth, Gardner, Raymond Chase Blanchette, Fred E. Murray and Cressy)

Majority felt that this would tend to weaken the two-party system.

Minority: Everyone who testified at the public hearing, including eight members of the House, spoke in favor of the bill. The vote in committee was 10 to 9 with the minority view that this bill would not only increase participation in the primary as similar legislation has in other states, but it would also strengthen the two-party system as a result.

Rep. French moved that debate be limited to one hour equally divided.

Rep. Duprey offered an amendment: That debate be limited to thirty minutes equally divided, with time consumed by questions charged to the member who yields.

Rep. Hildreth spoke against the amendment.

Rep. Chandler spoke in favor of the amendment.

Reps. Haller and Williamson spoke against the amendment.

Rep. Belair moved the previous question.

Sufficiently seconded.

Adopted.

A division was requested on the Duprey amendment.

187 members having voted in the affirmative and 113 in the negative, the Duprey amendment was adopted.

Rep. Williamson offered an amendment: That time consumed by questions not be charged to either side.

Rep. Belair moved the previous question.

Sufficiently seconded.

Adopted.

A division was requested on the Williamson amendment.

181 members having voted in the affirmative and 131 in the negative, the Williamson amendment was adopted.

Question being on the motion as offered by Rep. French as amended by Reps. Duprey and Williamson.

Adopted.

Rep. Ambrose moved that the report of the minority, ought to pass with amendment, be substituted for the committee report, inexpedient to legislate.

Reps. Krasker, Eugene Daniell, Hildreth, Peterson, William Boucher, Greene and George Gordon spoke in favor of the motion.

HB 230, enabling political parties to permit independent voters to vote in their primaries without being registered as members of the party. Majority: Inexpedient to legislate; Rep. Morgan for Statutory Revision. Minority: Ought to pass. (Reps.

Ambrose, Estee, Cressy, Dudley, Raymond F. Chase, Hildreth, Gardner and Blanchette)

Majority: Not properly a decision that should be made by a political party.

Minority: This bill would give the final say of whether a registered independent could take a party ballot in a primary, and remain as an independent, to the state committee of each political party. The original intent of a party primary was to give each party the chance to choose its strongest nominee. This would give the state committee the final decision.

Rep. Gardner moved that the report of the minority, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to his motion.

Rep. Russell Chase spoke against the motion.

Rep. Lawton moved that HB 230 be indefinitely postponed and spoke to his motion.

Rep. Wilfrid Boisvert spoke in favor of the motion.

Rep. Hanson moved the previous question.

Sufficiently seconded.

COMMUNICATIONS

March 16, 1975

Mr. Maurice Levesque
27 Williams Street
Nashua, N. H. 03060

Dear Mr. Levesque:

Please be advised that in accordance with the provisions of RSA 67:1, I am protesting the recent special election held in Ward 7, City of Nashua, State of New Hampshire, held on February 28, 1975.

I am contesting the election on the grounds that a violation of several sections of the election laws occurred—specifically, violations of the provisions of RSA 59 which deals with the Manner of Conducting Elections by Official Ballot.

It is my strong feeling that because important provisions of N. H. statutes were not followed for this election, that the N. H. House of Representatives should review the manner in which the election was held. Should the House find that the election was held in violation of the laws governing such elections, I will ask that the House declare the election invalid and ask for a new election.

I hope that you will understand that my protest is one solely concerned with election procedures and is in no way to be interpreted as criticism of you as a person or as a candidate.

Sincerely,
Neal W. Cobleigh

cc: Robert Stark, Secretary of State

March 10, 1975

Mr. Robert M. Bullard
9B Wellman Ave.
Nashua, N. H. 03060

Mr. Bullard:

Please be advised that in accordance with RSA 67:1, I have protested the recent special election held in Ward 2, City of Nashua, State of New Hampshire. Said election occurring on February 28, 1975 and called to fill a vacancy.

I am contesting the election on the grounds that a violation of several sections of the election law occurred. Said violations being the failure to provide proper ballots showing party designation for the candidates, in violation of RSA 59:4. Further, that the checklist was not posted 30 days prior to the election date.

I will call upon the House to consider the evidence in the matter at hand and upon a finding that the election was held in violation of the laws governing elections I will seek to have the election declared invalid and ask that the House order a new election be held.

Pending a determination of this matter, I will ask that the House delay your seating and swearing in, without prejudice.

Sincerely,
John T. LaBounty

The Speaker referred the two disputed elections to the subcommittee on elections.

POINT OF ORDER

Reps. Chandler, Lawton and Record rose on a point of order.

Rep. Spirou moved to challenge the ruling of the Speaker and subsequently withdrew his motion.

CAPITAL BUDGET MESSAGE OF GOVERNOR MELDRIM THOMSON, JR.

Mr. Speaker, Mr. President, Honorable Members of the General Court:

In response to the legislative directive set forth in RSA 9:3a, I am pleased to submit herewith the Governor's capital budget recommendations for your consideration.

In an important way this capital budget represents a departure from the trend established by other recent capital budgets. It would reverse the escalation of our public debt.

It would call for deficit spending of slightly less than \$25 million compared to the capital appropriations of last term of \$31.4 million. Our capital appropriations of last year were the second highest in our history.

The general fund bond issues have averaged \$21.5 million for the last five bienniums.

Except in rare and unusual instances governments, like individuals, should strive to maintain their finances on a pay-as-you-go basis. It is the only way to maintain a healthy currency.

For too long we have borrowed against the future, thus blighting the economic opportunities of our children.

In these days of the bi-centennial celebration of our nation's birth we should give heed to the wise fiscal recommendations of George Washington who in his famous Farewell Address urged his countrymen to "cherish public credit."

"One method of preserving it," said Washington, "is to use it sparingly."

He pleaded against "ungenerously throwing upon posterity the burden which we ourselves ought to bear."

"The execution of these maxims belongs to your representative" he observed, "but it is necessary that the public should cooperate."

In 1964 our outstanding general fund obligations amounted to \$32.7 million. Last year these obligations had risen to \$98 million. If we continue increasing this indebtedness at the average rate of the past ten years these obligations will reach \$163.4, and still be rising.

In addition to our outstanding general fund obligations, our public debt also consists of highway funding, toll funding and recreation funding, thus, in 1964 all forms of state bonded debt amounted to \$99.6. In 1974 it totaled \$150.9. By 1984 we can expect it to reach \$202.1.

The capital budget consists of the proposed long term borrowing for the state. It represents at once the heaviest and most controllable portion of our public debt.

The average repayment on our outstanding general fund obligations has been at the rate of \$8.5 million per biennium. Thus, we are constantly and ungenerously increasing the burden of public debt for our posterity—a burden which we ourselves ought to bear!

There are those who suggest that as long as the ratio of indebtedness does not outstrip revenues we have no problem with public credit. Such an economic philosophy will never permit us to discharge our obligations and will always tempt us to try for just a little mere debt—a temptation that the federal government yielded to long ago with resultant disastrous effects on our economy today.

We have been under excruciating pressure from many quarters to support many worthy capital projects. It was therefore with great difficulty that I determined that we must, for ourselves and our children, begin to curb our ever growing appetite for public credit.

Requests for capital spending for the next biennium are again astronomical.

From the several departments and agencies we were asked to approve \$64.3 million in capital projects. In addition the University System asked for \$22.5 million. We estimate that separate legislative bills contain capital requests that total about \$48 million.

During this legislative session you will have before you total requests for capital expenditures of approximately \$135 million. These requests are four times more than the average issue for general fund obligations.

In the last regular session I pointed out that we had for the past decade placed a low priority on capital improvement requests from the departments and agencies in favor of a disproportionate outlay for the University System.

In the past ten years the University System received almost twice as much as all of our state agencies combined.

While I suggested that it was time that we begin addressing the needs of our departments and agencies, the Legislature again allocated almost half of the last capital budget to the University System.

Once again I call upon the Legislature to give heed to the urgent needs of our human service institutions such as the State Hospital, Prison and Laconia School, as well as the urgent requirements of our departments and agencies for more space.

Today we are spending for the rental of space in the Concord area about three-quarters of a million dollars a year. Outside of the capitol rental space for departments and agencies annually costs the state almost a half a million dollars.

At present we need new buildings for Public Safety, Welfare, Centralized Data Processing, Education, the Forensic Unit at the Hospital, warehouses for DRED and the Liquor Commission, Vocational Technical, and Police Training.

Since we cannot begin to take care of our state agency requirements for new space and continue at the same time our heavy construction program for the University System, I would strongly urge a two year moratorium on capital improvements for the college campuses.

At the same time I would point out that part of the need for new facilities on the University System campuses has been generated by a persistent policy of the Board of Trustees in raising above the statutory specifications the percentage of out-of-state students allowed to attend our colleges.

For example, the aggregate of the number of out-of-state students enrolled on the three campuses is slightly more than a third of the total enrollment. In the case of the University at Durham it is 38 percent of the total enrollment.

In this proposed budget, we respectfully urge your careful consideration of the following important items.

1. To the New Hampshire Hospital \$3.5 million for reconstruction and renovation of the Thayer and Brown buildings, plus other important maintenance items.

In addition, we urge your favorable consideration of an expenditure of \$2.25 million to purchase and improve the Christian Science Building for use as a Forensic Unit of the Hospital. This building is for sale, is in excellent condition, and situated on 74 acres of land.

For Laconia State School we suggest \$260 thousand for necessary improvements, including a new elevator in the Murphy Building.

2. To the Department of Safety \$4.1 for a new office building for which preliminary engineering and plans have been made; also, \$110 thousand for a troop station for Rockingham and Strafford.

3. To Administration and Control we recommend a total allocation of \$916 thousand of which \$703 thousand would provide an important step in the conservation of heat in the State House and the Annex by replacing the old and draft-prone windows in these two buildings.

4. To the Aeronautics Commission we suggest a disbursement of \$543 thousand in state matching money which would enable us to obtain an additional \$1.6 million in federal funding.

We need to do a great deal more for airports in the State. By allocating a half million in this budget we can obtain another \$1.5 million which would be distributed between the Lebanon Regional Airport, the Dillant Hopkins Airport in Keene, the Manchester Municipal Airport, Concord Municipal Airport, Nashua Municipal Airport, Plymouth Municipal Airport and Rochester Sky Haven Airport.

5. To acquisition of land for a government center, \$1.5 million.

It is time that we begin to think about the future of our Capital City of Concord and what an unplanned proliferation of government buildings could mean to this city 25 years from now.

We recommend this item in the budget for the purchase within the distance of approximately ten miles of the city.

With the acquisition of such land the Legislature could provide a master development plan that would accommodate each new state building as it became necessary to construct in the years ahead.

6. To the Liquor Commission \$820 thousand for a new liquor store at the proposed Hooksett Plaza.

7. To the Port authority \$2 million which includes \$300 thousand for engineering of the total expansion project and \$1.7 million for the first of two phases of construction.

8. To the State Prison \$634 thousand for essential improvements.

9. To Water Supply and Pollution Control \$4.7 million to match \$23.5 million in federal funds for the Winnepesaukee River Basin.

This expenditure would bring this major project to 85 percent completion.

10. To the University System \$885 thousand for five alarm systems on the several campuses and for a necessary Life Safety Code study.

To the Legislators and members of my staff who helped in the preparation of this budget I express my grateful appreciation.

I am especially indebted to the Comptroller, Arthur Fowler, and, Ralph Brickett, Business Supervisor, for their timeless and efficient help.

I do not believe that we in New Hampshire can continue to give to government an ever increasing percent of our tax dollars.

Nor can we borrow ourselves into prosperity.

With the admonition of our State Constitution before us that we practice frugality and thrift in government, let us find the courage to perform that most difficult of all tasks in a democracy—live within our income!

Dear Father of Mankind let there be a getting together between You and us. If we are willing, You are always willing to meet us in the usual and the unusual places of life. We know that being up a tree is for birds, monkeys and little boys. You know Lord how uncomfortable we feel "out on a limb", "up a creek without a paddle" or "up a tree". And yet You met a man by the name of Zacchaeus who was up a tree and looking for You and the two of you got together and the lifestyle and purpose of this man's life took on new meaning. Dare we admit our uncomfortableness? Dare we admit our need for new purpose and new direction? If we could dare to risk ourselves

with You today as You risk your love on us every day then we, the leadership of this great state will find a lifestyle adequate for the great and glorious challenges of our time in history. We pray for this experience. Amen!

HB 380, requiring filing and approval of life insurance forms by the insurance commissioner. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

Bill simplifies process by which Insurance Commissioner approves policies issued in New Hampshire. Will make all policies conform to minimum requirements and ensure that buyer will be getting the coverage he thinks he is buying. Amendment just adds group or blanket accident and health insurance to the original bill which only covered life insurance.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

requiring the filing of life insurance and group accident
and health insurance forms and approval of same
by the insurance commissioner.

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Filing and Approval of Group Accident and Health Insurance Forms. Amend RSA 415 by inserting after section 18 the following new sections:

415:18-a Filing and Approval of Policy Form. No insurer shall deliver or issue for delivery any policy of group or blanket accident or health insurance, or accident and health insurance, and no certificate thereunder in this state until thirty days after the form of such policy has been filed with the insurance commissioner, unless the commissioner shall sooner give his written approval for the use of such form. Any form which is not disapproved under RSA 415:18-b shall be deemed approved thirty days after its filing.

415:18-b Disapproval by Commissioner; Procedures. The commissioner may, within thirty days after the filing of any such form, disapprove its use if, in his judgment, it contains any language which does not conform to the laws of this state or to the rules and regulations of the commissioner, or if it contains any provisions which, in the judgment of the commissioner, are inequitable, misleading or likely to mislead, ambiguous or confusing. The commissioner shall give written notice of disapproval, including the reasons for disapproval, to the insurer which filed the form. It shall be unlawful thereafter for the insurer to issue or deliver the form or to use it in connection with any policy or contract. Any insurer whose form has been disapproved shall, upon written request made within twenty days after receipt of notice of disapproval, be entitled to a hearing under RSA 400-A on the issue of disapproval.

415:18-c Withdrawal of Approval. The commissioner may, after a hearing held under RSA 400-A for which he has given written notice at least twenty days in advance, withdraw his approval of any form required to be filed under RSA 415:18-a on any of the grounds stated in RSA 415:18-b. The commissioner shall give to the insurer written notice of withdrawal of approval, including the reasons for withdrawal. It shall be unlawful for the insurer to issue or deliver such form or use it in connection with any policy or contract after the effective date of such withdrawal of approval.

Amendment adopted.
Ordered to third reading.

HB 393, to amend the charters of certain savings banks. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

Request by various banks for updating of their charters. Bill amends New Hampshire Laws rather than RSA as the banks concerned were chartered rather than incorporated.

AMENDMENT

Amend the heading of section 2 of the bill by striking out same and inserting in place thereof the following:

2 Siwooganock Guaranty Savings Bank Guaranty Fund Limit Increased.

Amend 1887, 225:5 as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

Sect. 5. The special depositors for the guaranty fund and their assigns shall by virtue thereof become and be members of the corporation, and have and exercise all the rights and powers of the same, each special depositor being entitled to one vote for each fifty dollars of his said deposit, but no member shall incur or be subject to any individual liability in any case for any debts, or liabilities of the corporation; and the management and control of the affairs of the corporation shall be vested in a board of not less than five nor more than ten trustees, to be chosen by the members of the corporation. A majority of said board at any meeting duly notified shall constitute a quorum for the transaction of business. And said board shall have the power to make and establish such rules and regulations as they may think proper for the transacting and governing the business of the corporation.

Amend the bill by striking out section 6 and inserting in place thereof the following:

6 Plymouth Guaranty Savings Bank Guaranty Fund Limit Increased. Amend 1889, 238:3 by striking out in line five the word "two" and inserting in place thereof the following (four) so that said section as amended shall read as follows:

Sect. 3 For the better protection and security of the depositors of the bank, it shall provide for and have a permanent guaranty fund of not less than twenty-five thousand dollars, with liberty to increase the same at pleasure to a sum not exceeding four hundred thousand dollars. Said fund shall be kept and maintained as a guaranty to the general deposits for the repayment of said deposits, according to the terms and conditions thereof, in case of any insufficiency of assets of the bank to pay all its liabilities, and the general deposits shall have the preference and the precedence of payment from the assets of the bank before payment from said assets on account of said guaranty fund, and no business in the way of receiving general deposits shall be transacted by the bank unless the amount of twenty-five thousand dollars shall then have been provided for said guaranty fund.

7 Woodsville Guaranty Savings Bank Guaranty Fund Limit Increased. Amend 1889, 268:3 by striking out in line five the words "two hundred thousand" and inserting in place thereof the following (one million) so that said section as amended shall read as follows:

Sect. 3 For the better protection and security of the general depositors of the bank, it shall provide for and have a permanent guaranty fund of not less than twenty-five thousand dollars, with liberty to increase the same at pleasure to a sum not to exceed one million dollars. Said sum shall be kept and maintained as a guaranty fund to the general depositors for the repayment of said deposits according to the terms and conditions thereof, in case of any insufficiency of assets of the bank to pay all its liabilities; and the general deposits shall have the preference and the precedence of payment from the assets of the bank before payment from said assets on account of said guaranty fund, and no business in the way of receiving general deposits shall be transacted by the corporation unless the amount of twenty-five thousand dollars shall then have been provided for said guaranty fund.

8 Effective Date. This act shall take effect upon its passage.

Amendment adopted.
Ordered to third reading.

HB 163, relative to the liability of school districts for educational expenses of residents at the youth development center. Refer to Committee on State Institutions. Rep. Hager for Education.

The Education Committee feels that it can make an informed judgment on this bill only after input from the State Institutions Committee.
Adopted.

HB 280, repealing the current use assessment law. Majority: Ought to pass with amendment; Rep. Greene for Environment and Agriculture. Minority: Ought to pass with amendment. (Reps. O'Neil, Kendall J. Cote and Grace L. DeCesare)

Majority: Except for the sponsor there was no support for this bill but there was some for changes to improve the effectiveness of the law. The bill as amended makes changes offered by the current use advisory board. The committee vote was 18 in favor, 2 opposed, and 1 abstaining.

Minority: The minority feels that current use taxation creates more problems. Non-residents own from 39% of open space land in Henniker, N. H. to 80% of the open space land in Pittsburgh, N. H. Current use tax has made it easier for out-of-staters to own this land and retain it until the "right time" to sell. There is nothing in this law to prevent the owners from selling.

Rep. O'Neil moved that the report of the minority, ought to pass with amendment be substituted for the report of the majority, ought to pass with amendment, and spoke to her motion.

Rep. Greene spoke against the motion.

Rep. Greene yielded to Rep. Barrus to explain the committee report.

Reps. Joseph Cote and Grace DeCesare spoke in favor of the motion.

Rep. Johnson spoke against the motion.

Rep. Joseph Cote requested a roll call.

Sufficiently seconded.

AMENDMENT

Amend the title of the bill by striking out same and inserting in place thereof the following:

AN ACT

improving the administration of the current use taxation law.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Assessment of Land. Amend RSA 75:1 by inserting in line one before the word "the" the following (Except with respect to open space land appraised pursuant to RSA 79-A:5,) so that said section as amended shall read as follows:

75:1 How Appraised. Except with respect to open space land appraised pursuant to RSA 79-A:5, the selectmen shall appraise all taxable property at its full and true value in money as they would appraise the same in payment of a just debt due from a solvent debtor, and shall receive and consider all evidence that may be submitted to them relative to the value of property the value of which cannot be determined by personal examination.

2 Assessment of Open Space Land. Amend RSA 79-A:5, I (supp), as inserted by 1973, 372:1, by striking out in line one the words "Notwithstanding the provisions of RSA 75:1," so that said paragraph as amended shall read as follows:

1. The selectmen or assessing officials shall appraise open space land, as classified under the provisions of this chapter, excluding any building, appurtenance or other

improvement thereon, at valuations based upon the current use values established by the board.

3 Land Use Change Tax. Amend RSA 79-A:7, I (supp), as inserted by 1973, 372:1, by striking out said paragraph and inserting in place thereof the following:

1. Land which has been classified as open space land on or after April 1, 1974 pursuant to this chapter shall be subject to a land use change tax when it is changed to a use which does not qualify for open space assessment. Said tax shall be at the rate of ten percent of the RSA 75:1 full and true value, determined without regard to the open space assessed value, of the land changed to other than open space use. Notwithstanding the provisions of RSA 76:2, such assessed value shall be determined as of the actual date of the change in land use if such date is not April first. This tax shall be in addition to the annual real estate tax imposed upon such property, and shall be due and payable on April first next following the change in land use. Nothing in this paragraph shall be construed to require payment of an additional land use change tax when the use is changed from one nonqualifying use to another nonqualifying use.

4 Computation of Equalized Value. Amend RSA 79-A by inserting after section 6 the following new section:

79-A:6-a Valuation for Computing Equalized Value. In computing the equalized value of a city or town, the department of revenue administration shall use the current use value for any land which is so appraised under this chapter.

5 Effective Date. This act shall take effect upon its passage.

RECESS

The Speaker called for a quorum count.

The majority felt by passage of this legislation it would allow public works construction to be bid with same competitive advantage given to those in private sector.

and the motion passed.

PAIR

Rep. Bernier, voting yes, paired with Rep. Ambrose, voting no.

Rep. Orcutt and Parolise wished to be recorded in favor of indefinite postponement.

Rep. Appel wished to be recorded in favor of minority report, and against indefinite postponement.

HB 241, to establish community resource areas and making an appropriation therefor. Ought to pass with amendment. Rep. Claflin for Resources, Recreation and Development.

The main purpose of the bill is as set forth in the analysis, with the exception of the \$1,000,000 additional appropriation. Amendment deletes \$1,000,000 additional appropriation (a retroactive provision), adds "acquisition to development" and substitutes "project proposal" for "plan".

AMENDMENT

Amend RSA 219:36 as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

219:36 Community Projects.

I. The department of resources and economic development is authorized to cooperate with cities and towns in the acquisition or development or both of community resource and outdoor recreation areas on a matching fund basis.

II. Financial aid from the state for the acquisition or development or both of these areas is contingent upon approval by the department of resources and economic development of the project proposal for any such area. The department shall assist the municipalities in preparing a project proposal for each area.

III A community resource and outdoor recreation areas account is created as a separate account in the state recreational fund to receive federal, state and municipal contributions for payment of the costs for the acquisition or development or both of

community resource and outdoor recreation areas. All payments under this section shall be made from such account. The total costs for said projects are to be allocated as follows:

- (a) fifty percent of the cost is to be paid out of federal funds;
- (b) twenty-five percent of the cost is to be paid by the state; and
- (c) twenty-five percent is to be paid by the municipality in which the area is located

IV. Matching assistance under paragraph III shall be based upon eligible project costs as defined by the federal bureau of outdoor recreation. No state assistance shall be provided for any project or part of a project where more than fifty percent of the total cost is paid from federal funds.

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Appropriation. The sum of two hundred thousand dollars is hereby appropriated for the purposes of RSA 219:36 as inserted by section 1 of this act for the fiscal year ending June 30, 1976, and a like sum for said purposes for the fiscal year ending June 30, 1977, to be expended by the department of resources and economic development. The governor is authorized to draw his warrant for said sums out of any money in the treasury not otherwise appropriated.

Amendment adopted.

Referred to Appropriations.

HB 315, prohibiting any city or town which has authorized the use of voting machines from enacting an ordinance which prohibits a candidate from serving as a town, city or ward officer. Inexpedient to legislate. Rep. Morgan for Statutory Revision.

Cannot undo city or town law already on their books.

Rep. Wilfrid Boisvert moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to his motion.

Rep. Russell Chase spoke against the motion.

Motion lost.

Resolution adopted.

HB 298, requiring commencement of construction of dog and horse racing facilities within two years after local option approval of the license therefor. Inexpedient to legislate. Rep. Cunningham for Ways and Means.

The committee felt the bill was not needed to accomplish the objectives of the sponsor. Local zoning power gives the community ample tools to protect itself against the problems foreseen by the sponsor.

Resolution adopted.

HB 305, relative to fees for racing programs. Majority: Inexpedient to legislate; Rep. William F. Keefe for Ways and Means. Minority: Ought to pass. (Reps. Cunningham, Parr, Tripp, Lawrence and Twardus)

Majority feels the present fees are satisfactory and no compelling reasons were given to change them.

Minority feels two programs a day should warrant two fee charges to be paid to the municipality.

Rep. Anthony Randall moved that HB 305 be made a special order for Wednesday, March 19.

Adopted.

HB 369, relative to real estate tax exemptions for the blind. Ought to pass. Rep. Kenneth C. Smith for Ways and Means.

The committee voted unanimously in favor of this bill. It increases slightly the real estate tax exemption for the blind. Due to the small number of people involved, its dollar impact on cities and towns would be negligible.

COMMITTEE REPORTS

HB 103, making an appropriation to the aeronautical commission for aircraft search and rescue purposes. Inexpedient to legislate. Rep. Drake for Appropriations.

All parties agreed that this item was a low priority.

Resolution adopted.

HB 330, increasing the salaries of classified state employees and making an appropriation therefor. Inexpedient to legislate. Rep. McLane for Executive Departments and Administration.

Resolution adopted.

HB 349, relative to annual, sick and personal leave for state employees. Ought to pass with amendment. Rep. Cornelius for Executive Departments and Administration.

This bill changes the formula for determining the amount of sick and annual leave which state employees may accrue from the present flat rate system to a graduated system based on years of service bringing New Hampshire in line with most of private industry. HB 370, relative to the appointment and removal of members of the fish and game commission and the appointment and removal of the director of the fish and

game department. Ought to pass with amendment. Rep. Melnick for Executive Departments and Administration.

AMENDMENT

Amend RSA 206:2, as inserted by section 1 of the bill, by striking out same and inserting in place thereof the following:

206:2 Appointment. The commission shall consist of ten members, each well informed on the subject of wild life conservation and restoration appointed by the governor with the advice and consent of the council. In no case however, shall the council consent to such appointment sooner than ten days after the date the governor makes known to the council the name of the proposed appointee. The governor shall cause to be published in a newspaper of statewide circulation for two consecutive days the name of his proposed appointee. This notice shall begin on the date the governor makes known to the council the name of the proposed appointee. Each member of the commission shall be a resident of a different county in the state and not more than six commissioners shall be of the same party. Adopted.

HB 296, relative to reimbursing towns and cities for lost revenue as a result of having land classified as open space land. Inexpedient to legislate. Rep. Greene for Environment and Agriculture.

The Committee vote was unanimous that it was not practical to establish such a system at this time.

HB 350, providing for acquisition, updating and dissemination of mineral and land use resource data under the supervision of the department of resources and economic development and making an appropriation therefor. Inexpedient to legislate. Rep. Greene for Environment and Agriculture.

The intent of this bill already covered by law.

HB 394, relative to the cost of bank commissioner's examinations of second mortgage loan licensees. Ought to pass. Rep. Shirley Clark for Banks and Insurance.

This one group is not paying cost of examinations. With this bill all banks would be charged at same rate.

HB 183, reimbursing the North Conway fire department for search and rescue operations and making an appropriation therefor. Ought to pass. Rep. Paradis for Claims, Military and Veterans Affairs.

Sponsors presented a well-documented resume of seven search and rescue operations, by the North Conway Fire Department, at the Echo Lake State Park from October 1973 to November 1974. Each operation required the services of specially trained personnel, special equipment, and in a number of cases, the use of generators and floodlights for night operations. There is no state agency presently responsible to provide reimbursement for this type operation; a bill has

been sponsored (HB453) which would provide funds for reimbursement to municipalities which perform search and rescue operations in state parks.

HB 409, providing that a prior conviction for operating a motor vehicle under the influence may be considered from another jurisdiction. Ought to pass. Rep. Daniel J. Healy for Judiciary.

Provides that in the case of a second conviction for DWI the prior conviction may have been in this state or another.

A necessary addition to the Port Authority to assure planning, coordination and cooperation with the city where the port is located.

This was considered excellent legislation needed for a long time.

HB 50, providing for the withdrawal of the Portsmouth Union school district from Supervisory Union No. 52. Refer to Committee on Education for interim study to report back by December 1, 1975. Rep. Hager for Education.

The Education Committee feels strongly that the Supervisory Union situation must be studied in depth. We will recommend that all bills on this matter be referred to Interim Study.

Due to fact numerous amendments were submitted, committee feels further study needed.

This is the same subject as is already in committee for study.

unanimously recommends that we try again.
Referred to Appropriations.

HB 359, increasing the mileage rate for all state employees using privately owned vehicles and making an appropriation therefor. Ought to pass. Rep. Cobleigh for Executive Departments and Administration.

The state should not make the use of a private vehicle a condition of employment without proper compensation. The bill raises mileage rate from 12c to 14c.
Referred to Appropriations.

HB 364, authorizing the payment of a shift differential to certain employees of the New Hampshire hospital and making an appropriation therefor. Ought to pass. Rep. Russell for Executive Departments and Administration.

Unanimous support of committee as necessary to be competitive in hiring personnel and providing adequate care of patients on the evening and night shifts at the New Hampshire Hospital.
Referred to Appropriations.

Referred to Appropriations.

COMMITTEE REPORTS (Regular Calendar)

Rep. Parr requested a quorum count.
The Speaker declared a quorum present.

HB 420, relative to medical insurance coverage for children from time of birth. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.
Bill makes mandatory what now is optional with most insurance companies. Under this bill all individual and group health insurance policies providing for family coverage will cover a child from the date of birth. Policy will cover any injury, sickness, congenital defects, and birth abnormalities. Committee feels this bill would greatly benefit financially the family that is unfortunate in having a child born with serious problems. Additional cost is very little and protects the buyer of insurance who may not be aware that this benefit is available.

AMENDMENT

Amend the bill by striking out section 2 and inserting in place thereof the following:

2 Hospital Service Corporations Contract Forms. Amend RSA 419:5 (supp), as amended, by inserting after paragraph (10) the following new paragraph:

(11) A provision in all contracts which provides coverage for a family member of the subscriber that, as to such family member's coverage, health insurance benefits applicable for children are payable with respect to a newly born child of the subscriber from the moment of birth, and a provision that such coverage shall include treatment of injury or sickness including the necessary care and treatment of medically diagnosed congenital defects and birth abnormalities.

3 Effective Date. This act shall take effect sixty days after its passage.

Amendment adopted.
Ordered to third reading.

HB 422, extending accident and health insurance coverage to oral surgery performed by dentists. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

Under present law there is no requirement that the same oral surgery performed by a dentist as performed by a medical doctor has to be covered in your policy. Many policies already permit this but some do not. Bill would require that these

services be paid for by insurance company if either a dentist or a medical doctor did the work for you. Most medical doctors are reluctant to perform oral surgery and refer patients to a dentist. In no way does bill allow dentists to do anything they cannot do now under the Dental Practice Act. Bill benefits the buyer of insurance who may not be aware of what is covered in his policy.

AMENDMENT

Amend RSA 415:5(A), (9) as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

(9) Notwithstanding any provisions in any such policy or contract for the provision of health care services or benefits provided by any health, medical or other service corporation licensed by the state, whenever the terms "physician" or "doctor" are used in any such policy or contract, said terms shall include within their meaning those persons licensed under RSA 317-A in respect to any care, services, procedures or benefits covered by said policy or contract which the persons so licensed are authorized to perform.

Amendment adopted.

Ordered to third reading.

CACR 12, relating to the size of the senate. Providing that the senate be increased from twenty-four to thirty-six members, and the quorum requirements be changed to correspond to the increased size of the senate. Ought to pass with amendment. Rep. Joncas for Constitutional Revision.

The committee felt that this would give better senatorial representation.

Rep. Chandler moved that CACR 12 be recommitted to the committee on Constitutional Revision and spoke to his motion.

Adopted.

HB 261, authorizing officials of political subdivisions to act as issuing agents for food stamps. Ought to pass with amendment. Rep. Ralph for Health and Welfare.

Said designated official shall be bonded and insured as such agent in the manner and amount required by the director and the director shall pay the cost thereof from funds appropriated for the administration of the food stamp program.

Amendment adopted.

Referred to Appropriations.

HB 334, relative to state payment for foster care for children with partial county reimbursement to the state and making an appropriation therefor. Ought to pass with amendment. Rep. Appleby for Health and Welfare.

Passage of this bill would mandate the state, through the division of welfare, to pay 60% of the cost of the maintenance and care of foster children. The bill further provides that the state shall reimburse local school districts for the educational expense of foster children to the extent of the average state tuition less \$200.

The director shall notify the county, city or town obligated to support the child of the placement of the child in foster care and shall, within sixty days after giving such notice, seek reimbursement for forty percent of the expense incurred for the support of the child from such county, city or town which shall then make such reimbursement to the state. The state, and any county, city or town obligated under this section to reimburse the state for the expense of such foster care, shall have a right of action over for such expense against whoever is legally chargeable for the child's support.

Amendment adopted.

Referred to Appropriations.

HB 160, relative to compensating the town of Raymond for rendering municipal services for property purchased by the state and making an appropriation therefor. Ought to pass with amendment. Rep. Fortier for Public Works.

This bill provides that land acquired for government use shall be taxed if such land or building is used by others and not for the original intent of the land acquisition.

AMENDMENT

Amend the title of the bill by striking out the same and inserting in place thereof the following:

AN ACT

providing that real property owned by governmental units
which is being used for profit-making purposes
by a third party shall be taxed.

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Taxing Certain Government-Owned Real Property. Amend RSA 72:23 I, (supp), as amended, by striking out said paragraph and inserting in place thereof the following:

1. Lands and buildings and structures thereon and therein and the personal property owned by the state, cities, towns, school districts and village districts; except that all such real property shall be taxed to the governmental unit which owns the same and said unit shall be liable for the payment of said tax, if it was acquired for a particular purpose by the unit, so long as it is not being used for such particular purpose and the unit has leased it to or otherwise contracted with a private individual or other non-tax-exempt person, firm or corporation for the use, other than use for the purpose for which it was acquired, thereof for profit-making purposes. So long as any such real property is taxed, the personal property thereon of the person having the use thereof shall, so far as the law provides, be taxed to the user.

2 Effective Date. This act shall take effect for the tax year commencing April 1, 1975.

Amendment adopted.

Referred to Appropriations.

HB 108, relative to the period of eligible service for qualifications for veteran's property tax exemption. Ought to pass with amendment. Rep. Philip Currier for Ways and Means.

For purposes of Veterans Real Estate Tax Exemptions, this bill lengthens the period of the Korean War by approximately 18 months, and brings state law into conformity with federal law.

AMENDMENT

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Termination Date of Korean Conflict. Amend RSA 72:28, III (6), as inserted by 1963, 324:1, by striking out in line one the date "July 27, 1953" and inserting in place thereof the following (January 31, 1955) so that said subparagraph as amended shall read as follows:

The House met at 12:30 o'clock

Prayer was offered by House Chaplain Milton L. Smith, Sr.

A funny thing happened to me today, Lord. I was watching a blue jay, and I asked him: "What are you doing here, blue jay? As far as I can see, the world doesn't need blue jays." And it seemed as if I heard him sing: "I'm that something extra." And then I looked around me and saw all kinds of extras: stubborn crocus arguing their way up through the cold spring earth; fleecy white clouds; the new pathways, from spring rains, in the winter's leftovers, by the roadside; the pussy willow; the childrens' voices as they dance and skip to school. Thank You, God, for all the

beautiful things we think we don't need but would die without. Help us to be and do that "something extra" for the sake of adding something beautiful to our sacred trust of leadership, for You God and people. Amen!

We are sorrowed at the death of Rep. Kenneth L. Senter, and our deepest sympathy is with his widow, Beatrice.

Rep. Habel led the Pledge of Allegiance.

A quorum count was requested.

The Speaker declared a quorum present.

COMMITTEE REPORTS

SB 58, authorizing the repayment of interest and dividends tax paid in error by Isadore and Lucille Zimmerman for the tax year of 1970. Inexpedient to legislate. Rep. Erler for Claims, Military and Veterans Affairs.

The committee felt that the claimant was remiss; there was ample time for the claimant to question a refund recieved in 1972 on an overpayment on the Interest and Dividend tax for 1971. Overpayment was caused by claimant paying tax on a nontaxable Federal Security. Had the claimant inquired as to the reason for the 1972 refund, information would have been furnished on the non-taxability of the Federal Security, and a claim could have been initiated at that time for a refund on the 1970 Interest and Dividend tax payment. Statute of limitations (RSA 77:24a) provides three years for seeking refund for overpayment. The committee could find no extenuating circumstance for a precedent-starting waiver of the statute.

Resolution adopted.

HB 308, making kindergartens mandatory. Inexpedient to legislate. Rep. William P. Boucher for Education.

This bill accomplishes a laudable objective but is unfeasible at the present time.

Rep. Goff moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to her motion.

Reps. William Boucher, Eugene Daniell, Oleson and Gemmill spoke against the motion.

Rep. Cynthia Clark spoke in favor of the motion.

Rep. Close moved the previous question.

Sufficiently seconded.

Adopted.

Motion lost.

Resolution adopted.

HB 284, to increase the salaries of classified employees and employees of the university system and making an appropriation therefor. Ought to pass with amendment. Rep. Roderick H. O'Connor for Executive Departments and Administration.

Amendment changes the 12% pay raise to 8% with a \$600 minimum and a \$1,560 maximum. The university faculty is removed and will be included under the university budget, but the other university employees are included in the bill. The Committee on Executive Departments and Administration is well aware of the fiscal condition of the state and has no illusions as to the chances of passage of this bill, except in a supplemental budget. But, we feel strongly, in view of the 24% raise in cost of living and the comparative salary range with other New England states and with salary raises in nearby municipalities, that the raise IS justified.

Majority: Inexpedient to legislate; Rep. Bernard for State Institutions, Minority: Recommend to Subcommittee on State Institutions. (Reps. Morgrage, Zechel, Martel, Tibbetts, Copenhaver, Rich and Gorman)

Majority: This bill is discriminatory in that it singles out one state institution for special consideration, when the problem is a much larger one involving the entire state payroll plan. The claims aspect of the bill would require a sizeable appropriation if all state institutions were covered. There is recourse for employees at the present time to recover costs of lost or destroyed articles. Minority: This bill deals with two distinct matters. Further study is needed.

CACR 9, relating to use of certain revenues for transportation. Providing that certain revenues be used for improving the transportation system of the state. Majority: Inexpedient to legislate; Rep. Joncas for Constitutional Revision. Minority: Ought to pass with amendment. (Reps. Peters and Taylor)

Majority: Sentiments were that special highway funds should not be opened up for general transportation purposes. The state highway system is already in disrepair and any tampering with these funds will only result in a worsening condition. Minority: The closeness of the committee vote begs this issue be given a full hearing on the floor. The concept of broadening the Highway Trust Fund to consider alternative systems becomes confused by anti-railroad, anti-bus sentiments. The minority also considers it a poor fiscal precedent to "lock up" special funds in the constitution thus denying legislative reallocation of funds biennially according to current need.

Rep. French moved debate be limited to thirty minutes.

Adopted.

It is said, "He who sings, prays twice." Out of the Christian tradition comes this song-prayer, "Were You There?". It calls us to the task of self examination. In this the Christians Holy Week do we as persons destroy or build up God's goodness and love right where we are, doing our thing as leaders. Will you join me in concerned reflection as I sing these words of prayer:

Were you there when they crucified my Lord?
 Were you there when they crucified my Lord?
 Oh! . . . Sometimes it causes me to tremble, tremble, tremble,
 Were you there when they crucified my Lord? Amen! (Negro Spiritual)

Lord, may all who hunger come to rejoice in a new Passover. Let all the human family sit at Your table, eat the bread of freedom, drink the wine of deliverance. Amen!

SUPREME COURT OPINION ON HOUSE BILL 36

To the House of Representatives:

The undersigned justices of the supreme court submit the following reply to the inquiries contained in your resolution adopted March 5, 1975, and filed with this court March 6, 1975.

Your questions relate to House bill 36 which authorized the Governor and Council to appoint a Commissioner of health and welfare from a list of nominees submitted by the advisory commission on health and welfare within a period of sixty days after such nominees are submitted. Upon a failure of the Governor and Council to make an appointment within the sixty days, the advisory commission is then authorized to appoint a commissioner of health and welfare within the next sixty days.

Question No. 1 asks whether any provision of the constitution would be violated by limiting the power of the Governor and Council to appoint to sixty days after the submission of nominees.

Question No. 2 asks whether any provisions of the constitution would be violated by transferring the power of appointment to the advisory commission for sixty days upon failure of the Governor and Council to appoint within the first sixty-day period.

The constitution provides for certain constitutional State officers and directs the manner in which they are to be appointed or elected. Thus the secretary of state and the state treasurer are chosen by joint ballot of the senate and house of representatives. N. H. CONST. pt. II, art. 67. Judges, the attorney general, coroners and military officers are appointed by the Governor and Council. N. H. CONST. pt. II, art. 46. The method of selection of constitutional officers is provided by the constitution and may not be altered by the legislature.

All other officers occupy positions established by the legislature and the method of their election or appointment is determined by the legislature. The constitution authorizes the legislature "to name and settle biennially, or provide by fixed laws for the naming and settling, all civil officers within this state." N. H. CONST. pt. II, art.

5. Since the legislature has the power to name a commissioner of health and welfare, it has the power to delegate the appointing power to either the Governor and Council or the advisory commission or both. Opinion of the Justices, 102 N. H. 195, 197, 152 A.2d 878, 880 (1959).

In previous answers to questions arising from the impasse between the Governor and Council and the advisory commission in the appointment of a commissioner of health and welfare under the present law (RSA 126-A:4 (Supp. 1973)), we have stated that the legislature may properly prescribe how and by whom the appointment shall be made. Opinion of the Justices, 113 N. H. 675, 312 A.2d 702 (1973); N. H. CONST. pt. II, art. 41; Opinion of the Justices, 114 N. H. 165, 316 A.2d 174 (1974); Brouillard v. Governor, 114 N. H. 541, 323 A.2d 901 (1974).

The legislative power to determine the limitations upon the delegation of the power of appointment is not restricted to the present statutory provisions that the Governor and Council appoint from the nominees of the advisory commission. RSA 126-A:4 (Supp. 1973). House bill 36, placing a time limit on the power of the Governor and Council to appoint a commissioner and transferring the power of appointment to the advisory commission upon expiration of that time limit, is within the legislative authority. See Opinion of the Justices, 90 N. H. 568, 8 A.2d 597 (1939).

Reliance is placed on part II, article 47 of the constitution for holding the present proposed legislation unconstitutional. Article 47 reads as follows: "The governor and council shall have a negative on each other, both in the nominations and appointments. Every nomination and appointment shall be signed by the governor and council, and every negative shall be also signed by the governor or council who made the same." (Emphasis added.)

Article 47 does not restrict the authority of the legislature under part II, article 5 of the constitution but prescribes the procedure for appointment of officers authorized to be appointed by Governor and Council under part II, article 46 of the constitution.

We conclude that the proposed legislation is consistent with article 5, part II of the constitution and is not in violation of other provisions of the constitution. Accordingly, the answer to both questions is "No".

Bill reported with the intent that it will again be considered, along with SB 133, same subject, and the best features of the two bills will be incorporated into one "Viet Nam veterans bonus bill".

Referred to Appropriations.

HB 424, providing educational benefits for Viet Nam veterans. Ought to pass with amendment. Rep. Whipple for Claims, Military and Veterans Affairs.

By a margin of 6 to 5 the committee felt that the state should assist qualified Viet Nam veterans in their quest for education, in addition to the federal benefits already available. As amended, the bill requires 90 days service in the Viet Nam area, within a specific time frame; also requires that payment be made to approved educational institutions, rather than to individuals.

AMENDMENT

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Viet Nam Veterans Educational Benefits. Any person who served in the armed services of the United States between August 5, 1964 and August 15, 1973 and who served in the Viet Nam area for at least ninety days and who has been awarded the Viet Nam service medal or the armed forces expeditionary medal, or who was discharged, released or who has received a certificate of service under honorable conditions shall be entitled to receive education assistance payments if they qualify under sections 3 and 5 of this act.

4 Commissioner of Education. The commissioner shall administer this program and make disbursements to eligible institutions to implement the provisions of this act.

Payments under this act shall be made to the eligible institution which shall credit such payments against the tuition charges or fees charged to the student by the eligible institution.

6 Initial Education Payments, Duration or Program. This program shall be limited to a maximum of two years with the initial education assistance payments being granted as of July 1, 1975 and all payments shall terminate June 30, 1977 or on the date the funds appropriated have been expended.

7 Appropriation. The sum of one million dollars is hereby appropriated for the biennium ending June 30, 1977 to be expended by the department of education for the purposes of this act. AMENDMENT

Amend RSA 162-C:2-a, V, as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

V. Establish a schedule of priorities based on the relative importance of each proposed land acquisition for recreational, conservational or historical use by the state so that critically needed lands or options to acquire critically needed lands are acquired as soon as funds become available.

Amend RSA 162-C:2-b, I, as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

162-C:2-b Procedure for Land Acquisition.

I. Each state agency which proposes to acquire rights and interests in land for recreational, conservational or historical use shall submit a preliminary proposal for such acquisition to the division of resources. The division shall evaluate the proposal and prepare a formal proposal. The formal proposal and the evaluation by the division shall be submitted to the council. The council shall assign a priority to the proposal in accord with the schedule of priorities established by the council. If the general court is in session, the council shall submit such proposal to the general court. If the general court is not in session, the council shall submit only those proposals which receive the highest priority to the fiscal committee of the general court. The fiscal committee shall submit any such high priority proposal which it approves to the governor and council. The governor and council are authorized to acquire rights and interests in land or options to acquire such rights and interest in accord with the proposal. Such acquisition shall be made with monies from the emergency opportunity account. The council shall submit a report of all proposals which do not receive the highest priority to the general court at its next regular or special session and such proposals shall not be carried out unless authorized by law.

Amend RSA 162-C:2-c, as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

162-C:2-c Natural Heritage Conservation Fund.

I. There is hereby established within the department of resources and economic development a fund to be known as the natural heritage conservation fund. This fund shall be kept separate and distinct from all other funds appropriated to the department and shall be used solely for acquiring rights and interests in land for recreational, conservational or historical use or studies thereof as directed by the general court.

II. If the general court is not in session, the natural heritage conservation fund may be used by the department, with the approval of the fiscal committee of the general court, for the planning and design of proposals to be submitted to future sessions of the general court for consideration.

III. There shall be established within the natural heritage conservation fund a separate account to be known as the emergency opportunity account. This account shall be used for expenditure by the governor and council only on highest priority proposals as defined in RSA 162-C:2-b. The division of resources, with the approval of the commissioner of the department of resources and economic development and the fiscal committee of the general court, may use the fund for non-matchable administrative costs connected with land acquisition proposals such as surveys, title searching, appraisals, land damage commissions, prints of maps and aerial photography, registry of probate and registry of deed expenses.

tramways and carnival equipment. The primary responsibility for design, construction, maintenance and inspection rests with the operators of such passenger tramway devices and carnival equipment. The state, through its passenger tramway safety board, as hereinafter provided, shall register all ski lift devices and carnival equipment, establish reasonable standards of design and operational practices and make such independent inspections as may be necessary in carrying out this policy.

6 Rules. Amend RSA 225-A:8 as inserted by 1957, 254:1 by striking out said section and inserting in place thereof the following:

225-A:8 Rules, Regulations and Codes. The board is empowered to adopt reasonable rules, regulations and codes relating to public safety in the construction, operation and maintenance of passenger tramways and carnival equipment. The rules, regulations and codes authorized hereunder shall be in accordance with established standards, if any, and shall not be discriminatory in their application to operators of passenger tramways and carnival equipment. Such rules, regulations and codes shall be adopted in accordance with RSA 541-A. The board shall also give notice of such hearing by registered mail to each registered operator at least fourteen days before holding the same. The board shall publish a summary of the text of any such rules, regulations and codes adopted by it, together with information as to where the full text of the same may be obtained, in a newspaper of general circulation in the state, and shall also mail copies of the full text of such rules, regulations and codes to each registered operator. Such rules, regulations and codes shall become effective upon such date subsequent to the publication of the summary thereof and the mailing of copies to registered operators, as required hereunder, as may be specified by the board therein. The foregoing procedure shall be followed by the board in amending or repealing any of its rules, regulations or codes.

7 Inspections. Amend RSA 225-A:10 as inserted by 1957, 254:1 by striking out said section and inserting in place thereof the following:

225-A:10 Inspections. The department may make such inspection of the construction, operation and maintenance of passenger tramways and carnival equipment as the board may reasonably require. The department may, at its own

10 Complaints. Amend RSA 225-A:13 as inserted by 1957, 254:1 by inserting in line five after the word "tramway" the following (or carnival equipment) so that said section as amended shall read as follows:

225-A:13 Complaints. Any person may make written complaint to the board setting forth any thing or act claimed to be done or omitted to be done by any registered operator which is alleged to be in violation of any rule, regulation or code adopted by the board, or setting forth any condition in passenger tramway or carnival equipment construction, operation or maintenance which is alleged to endanger the safety of the public. Thereupon the board shall cause a copy of said complaint to be forwarded to the registered operator complained of, which may be accompanied by an order requiring that the matters complained of be answered in writing within a time to be specified by the board. The board may investigate the matter complained of if it shall appear to the board that there are reasonable grounds therefor.

11 Registration Requirement. Amend RSA 225-A:14 as inserted by 1957, 254:1, as amended, by striking out said section and inserting in place thereof the following:

225-A:14 Registration Required. No passenger tramway or carnival equipment shall be operated in this state unless the operator thereof is registered by the board and unless the fee determined under RSA 225-A:16 has been paid.

225-A:15 Application for Registration.

I. On or before November first of each year every operator of a passenger tramway shall apply to the board, on forms prepared by it, for registration hereunder.

II. Every operator of carnival equipment shall apply annually after January first to the board for registration, on forms prepared by it, prior to setting up the carnival equipment; provided that if the equipment is installed on a permanent basis as determined by the board, application and inspection of the equipment shall be made at such time as the board determines.

III. Applications under this section shall contain such information as the board may reasonably require.

13 Fees. Amend RSA 225-A:16 (supp), as inserted by 1957, 254:1, as amended, by inserting after paragraph IX the following new paragraphs:

X. For registration as a carnival equipment operator, the fee accompanying the application shall be determined on the basis of the carnival equipment operated as follows:

(a) Fifty dollars for each device of carnival equipment which is operated by cable and lifts the passenger off the ground.

(b) Twenty-five dollars for each device of carnival equipment which lifts the passenger off the ground; and

(c) Ten dollars for every other device of carnival equipment.

XI. For the inspection of the carnival equipment by the board, a fee shall be charged for the actual time spent on the site making the inspection. The department shall not charge a fee in excess of eight dollars per hour for the services of personnel making such inspection.

14 Operation of New Equipment. Amend RSA 225-A by inserting after section 16 the following new section:

225-A:16-a New Carnival Equipment. Before a carnival equipment operator may set up or operate carnival equipment which is not included in the registration then in effect, the operator shall pay the applicable fee set forth in RSA 225-A:16, X. The director may require that such equipment be inspected at such time and place as it determines.

15 Expiration. Amend RSA 225-A:17 as inserted by 1957, 254:1, as amended, by striking out said section and inserting in place thereof the following:

225-A:17 Registration. The board, if satisfied with the facts stated in the application, shall issue a registration certificate to the operator. Each registration of a passenger tramway operator shall expire on October thirty-first next following the day of its issue. Each registration of a carnival equipment operator shall expire on December thirty-first next following the day of its issue.

16 Emergency Shut-down. Amend RSA 225-A:18-a as inserted by 1959, 299:5 by striking out said section and inserting in place thereof the following:

225-A:18-a Emergency Shut-down. When facts are presented to the board, or to any member thereof, tending to show that an unreasonable hazard exists in the continued operation of a tramway or carnival equipment, the board or member, after such verification of said facts as is practical under the circumstances and consistent with the public safety, may, by an emergency order require the operator of said tramway or carnival equipment forthwith to cease using the same for the transportation of passengers. Such emergency order shall be in writing and notice thereof may be served by any person upon the operator or his agent immediately in control of said tramway or carnival equipment by a true and attested copy of such order, the return of such service to be shown by an affidavit on the back thereof. Such emergency order shall be effective for a period not to exceed forty-eight hours from the time of service. Immediately after the issuance of an emergency order hereunder, the board shall conduct an investigation into the facts of the case as contemplated in RSA 225-A:19, and shall take such action under RSA 225-A:19 as may be appropriate.

17 Orders. Amend RSA 225-A:19 as inserted by 1957, 254:1 by inserting in line three after the word "tramway" the following (or carnival equipment) so that said section as amended shall read as follows:

225-A:19 Orders. If, after investigation, the board finds that a violation of any of its rules, regulations or code exists, or that there is a condition in passenger tramway or carnival equipment construction, operation or maintenance endangering the safety of the public, it shall forthwith issue its written order setting forth its findings, the corrective action to be taken, and fixing a reasonable time for compliance therewith. Such order shall be served upon the operator involved by registered mail, and shall become final, unless the operator shall apply to the board for a hearing in the manner hereinafter provided.

18 Forbidden Operation. Amend RSA 225-A:19-a as inserted by 1959, 299:6 by striking out said section and inserting in place thereof the following:

225-A:19-a Operation Forbidden. If in any such case the board is of the opinion that the public safety would be endangered by the use of the tramway or carnival equipment for the transportation of passengers prior to the taking of some or all of such corrective action, it shall so state in said order, and shall require in said order that the tramway or carnival equipment shall not be so used until specified corrective action shall have been taken. From and after receipt of said order by the operator, said tramway or carnival equipment shall not be used for the transportation of passengers without the approval of the board. Application for a hearing before the board shall not have the effect of suspending said order. Operation of the tramway or carnival equipment following receipt of such order may be enjoined by the superior court.

19 Penalty. Amend RSA 225-A:23 (supp) as inserted by 1957, 254:1, as amended, by inserting in line two after the word "tramway" the following (or carnival equipment) so that said section as amended shall read as follows:

225-A:23 Penalty. Any person convicted of operating a passenger tramway or carnival equipment without having been registered by the board, or violating the rules, regulations and codes of the board shall be guilty of a violation if a natural person, or guilty of a misdemeanor if any other person. Any operator who operates after his registration has been suspended by the board, shall be guilty of a violation for each day of illegal operation.

20 Terms of New Board Members. The provisions of RSA 225-A:3 as amended by section 1 of this act shall not affect the terms of members of the passenger tramway safety board in office on the effective date of this act. The term of the operator of carnival equipment first appointed to the board under said RSA 225-A:3 shall be two years and the term of the mechanical engineer first appointed to the board shall be three years.

21 Appropriation. The sum of ten thousand three hundred eighty dollars for the fiscal year ending June 30, 1976 and a like amount for the fiscal year ending June 30, 1977 are hereby appropriated to the department of safety, division of safety services for the purposes of section 1 of this act to be expended in the following manner:

	Fiscal 1976	Fiscal 1977
Personal services:		
Permanent	\$7,846	\$7,846
Current expenses	750	750
Equipment	600	600
Benefits	784	784
Travel		
In-State	400	400
	<u>\$10,380</u>	<u>\$10,380</u>

The sums appropriated are in addition to any other appropriation for the department. The governor is authorized to draw his warrant for said sum out of any money in the treasury not otherwise appropriated.

22 Insurance Required. Amend RSA 225-A:26, I, (supp), as inserted by 1965, 241:2, as amended, by inserting in line seven after the citation "RSA 225-A:2, I (a)-(d)" the following (and III) so that said paragraph as amended shall read as follows:

I. Unless an operator is in violation of this chapter or the regulations of the board, which violation is causal of the injury complained of, no action shall lie against any operator by any skier or representative thereof; this prohibition shall not, however, prevent the maintenance of an action against an operator for negligent construction or maintenance of the passenger tramway itself or any building within the area. Each operator of a passenger tramway, as defined by RSA 225-A:2, I (a)-(d) and III, shall maintain liability insurance with limits of not less than one hundred thousand dollars per person per accident and two hundred thousand dollars per accident; each operator of a passenger tramway, as defined by RSA 225-A:2, I (e)-(g) shall maintain liability insurance with limits not less than twenty-five thousand dollars per person per accident and fifty thousand dollars per accident. Provided, that operators of passenger tramways not open to the general public, operated without charge to the users thereof, need not maintain said insurance coverage. This exception shall not apply, however, to tramways operated by schools, ski clubs and other similar organizations.

23 Effective Date. This act shall take effect July 1, 1975.

and the motion lost.

Referred to Appropriations.

HB 517, relative to salary and tenure of the attorney general's staff, and making an appropriation therefor. Majority: Ought to pass; Rep. McLane for Executive Departments and Administration. Minority: Inexpedient to legislate. (Reps. Cornelius, Proctor, Ziakas and Roderick T. Allen)

Majority: Necessary increase for Attorney General's staff to retain and recruit experienced personnel because of required workload and competitive salaries in private practice.

The minority believes that the Attorney General's request for pay increases of 17% to 50% for his upper level staff is an exercise in fiscal irresponsibility, and ignores the financial problems of the state.

Rep. Cornelius moved that the report of the minority, inexpedient to legislate, be substituted for the report of the majority, ought to pass, and spoke to his motion.

Reps. McLane, Sara Townsend and Brouillard spoke against the motion.

A division was requested.

215 members having voted in the affirmative and 89 in the negative, the motion passed.

Rep. Hanson wished to be recorded in favor of HB 517.

HB 494, relative to assistance to dependent children of unemployed fathers and making an appropriation therefor. Ought to pass. Rep. Sullivan for Health and Welfare.

This bill provides for a child's eligibility for assistance to dependent children if otherwise eligible and if he is deprived of parental support by reason of the unemployment of his father in accordance with standards prescribed by the secretary of the U. S. Department of Health, Education and Welfare.

Rep. George Gordon moved that the words, inexpedient to legislate, be substituted for the committee report, ought to pass, and spoke to his motion.

Rep. McLane spoke against the motion.

On a voice vote the Speaker was in doubt and requested a division.

175 members having voted in the affirmative and 116 in the negative, the motion passed.

HB 373, increasing highway aid to towns and cities. Refer to Committee on Public Works for interim study to report back no later than December 1, 1975. Rep. Ellis for Public Works.

The Committee felt this piece of legislation has merit but a further study of the economic impact on state and local levels is advisable.

Rep. Forsaith Daniels moved that the committee report be amended to read "report back no later than October 1, 1975".

Adopted.

Rep. Eugene Daniell moved that the words, inexpedient to legislate, be substituted for the committee report, Refer to the committee on public works for interim study to report back no later than October 1, 1975, and spoke to his motion.

Motion lost.

HB 476, establishing a tax relief program for the elderly based on property tax or rental expenditures and making an appropriation therefor. Majority: Ought to pass; Rep. Appel for Ways and Means. Minority: Inexpedient to legislate. (Reps. Cunningham, Johnson, Lawrence, Kenneth C. Smith, Sr., Marsh, Canney, Anne B. Gordon and Twardus)

Majority: The rules of the House require that any bill bearing an appropriation be reported out of committee by April 1. There is much merit in this bill. Many elderly have a serious property tax problem. The majority of the committee is keenly aware of the fiscal condition of the state and feels this should go to the Appropriations committee as an important legislative priority to be considered if there is a supplemental budget.

The minority realizes that elderly relief is long overdue but we also realize that 2.9 million dollar appropriation is not available at this time.

Rep. Cunningham moved that the report of the minority, inexpedient to legislate, be substituted for the report of the majority, ought to pass, and spoke to his motion. Reps. Appel, Sara Townsend, Splaine, Belair and Shirley Clark spoke against the motion.

Reps. Anne Gordon, Wilfrid Boisvert and Johnson spoke in favor of the motion.

Rep. Hager moved the previous question.

Sufficiently seconded.

Adopted.

A roll call was requested.

Good afternoon, Lord. As I dreamed over that first cup of coffee, I was reminded of the wedding you visited in Cana, so long ago, where You saved the day by changing the water into wine. It was kind of you Lord to want to save face for the host that day. Do you mean to say You weren't interested in getting Yourself a name for a divine wine? You really want us to know, that where You are openly and honestly invited in, that those things that are as common as water shall be as rich as wine? That is good Lord, very good. We open the doors of our lives. Come in, Let your potential richness for our lives pour forth in all directions in leadership through service. Amen.

JOINT CONVENTION

SUPPLEMENTAL BUDGET MESSAGE

BY GOVERNOR MELDRIM THOMSON, JR.

Last February I presented to you my recommendations for a balanced budget of 312.9 million dollars for fiscal 1976-77, as required by RSA 9:3 (2) (E).

On March 19 the United States Supreme Court unbalanced that budget. In the case of Austin v. New Hampshire the court struck down our Commuter Tax. It thus deprived us of 10.3 million dollars in anticipated revenues for the balance of this fiscal year and for the next two years.

We have a serious budget problem. But it is not nearly as awesome as the fiscal problems of our sister states or of the national government.

The Federal government is rushing madly toward a 400 billion dollar budget for 1976.

The enormity of the proposed federal budget can be measured by the fact that it is more than half the value of all of the land in America. It is one-third the value of all of the buildings on that land.

In Maine the Legislature is struggling with a mandated educational program that faces a 40 million dollar deficit.

Rhode Island reels today under an unemployment rate of 16 per cent. Half of her work force suffers from unemployment, forced leaves or cutbacks.

In Rhode Island 1,600 state jobs are being eliminated and the salaries of all state employees are being cut five per cent.

The Governor of Massachusetts told his colleagues last Thursday that he would not be able to present a budget to his Legislature until next September. Then it would be 300 to 400 million dollars in the red.

He also indicated that for the new fiscal year the state would have to eliminate some 8,000 employee positions and cut back on welfare payments. For the new fiscal year the state faces a half billion dollar deficit.

Thus, while the problem presented to us by the loss of revenues under the unconstitutional Commuter Tax is a tough one, it is not nearly as severe as the fiscal problems of the nation or of our sister states.

The Commuter Tax was enacted on May 4, 1970, as RSA 77B. It had the guiding support of my gubernatorial predecessor who was then in office.

This tax was passed in the House and Senate by a voice vote. There are now 142 House members who were in the House which voted on the Commuter Tax issue, 12 in the Senate, and two on my staff.

These Legislators know that I was neither Governor nor a member of the Legislature at that time.

They know also that it requires a ridiculous twist of ratiocination to suggest that one lone private citizen opposed to a broad base tax was somehow responsible for the enactment of this tax.

The Commuter Tax is now behind us!

The problem before us is to fill the financial void its unconstitutionality has created.

The problem is two-fold.

First, we must find new revenues to replace those which the tax would have generated for us after March 19 of this year.

This will require 10.3 million dollars for the remainder of the current fiscal year and for the 1976-77 biennium.

Second, we face the possibility of having to refund 13.7 million dollars that has thus far been collected under the tax.

Upon advice of the Attorney General, there are sound legal reasons for the State to fight any actions for refunds.

This we will do. Should we lose on this issue after taking it back to the Supreme Court we would be faced with an additional revenue problem.

We are making no provision for this now as the contingency may never occur. If it does it would probably not be for another year.

Since presenting our budget to you on February 6th, we were advised of two errors.

One was an error in estimated CDP revenues that amounted to \$943,428. The other was an error in welfare matching funds of \$756,086.

Thus, to bring our budget of last February back into balance and still retain a small surplus we must raise in new revenues approximately 12 million dollars.

I have received many suggestions on how to solve the Commuter Tax problem.

Several have proposed either general sales or income taxes. These I have opposed and will continue to do so.

I fail to see the need now or any time in the future for either a sales or income tax in New Hampshire.

Our strong economy, as compared to states around us, and our attractiveness for new business and industry is due in large part to our good tax climate. It behooves us to keep it that way!

Some have suggested that we pass on to the towns and cities part of the state's tax burden. In this connection a few have urged that we discontinue the state's disbursement to cities and towns of part of the Business Profits Tax.

I am strongly against any legislative action that would add to the property taxes of our people.

This sets me irrevocably against placing any new state tax burden on our local communities or taking from them any of the revenues they now receive from the State.

Those Legislators who in good conscience seek property tax exemptions, which I favor if the money were available, would join me, I hope, in seeing that no further state burdens are levied on our property taxpayers.

To raise the 12 million dollars in revenue required by the loss of the Commuter Tax, I would suggest the following measures, which will be presented to you tomorrow in bill form.

1. Amend the Business Profits Tax law by closing certain loopholes. This would result in producing an estimated 6.2 million dollars for the biennium.

We have many large corporations in the United States who receive interest and dividends from foreign corporations. These corporations do business in the State and are required to file tax returns with our Business Profits Tax Division. We presently allow them to take a deduction on their return for this foreign income. We are one of the few if not the only state that allows such a deduction.

I suggest that this provision of our law be changed to permit only a deduction for the taxes they are required to pay to the foreign country involved. This should produce additional revenue of 2.5 million dollars per year.

As the law now stands we permit businesses to take as a deduction in arriving at their New Hampshire business profits taxable income, the anticipated business profits tax for the tax period covered by the return. We are one of the few if not the only state which permits this deduction.

Therefore, I suggest that our law be amended so as to add back to New Hampshire taxable income those amounts which are paid to all states or political subdivisions. This should produce additional revenue of .6 million dollars per year.

2. Increase the corporate franchise tax. This tax was last increased in 1969. I suggest that we double the tax. This would produce 1.9 million dollars for the biennium.

The present annual filing fee for foreign corporations would be raised from \$30 to \$60 and the annual maintenance fee would go from \$70 to \$150.

The annual filing fee for domestic corporations would be increased from \$30 to \$60. The annual maintenance fee would be raised from a minimum of \$30 to \$60.

3. Increase the tobacco tax rate from eleven cents to eleven and a half cents per package. This would produce 2 million dollars for the biennium.

The Legislature now has the tobacco tax under consideration. By our present law this tax will have to be adjusted upward. The Department of Revenue Administration urges that we do not increase it more than half a cent less we thereby invoke the law of diminishing returns as far as sales to out-of-staters are concerned.

4. Increase the tax on beer from 12 to 15 cents per gallon. This should produce 2.1 million dollars for the biennium.

The tax on beer was last increased in 1965. The suggested tax would amount to 1.8 cents on a six pack or about a quarter of a cent on a glass of beer.

These are the only increases in taxes that I would suggest.

These proposals I would not be making now except for the unconstitutionality of a tax that I neither suggested nor supported.

I understand that the Appropriations Committee has proposed to you today a budget that is 1 million dollars below my suggested budget.

But this is not to suggest that they have actually reduced my proposal. They have in fact prepared a supplemental appropriation—or caboose bill.

It awaits enactment if another 20 million dollars in revenues can be found. Such a bill, if passed, could derail the present tax structure of New Hampshire.

I firmly believe that in these tragic economic times we must stay within current taxes and revenues. This means that our rate of growth in revenues will be slowed.

This is not necessarily bad. We have in truth increased the rate of state spending at a phenomenal pace in the past decade.

Our biennium operating budget, without the Business Profits Tax, ten years ago was 90.8 million dollars. Now we are estimating one for 1976-77 of 312.9 million dollars. This is an overall increase of 344 per cent. How many businesses have been able to match the state's expansion record?

The rate of increase for each biennium from 1966-67 to 1976-77, was respectively 20, 56, 24, 32 and now nine per cent.

I realize that the Appropriations Committee has taken from my budget some of the tear-jerking items and placed them in the supplemental budget.

They have taken medical assistance out of my budget and added some 2 million dollars to the State Hospital, Laconia School and Mental Health Community Centers. This is their prerogative, but since budget-making is a matter of judgment, it does not mean that they are any more correct than the Governor was in his original allocations. I agree to the changes for Laconia and perhaps the Mental Health Centers.

I would disagree with the Committee's increase for the State Hospital.

The Legislature generously increased the hospital appropriation by 51.6 per cent in the current biennium. I have recommended in my budget a further increase in the new biennium of 32.6 per cent.

The employee-patient ratio at the hospital is 1 to .9, which is one of the best in the nation. Our current per diem patient expenditure of \$24.85 is well above Mississippi's low of \$11.26 and far below Arkansas' high of \$72.76.

Our proposed budget for 1976-77 would take New Hampshire above the national average of \$30.90.

I think it is significant that under our current budget New Hampshire rates third in the nation in per cent of its state budget that is allocated to the hospital—second only to Pennsylvania and New York.

To those who would seek to raise more revenues than those that I now suggest to once again balance my proposed budget, I recommend that you consider carefully the state of our economy.

Today our unemployment rate of 6.9 per cent is the highest in 25 years. How would you collect new revenues from the unemployed?

This is no time to add as much as one cent to the economic woes and present tax burdens of our people.

Special groups have their lobbyists.

The taxpayers of New Hampshire have their Governor.

I hereby renew my pledge that there will be no new taxes in this administration. For those of us who hold public office, it is important that we set a good example.

While I have never supported nor opposed the garage improvements for the Bridges House, I must inform you now that just as I refused to permit an increase in the Governor's salary two years ago, I will oppose any improvements for the Bridges House.

Further, I note that the Commissioner of Public Works and Highways has suggested an increase in tolls for our highways. Our people cannot afford an increase in tolls at this time. I shall negate any such recommendation that may come before Governor and Council.

The taxpayers of New Hampshire deserve a break. They shall get one for as long as I am Governor.

On motion of Sen. Ferdinando the Convention rose.

Dear God, the very season of the year reminds us of the importance of our relationship with You. The birds of the air, the tough but gentle determination of crocus and other miracles of earth, the promise of garden plants growing on the window sill, the anxious preparation of fishing gear and baseball mitts, and much more cause us to sense the unfolding of the great drama we call Spring. Thank You God for Spring. Thank you God for the newness and renewal of Spring. Thank You God that we can be touched by Spring. Touch us and mold us, love us and use us. O God, in the anguish of our times let our leadership be sensitive to Your will for all mankind that we may see beyond our windows the need for genuineness of purpose, faith, hope and love for all peoples everywhere. Let there be Your Spring for all Your creation and all Your creatures. And let it begin with me. Amen!

(The foregoing policy provision shall not be so construed as to affect any legal requirement for avoidance of a policy or denial of a claim during such initial two year period, nor to limit the application of RSA 415:6 (B), (1), (2), (3), (4) and (5) in the event of misstatement with respect to age or occupation or other insurance.)

(A policy which the insured has the right to continue in force subject to its terms by the timely payment of premium (1) until at least age 50 or, (2) in the case of a policy issued after age 44, for at least five years from its date of issue, may contain in lieu of the foregoing the following provision (from which the clause in parentheses may be omitted at the insurer's option) under the caption "Incontestable": After this policy has been in force for a period of two years during the lifetime of the insured (excluding any period during which the insured is disabled), it shall become incontestable as to the statements contained in the application.)

V. Amendment adopted.

Ordered to third reading.

HB 483, increasing the rate of interest paid on escrow accounts. Inexpedient to legislate. Rep. Shirley Clark for Banks and Insurance.

An escrow account is an arrangement you may make with your bank whereby you pay a certain amount more than your mortgage payments so that you have the money saved when your taxes (perhaps insurance is included) come due. All FHA and VA mortgages require escrow accounts. Currently banks must pay interest on escrow accounts at a rate not less than 2% below the rate paid on your regular savings account.

Bill would require the interest paid on escrow accounts be the same as that on savings accounts.

Banks presented costs of escrow accounts to them. Currently some make a little profit on escrow accounts and some lose a little money depending on individual bank investment policy.

If bill were passed, some banks might continue the service while others would not. Committee felt that many people liked and needed this service, and that provisions of bill might make many banks feel they no longer wished to bother with escrow accounts.

Rep. Chris Andersen moved that the words, ought to pass, be substituted for the committee report, inexpedient to legislate, and spoke to his motion.

Reps. Chandler, Baker and Favreau spoke against the motion.

Rep. Shirley Clark explained the bill.

(Rep. French in the Chair)

Rep. Morrisette spoke in favor of the motion.

Rep. Seamans moved the previous question.

Sufficiently seconded.

Adopted.

Rep. Andersen requested a roll call.

Sufficiently seconded.

Reps. Philip Currier and Sayer abstained from voting under Rule 16.

Tuesday, 8Apr75

The House met at 12:30 o'clock.

Prayer was offered by Guest Chaplain Rev. Christopher Emerson, Pastor of the Warner United Church.

Gracious Lord, once again convince us of Your presence. Make us realize that You are with us even when we forget your majesty and love. By Your Holy Spirit, smash our complacency and let Your timeless presence echo in the events of this day.

We have heard from the Book of Proverbs: "All the ways of a man are pure in his own eyes, but the Lord weighs the spirit." (Proverbs 16:2 RSV)

We pray that You will not leave us in the false comfort of feeling pure and righteous in our own eyes.

Weigh our spirits in the scales of Your divine justice and give us a speedy recognition of Your judgment. Then with a properly contrite heart, we shall be more ready to perceive Your will in the decisions of the day.

These things we pray in the name of Your Son, Jesus Christ, to whom be glory and majesty, might and authority, before all time, now, and forevermore. Amen

Rep. Chandler led the Pledge of Allegiance.

NOTICE OF RECONSIDERATION

Rep. Morgan served notice that today or some subsequent day as limited by House Rule 28, he would ask the House to reconsider its action of killing HB 483, increasing the rate of interest paid on escrow accounts.

VACATE

Rep. Lessard, moved that the House vacate the reference of HB 667, relative to the powers of the city council of Dover; providing for council confirmation of all appointments made by the city manager, and providing for removal from office by

the council to the committee on Municipal and County Government and re-refer said bill to the committee on Dover Delegation.

Adopted.

The Speaker called for a quorum count.

285 members having answered, a quorum was declared present.

COMMITTEE REPORTS

HB 441, prohibiting the varying of rates for motor vehicle liability insurance based solely on age groups. Inexpedient to legislate. Rep. Shirley Clark for Banks and Insurance.

Committee feels that this should be a subject for an interim study but bill itself would only make rates more unfair for most drivers.

Effect of this bill would be to increase insurance rates for all groups except those aged 16-25.

Increases as follows:

Ages 30-65—13.6%

Elderly—19.6%—currently receive 5% discount

Female operators 30-64—26.2%—currently receive 10% discount

Approximately 80% of drivers would be faced with an increase in rates.

Seventeen percent of cars insured have youthful operators but this group generated 27% of the total loss dollars.

Resolution adopted.

HB 362, establishing a coastal zone management plan. Ought to pass with amendment. Rep. Greene for Environment and Agriculture.

Calls attention to the process, now underway, of developing a management plan for the New Hampshire coastal area. When this plan comes to the next session for action the amendment provides that the first action will be by the legislators from the area affected. An override is possible but only by a three-fifths vote of both the House and Senate.

Rep. Greene explained the bill.

Rep. Splaine spoke against the committee report.

AMENDMENT

Amend paragraph VIII of section 1 of the bill by striking out same and inserting in place thereof the following:

VIII. It is the state policy to preserve, protect, develop and, where possible, to restore or enhance the resources of the state's coastal zone for this and succeeding generations in such a manner as to accomplish the following goals:

(a) To preserve, protect, develop and where possible, restore or enhance the resources of the New Hampshire coastal zone for this and succeeding generations;

(b) To achieve the wisest and best balanced use of land and water resources of the coastal zone, giving full consideration to ecological, cultural, historic and esthetic values, and to needs for social and economic development;

(c) To integrate public policy relative to coastal zone matters into a coordinated and managed program for the state of New Hampshire.

Amend the bill by striking out section 3 and inserting in place thereof the following:

3 Areas Within Coastal Zone. The coastal zone shall consist of three areas distinguished by the degree of control envisioned over the inclusive land and water uses which have a direct and significant impact upon coastal waters. The first area shall be a primary zone where more stringent controls may be needed. The second area shall be a secondary zone where less stringent controls may be needed. The third area shall be a tertiary zone where only those controls may be necessary to avoid serious impacts upon water and air quality of the primary zone. The boundaries of the three areas shall be designated in the coastal zone management plan.

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Preparation of Coastal Zone Management Plan. The office of comprehensive planning shall prepare a coastal zone management plan which meets the standards set forth in the federal Coastal Zone Management Act of 1972 (PL 92-583) as amended. The office of comprehensive planning shall consult with, and duly consider, the proposals and comments of the various local, regional, state and federal govern-

mental units, and private parties with an interest in the coastal zone while drawing up a coastal zone management plan, and shall hold not less than three hearings, at least two of which shall be held within the primary or secondary zone.

Amend the bill by striking out section 5 and inserting in place thereof the following:

5 Adoption of Coastal Zone Management Plan. A coastal zone management plan prepared pursuant to this act shall not take effect until it has been:

I. Referred to a special committee composed of the representatives and senators who represent towns and cities which are designated as being within the primary and secondary zones of the coastal area for vote and report to the general court.

II. Enacted by the general court, on majority vote if the report is affirmative, or by a three-fifths vote of each house if the report is negative.

III. Signed by the governor.

Amendment adopted.

A division was requested on the adoption of the committee report.

228 members having voted in the affirmative and 103 in the negative, HB 362 was ordered to third reading.

HB 36, relative to the length of time in which the governor and council must appoint a commissioner of health and welfare. Ought to pass. Rep. Cushman for Executive Departments and Administration.

Preserves the method of nominating a Commission of Health and Welfare as established by the Legislature in 1961, and provides for the appointment of a Commissioner by the Advisory Commission consistent with the opinion of the Supreme Court, in the event that the Governor and Council do not appoint a nominee within sixty days of submission of nominees.

and SB 12 was ordered to third reading.

Rep. Laurent Boucher wished to be recorded in favor of SB 12.

HB 523, reducing the minimum age for licensure as a private detective. Ought to pass. Rep. Duprey for Executive Departments and Administration.

This bill would permit the hiring of security guards, night watchmen or construction guards, at the age of eighteen instead of twenty-one, thus allowing employees to tap the college student labor market.

Ordered to third reading.

HB 598, establishing a committee to study public utility regulation. Inexpedient to legislate. Rep. Withington for Executive Departments and Administration.

This did not seem to the committee to be a serious approach to such a complex problem. The lack of funding would force the committee to operate at an amateurish level.

Resolution adopted.

SB 69, revising the state industrial development act. Ought to pass. Rep. Brouillard for Executive Departments and Administration.

The bill allows the Industrial Development Authority to include financing of research and development facilities, corporate headquarters and machinery and equipment only, and spells out the types of pollution control projects which are covered.

Ordered to third reading.

HB 534, requiring a special stamp to hunt pheasants. Ought to pass with amendment. Rep. Stimmell for Fish and Game.

All money from this stamp goes to pheasant program.

AMENDMENT

Amend RSA 214:9, X, as inserted by section 2 of the bill, by striking out same and inserting in place thereof the following:

X. If the applicant wishes to hunt pheasants, two dollars and the agent shall thereupon issue a pheasant stamp which shall entitle the licensee to hunt, shoot, kill or take, except by the use of traps, no more than two pheasants, one of which may be female, per day during the open season.

Amend RSA 206:35-a, as inserted by section 3 of the bill, by striking out same and inserting in place thereof the following:

206:35-a Pheasant Stamp Revenues. The state treasurer shall establish a separate account to which shall be credited all monies collected by the fish and game department from issuance of pheasant stamps under RSA 214:9, X. The monies

available in such account shall be used for the purchase and propagation of pheasants as determined by the director.

Amend the bill by striking out section 4 and inserting in place thereof the following:

4 Effective Date. This act shall take effect upon its passage.

Amendment adopted.

Thank You God, for being the God for every day and all peoples. Thank You for being our God for this new day. There is that ever present melody of hope in the gift of a new day. Open our eyes and ears to the possibilities for doing Your will in these hours for decision making. Let us not, without concern for Your judgments, brag about our "consistency" in thought and deed as leaders of our state. Remind us that "consistency" may well be the fruit of a stagnant mind. You have given to each person one tongue and two ears. Could it be Your desire for us to servant persons that we should hear from others twice as much as we speak? Let us listen and see the cry of anguish and pain of our times and approach our labors with the divine hope of a New Day for all Mankind. Let it begin with me. Amen!

Rep. Sara Townsend led the Pledge of Allegiance.

COMMITTEE REPORTS

(Consent Calendar)

Rep. Milbank requested that HB 423, establishing a committee to study all aspects of the use of wood substance for the production of methanol and methane as a source of energy, be withdrawn from the calendar.

Rep. Russell Chase requested that HB 368, providing for the preparation of an election procedure manual and election training sessions, be withdrawn from the calendar.

Rep. Hoar requested that HB 530, increasing the penalty for operating an off highway recreational vehicle on a railroad right-of-way, airport runways and cemeteries, be withdrawn from the consent calendar.

Rep. James Murray requested that HB 488, authorizing the New Hampshire transportation authority to purchase certain rail passenger coaches, operate or lease same to private enterprise and making an appropriation therefor which is funded by a bond issue be withdrawn from the consent calendar.

Rep. Russell Chase moved that the House adopt the committee recommendation of Inexpedient to legislate on HB's 507 and 471, and further moved that the House adopt the committee recommendation of Ought to pass on HB's 427, 561, 562, 591, 620, 411, 556, 263, 299 and 646, and further moved that the House adopt the committee recommendation of Refer to interim study committees by the appropriate standing committees on HB's 412, SB 27, HB's 195 and 245.

Adopted.

HB 507, prohibiting advertising by public utilities. Inexpedient to legislate. Rep. Noble for Executive Departments and Administration.

The measure well may be unconstitutional at both the state and federal levels. The amount of money involved is so small as to be an almost unmeasurable percentage of utility operating costs and would not affect consumer rates if banned. The bill would also adversely affect common carrier such as buses if they could not advertise schedules and rates.

HB 471, establishing a committee to study the implementation of bicycle routes within the state and making an appropriation therefor. Inexpedient to legislate. Rep. Ryan for Transportation.

By a unanimous vote the committee decided that this bill would not serve the wishes of the sponsor without a much larger appropriation, which is not available.

HB 427, relating to bank deposits in trust. Ought to pass. Shirley Clark for Banks and Insurance.

In order to avoid probate many people without much money set up savings bank trusts in joint tenancy. Since the formalities of a will aren't followed (witnesses for instance) courts frequently do not carry out the intent of the person setting up the trust.

Bill clarifies the law in joint tenancy and puts into statutory form which is the usual intent of the person opening an account.

The current law protects banks only—doesn't determine ownership of money in account. It just relieves the bank from liability if the money is not paid to the proper person.

HB 561, relative to permissible investments for savings banks. Ought to pass. Rep. Shirley Clark for Banks and Insurance.

There are requirements which must be met before a security is considered as a safe investment for savings banks. Because of current market conditions some stocks which banks invested in no longer meet the requirements as set forth in the statute.

Bill amends statute so that some stocks are now eligible again (such as telegraph and telephone) and adds oil stocks and bonds to the eligibility list.

HB 562, relative to procedures for consolidation of banks. Ought to pass. Rep. Shirley Clark for Banks and Insurance.

Bill updates 1917 law to allow hearing before consolidation of banks either before a court appointed master or the bank commissioner. Hearing is only before bank commissioner now.

Bill further does away with requirement that each depositor be notified by mail of hearing, however, notice must be published in a newspaper in general circulation in the area for at least once a week for three weeks.

Bill also does away with mailing requirement to depositors before actual consolidation takes place but still requires notice in paper.

HB 591, authorizing the board of directors of a credit union to declare interest refunds. Ought to pass. Rep. Shirley Clark for Banks and Insurance.

Allows the board of directors of credit unions to declare interest refunds more often than once a year.

HB 620, regulating attorney's fees in consumer cases. Ought to pass. Rep. Shirley Clark for Banks and Insurance.

Many consumer sales and loan contracts provide that the seller or lender can collect attorney's fees if he sues the consumer for breach of contract and wins.

Bill just ensures that equal treatment be given the consumer by requiring that these contracts also provide that the consumer can collect attorney's fees if he wins a suit against a seller or lender.

HB 411, providing for reduced service retirement benefits for group I members under the New Hampshire retirement system who have satisfied the requirement for a vested deferred retirement benefit, who have attained the age of fifty-five, but not the age of sixty, and who elect to receive a retirement allowance at such age. Ought to pass. Rep. Noble for Executive Departments and Administration.

The bill provides for those desiring to retire as early as fifty-five a benefit reduced by five-ninths of one percent for each month by which the date on which benefits commence precedes the month during which he attains sixty years of age. There is no additional cost to the state and no increase to the liability of the retirement system.

HB 556, extending the liability of towns for damage to livestock caused by dogs to include any member of the canidae family, excepting the red and grey fox. Ought to pass. Rep. Scott for Fish and Game.

Extends provisions for damage caused by dogs to livestock, fowl and domestic animals to cover all members of the canine family excluding the red and grey fox. City or town would be liable for damages caused by coyote or coy dogs.

HB 263, relative to appeals from zoning boards of adjustment and planning boards. Ought to pass. Rep. Rowell for Municipal and County Government.

This bill provides that hearings held in the superior court in accord with an appeal from a decision of a planning board shall take place within sixty days after the date the petition for hearings is filed.

HB 299, relative to the tenure of office of town treasurer appointed to fill the vacancy of an elected town treasurer. Ought to pass. Rep. Gage for Municipal and County Government.

This bill provides for continuity of office.

HB 646, permitting the real estate commission to return to the sender any check, draft or money order which is incorrect. Ought to pass. Rep. Morgan for Statutory Revision.

Corrects a situation that has caused great inconvenience to senders of checks and cash to certain state departments.

HB 412, providing for appointment of the house sergeant-at-arms in the event of a vacancy. Refer to Committee on Legislative Administration for interim study. To report back October 1, 1975. Rep. Duprey for Legislative Administration.

The entire subject area of filling vacancies in legislative elected positions needs a great deal of study. Only then can a comprehensive bill be drafted.

SB 27, requiring the senate and house of representatives to fill a vacancy in the office of its presiding officer within fifteen days after the vacancy occurs. Refer to the Committee on Legislative Administration for interim study. To report back October 1, 1975. Rep. Duprey for Legislative Administration.

This bill also deals with the filling of vacancies in elected legislative positions and needs to be considered in interim study along with similar bills.

HB 195, providing for the delivery by the town clerk to the voter, in person, or mailing to said voter and the voter mailing or delivering to the town clerk, in person, of an absentee ballot. Refer to the Committee on Statutory Revision for interim study. Rep. Morgan for Statutory Revision.

HB 245, prohibiting dual candidacies for office and preventing dual printing of a candidate's name on the ballot of biennial elections and other elections of national or state officers. Refer to the Committee on Statutory Revision for interim study. Rep. Morgan for Statutory Revision.

SB 77, relative to issuance of wildlife emblems. Ought to pass. Rep. Stimmell for Fish and Game.

Would provide revenue for Fish and Game Department.

Referred to appropriations.

The Speaker called for the special orders:

CACR 2, relating to decreasing the age requirement for members of the senate. Providing that the age requirement for members of the senate is decreased from thirty to twenty-five years of age. Majority: Ought to pass; Rep. Joncas for Constitutional Revision. Minority: Inexpedient to legislate. (Reps. Chandler, James Humphrey and Fullam)

Majority: The committee felt that it was reasonable for a twenty-five year old to be able to run for the state Senate since twenty-five year olds can serve in Congress.

Minority feels state Senators should be of greater maturity and more mature judgment. Young members have not had the practical experience in the real world that older members have.

Rep. Chandler moved that the report of the Minority, in expedient to legislate, be substituted for the report of the Majority, ought to pass and spoke to his motion.

Reps. Gardner, Buckman, and Duprey spoke against the motion.

Rep. French moved the previous question.

Sufficiently seconded.

Adopted.

Motion lost.

Question being on the report of the Majority, a roll call was requested.

Sufficiently seconded.

5. Any bill concerning state retirement systems shall not be introduced unless there is attached thereto a fiscal note based upon estimates obtained from a qualified and approved actuary as to total cost involved.

6. Every bill repealing or modifying any act or statute shall refer to the same: (a) if contained in the Revised Statutes Annotated by the section and chapter thereof and if the 1955 adopted Revised Statutes Annotated has been amended by stating "as amended": (b) if not contained in the Revised Statutes Annotated by the section and chapter and the session of the legislature when the same was passed expressed in words clearly with full reference to all amendments in sequence so that it shall not be necessary to refer to any other act or statute to ascertain the meaning thereof. The title of every bill shall indicate, in brief and comprehensive form, the subject-matter contained in the bill. It shall be the duty of the presiding officer of each body of the legislature to require all such bills to be made in conformity with this rule, before putting any vote thereon, except to commit or amend.

7. When a bill or resolution which shall have passed in one body is rejected in the other, notice thereof shall be given to the body in which the same have passed.

8. After each body shall have adhered to its disagreement, a bill or resolution shall be considered lost.

9. Each body shall on request transmit to the other all papers, or copies thereof, on which any bill or resolution may be founded.

10. Final action, excluding action on enrolled bills committee reports, shall be taken by each house on all bills and joint resolutions as follows:

a. In the originating house;

1. On those referred to the Ways and Means Committee which raise or affect statutes raising revenue, no later than the 2nd Thursday in May.

2. On those containing appropriations, including the so-called Budget Bill and Capital Bill, no later than the 3rd Thursday in May.

3. On all others, no later than the 1st Thursday in May.

b. In the non-originating house no later than the 5th Thursday in May.

None of the above limitations shall apply to the supplemental budget bill. If any bill or joint resolution is sent to a committee on conference, further action may be taken subsequent to the above dates by the House or Senate.

11. No bill which has been indefinitely postponed shall be admitted under color of amendment by a committee of conference or otherwise.

12. No bill, joint resolution or concurrent resolution to amend the constitution, claim outstanding on the first day of the session or petition relating to new business shall be introduced in the session unless its subject matter has been received for drafting by Legislative Services on or before the 4th Thursday of April, nor shall such matters be introduced in either branch of the legislature from state officers, departments or agencies unless they have been previously filed with Legislative Services prior to October first preceding the session, unless reported by the Committee on Rules; provided that this rule may be suspended in either house whenever two-thirds of the whole number of elected members shall, on division taken, vote in favor thereof, and not otherwise.

13. There shall be a committee for the purpose of enrolling bills, consisting of four members of the House of Representatives and three members of the Senate. All bills that have passed both bodies shall be delivered to said committee, be by them enrolled, carefully examined and reported to the respective bodies; and shall be signed by the Speaker of the House of Representatives and the President of the Senate. If the examination of a bill shall disclose and clerical error or formal imperfection, said committee shall report it back to the respective bodies, with such amendments as are required to correct the same; and any measures so reported shall be subjected to amendment in those particulars and in no other respect.

14. A public hearing on any bill may be held jointly by the Senate and House committees. The Speaker or President of the body in which the bill originates may request the President or Speaker of the other body to authorize the appropriate committee of that other body to sit at a joint public hearing. Joint hearings in no way preclude the bill being reheard by the committee of either body. Presiding over the hearings shall be the chairman of the committee calling for the joint hearing or his designee without regard as to whether a House or Senate bill is being heard. The Speaker or the President may authorize standing committees of their respective bodies to meet on non-legislative days as needed.

15. Effective date of bills. Except as hereinafter provided, each Senate and House bill shall in terms be made effective not earlier than sixty calendar days after the date of its passage. Any bill requiring another effective date than prescribed herein may be amended on second reading by a majority vote of either the Senate or House and said amendment may provide for a bill to become effective on passage or on a specific date. Provided, however, that the limitation herein provided as to effective dates shall not apply to (1) bills of an emergency nature, (2) tax bills, (3) private acts affecting one particular town, city or political subdivision, (4) bills making appropriations of money for ordinary or capital expenses of state agencies, or (5) bills affecting fees for licenses or certificates.

16. A bill or resolution may be recalled from the Governor at any time before it is signed by him, by a majority of the Senate or House, which ever last had possession.

17. Concurrent Resolutions Proposing Constitutional Amendments. Proposed constitutional amendments shall be submitted as concurrent resolutions entitled: "Concurrent Resolution proposing a Constitutional Amendment Relating to***," and with a resolving clause in the following form: "Be it Resolved by the (Senate) (House of Representatives) the (House of Representatives) (Senate) concurring that the Constitution of New Hampshire be amended as follows: "Concurrent resolutions proposing a constitutional amendment shall truly propose to amend or supplement the Constitution and contain only subject matter which genuinely belongs in the fundamental law of the state: it being the intention of this rule to exclude therefrom all subject matter which is legislative in nature and all amendments for the primary purpose of obtaining a popular referendum. Each concurrent resolution shall set forth the text of the new matter to be inserted in the Constitution and also the text of a question summarizing the amendment, to appear on the ballot proposing such constitutional amendment. The General Court shall specify the particular election at which such question is to be submitted to the voters, and shall state whether it is to appear on the regular or a separate ballot. All such concurrent resolutions shall be read a first and second time by title and referred to the appropriate standing committee of public hearing and report. Amendments to such a resolution shall be in order while the measure is still on second reading. On the question of ordering such a resolution to third reading and on the question of final passage, the President and Speaker shall require a division vote unless a roll call is recorded under the rules and completed. Adoption of either of said questions shall require a vote of three-fifths of the entire membership of each house. In case of disagreement between the two bodies, such concurrent resolutions shall be subject to the usual conference committee procedure. Such concurrent resolution, if adopted by the required constitutional majority of each body, shall be engrossed in the usual form and signed by the Speaker and the President, and shall be submitted to the Secretary of State for appropriate action and for submission to the voters. Such concurrent resolutions shall be made a part of the permanent legislative records.

18. A concurrent resolution proposing a constitutional amendment, as provided by Rule 17 shall be read into the Senate or House where it originates not later than the 2nd Thursday of May first following the assembly of any General Court. All hearings on such resolutions may be held jointly as provided under Joint Rule 14 by the appropriate standing committees of the Senate and House provided that in the event the resolution is amended in the first body and the second body chooses to have a second hearing this too may be joint. The committee vote on the resolution shall be by each committee not by the committees jointly and passage in final form shall be completed by both bodies not later than the 5th Thursday in May of the calendar year which the resolution was introduced. After said date in May no further action may be taken by either house on the resolution provided that if in the opinion of the attorney general, or an advisory opinion from the supreme court states that, the form of the question in the resolution needs to be amended, the two bodies may amend the resolution in such particular only by affirmative vote of no less than three-fifths of the entire membership of each house taken on division or roll call vote. A motion to so amend shall be in order in either body, notwithstanding any other rule to the contrary, at any time prior to the prorogation of the assembly of that General Court.

19. Any bill making appropriation for the administration, operation and maintenance of any department or departments for each or any fiscal year of the biennium (the so-called Budget Bill) or a bill making general appropriation for the cost of land, public improvements and other capital outlays, itemized by specific projects or classes of projects of the same general character (the so-called Capital Budget Bill) shall be introduced into either the Senate or the House no later than the 3rd Tuesday in April.

20. Conference Committees on Budget Bills. The report of the conference committee on either the general appropriation bills or the capital improvements bill shall be printed in the journal or a supplement thereto before action is taken on the floor in either body on said report.

21. The report of a committee of conference on a concurrent resolution proposing an amendment to the constitution shall be first returned to that house which acceded to a request for a committee of conference. The report shall be recorded in full in the journal or supplement of that house to which it is first returned and made a special order of business at the late session of a subsequent day. After said report has been adopted by the house to which it was first returned, it shall then be transmitted to the other house for its action.

22. No Joint Rule, except rule 12, shall be suspended unless two-thirds of the members present, in each house, voting separately, vote in favor thereof.

23. No action may be taken in either house on any committee of conference report until a copy of said report has been delivered to the seats or placed on the desks of all members. A committee of conference may neither change the title of any bill submitted to it nor add amendments which are not germane to the subject matter of the bill as originally submitted to it.

23. All committees of conference shall consist of seven members; four members of the House appointed by the Speaker and three members of the Senate appointed by the President except for committee of conference on the operating budget, which shall consist of eight members; five from the House, three from the Senate. All committee of conference reports must be unanimous.

25. There is hereby established a joint screening committee of the General Court, consisting of four members of the House appointed by the Speaker, and three members of the Senate appointed by the President. If more than one member of the General Court requests that legislation of an involved and voluminous nature be drafted on the same subject matter, but with some variations so that the main body of each bill, even though drafted separately, would be practically duplicates, the office of Legislative Services shall advise the joint screening committee established by this rule of such a situation. The committee, after consultation with the requesting members, shall endeavor to have them agree to the drafting of one bill.

26. Members of both houses may sponsor legislation jointly. Proposed legislation will be titled House Bill or Senate Bill according to the first named sponsor.

27. Clarification of Legislative days. Legislative days are figured in each house independently based on the actual days that either house has been in session.

28. Every bill or resolution in either body making an appropriation shall, after having been placed on second reading and thereafter referred to the respective appropriations committee or finance committee for further consideration, be messaged to the other body in the form of an extra chairman's copy and introduced, put on first and second reading, referred to committee where public hearings may be held. The bill or resolution shall then be held by said committee until final action on third reading has been taken by the body into which the bill or resolution was originally introduced. Upon such final passage, the original of said bill or resolution shall be re-introduced into the second body but for purposes of satisfying the rules requiring first and second readings, referral to committee and public hearings, the previous action on said bill or resolution shall be deemed to satisfy those requirements. Thereafter the committee in the second body to whom the bill or resolution was referred shall take action on the bill or resolution from that point according to all other rules of the house of representatives, the senate and the joint rules. If the bill or resolution was amended in the original body on second or third reading, the chairman of the committee to whom the measure was referred in the second body may hold a second public hearing at his discretion but shall not be required to hold a second hearing. This rule may be suspended by either house by majority vote.

29. A sponsor of any bill or joint resolution referred to a committee of conference shall, upon his request, be granted a hearing before said committee prior to action thereon.

30. Both houses shall take final action including final action on all committee of conference reports, excluding final action on any bill or joint resolution referred for interim study or action on enrolled bills committee reports, of the so-called Budget Bill and Capital Budget Bill, no later than the 3rd Tuesday in June and on all others no later than the 2nd Thursday in June.

31. The so-called Budget Bill and Capital Budget Bill shall be submitted to the Governor for his signature no later than the 3rd Wednesday in June and all other bills and joint resolutions shall be so submitted no later than the 3rd Tuesday in June; and when each house adjourns on the date that all bills and joint resolutions have been submitted to the Governor for his signature, it shall adjourn to the joint call of the President of the Senate and the Speaker of the House.

32. If the two houses of the General Court are called into session by joint action of the two presiding officers when each house adjourns therefrom it shall adjourn again to the joint call of the President of the Senate and the Speaker of the House.

33. If after July 1 the two houses of the General Court are called into session by joint action of the two presiding officers, all of these joint rules relative to time limitations concerning requests for drafting, introduction of bills, joint resolutions and concurrent resolutions proposing a constitutional amendment and any action thereon by either or both houses or any committee thereof shall be suspended.

AMENDMENT

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 Bureau of Off Highway Recreational Vehicles. Amend RSA 269-C:3 (supp), as inserted by 1973, 560:1, by inserting after paragraph IV the following new paragraphs:

V. The bureau may make application to the commissioner of the department of public works and highways and city or town officials as may be appropriate for a permit in writing to allow OHRVs to operate on or across bridges when such operation is necessary in establishing OHRV trails or in connection with trails or events being developed or held in conjunction with established OHRV clubs. The commissioner of public works and highways and city or town officials may issue or deny such permits. A permit shall specify the type of OHRVs to be allowed, and permitted dates and hours of operation, and shall require the bureau to erect and maintain all signs required under the terms of the permit. Any person operating an OHRV on or across a bridge under this paragraph shall do so at his own risk. Said person shall keep to the extreme right side of said bridge and travel at a speed not to exceed fifteen miles per hour and shall yield to all oncoming vehicular traffic.

IV. The bureau may close any public way that is not maintained for conventional motor vehicles during the winter months for use as a snow traveling vehicle trail when such closure is deemed by the bureau to be in the best interest of safety. Such closure to conventional motor vehicles is subject to approval by the commissioner of public works and highways or the appropriate city or town officials, depending on who has jurisdiction over the public way. When any public way is closed pursuant to this paragraph, the bureau shall erect and maintain appropriate signs giving notice of the closure.

VII. The supervisor of the bureau in the interest of safety may make such rules and regulations he deems necessary for the use and control of OHRV trails, facilities, and lands under bureau control or lease. These rules and regulations shall be printed in any guide books published and posted at proper locations throughout the bureau trail system. Failure to observe these rules and regulations shall be subject to the same penalties provided for other sections of this chapter.

2 Public Highway Limitations. Amend RSA 269-C:7 (supp), as inserted by 1973, 560:1, as amended, by striking out said section and inserting in place thereof the following:

269-C:7 OHRV Public Highway Limitations. In this section, "certain public highways" means those highways to which RSA 249:52 applies. The provisions of RSA 249:52 shall apply to all OHVRs as herein defined with the following exceptions:

I. During the period beginning one-half hour before sunrise and ending one-half hour after sunset, a person may operate a snow traveling vehicle on the rights of way, exclusive of traveled portions, sidewalks and plowed snowbanks, of public highways other than interstate highways, toll roads, or limited access highways, except those limited access highways designated as controlled access highways by the commissioner of the department of public works and highways. With the approval of the commissioner of public works and highways, snow traveling vehicles may operate during the hours of darkness on highway rights of way, exclusive of the traveled portions, only where trails exist that are maintained by the bureau and only in the same direction as the highway traffic in the nearest lane.

II. A person may operate a snow traveling vehicle, when snow conditions permit, on bicycle trails or pedestrian walkways constructed for such purposes by the department of public works and highways on the interstate highways, toll roads or limited access highways if the trails and walkways are designated and maintained as approved snow traveling vehicular trails by the bureau and if such designation and maintenance is approved by the commissioner of public works and highways. Travel on said bicycle trails and walkways during the hours of darkness shall be limited to travel in the same direction as the highway traffic in the nearest lane.

III. Highway crossings for established OHRV trails may be granted by written permission from the commissioner of the department of public works and highways or his representative. No direct crossings of interstate highways or toll roads will be permitted. No direct crossings of limited access highways, except those designated as controlled access highways by the commissioner of the department of public works and highways, will be permitted. The commissioner of the department of public works and highways may issue written permission for OHRV trail crossings either under or over interstate, toll or limited access highways. The policy governing such OHRV trail crossings and OHRV trail crossings on class I, class II, class III and

limited access highways designated as controlled access highways shall be as determined by the commissioner of the department of public works and highways.

IV. In operating OHRVs within the rights of way adjacent to certain highways between points of loading or unloading and areas of OHRV operations, as provided in RSA 249:52, the one-way distance traveled in such public right of way shall be not greater than five hundred feet and OHRV speed shall not exceed fifteen miles per hour.

V. Notwithstanding any provisions of the law to the contrary, a person may operate a snow traveling vehicle on a public highway that is not maintained for winter use by conventional motor vehicles.

VI. When travel by conventional motor vehicles is not possible during a period of emergency declared by the appropriate authority having jurisdiction, an OHRV may be operated on any portion of an interstate highway, toll road, limited access highway, public highway or any other restricted area, provided that the operator of said vehicle has received the specific authority of an officer authorized to enforce the provisions of this chapter to so operate.

VII. No person shall operate an OHRV upon or across a public way if his right to do so has been suspended or revoked by the director of motor vehicles.

3 Grants-in-Aid Programs Authorized. Amend RSA 269-C:18 (supp), as inserted by 1973, 560:1, by striking out said section and inserting in place thereof the following:

3. Easements and rights of ways.

4. OHRV facilities.

5. Grants-in-aid to organized non-profit OHRV clubs and political subdivisions for the construction and maintenance of OHRV trails and facilities. The bureau shall make grants on such terms as it deems necessary and shall determine what trails and facilities shall be eligible. All trails and facilities developed and maintained under this grant-in-aid program shall be open to the general public and shall be listed or shown in any trail information or guide published by the bureau.

6. Such other purposes as may be budgeted within the limitations of the funds available.

(b) No more than forty percent shall be appropriated to the state fish and game department for the following:

VI. Any registration fees collected and not appropriated shall be transferred to the general fund.

4 OHRV Dealers. Amend RSA 269-C:21, I (supp) as inserted by 1973, 560:1, by striking out said paragraph and inserting in place thereof the following:

1. Any person who is in the business of selling OHRVs shall register as a dealer with the director. The director shall assign a distinguishing number to the registrant and issue appropriate registration plates to him. The dealer may use the plates for his pleasure purposes, but shall not rent or otherwise permit these plates to be used except for demonstration purposes in connection with his business.

269-C:29 Prohibiting OHRV by Posting. An owner may post all or any portion of his land against use by an OHRV as defined in RSA 269-C:1, VI. Such posting notices shall be of durable material with the appropriate words or symbols printed with block letters not less than two inches in height indicating that use of this land is prohibited for the purpose so specified and shall contain, also, the name and address of the owner or lessee of such land. Such signs shall be not more than one hundred yards apart and shall be posted, also, at the gates, bars and commonly used entrances. Dear God of Creative love, guide us in our approach to our tasks as elected leaders of the people. Let us not glory in the Samson like approach to the work at hand that puts might in action, to destroy, as if destruction of things and people pleases You. Let us dare to consider the life of Your Son Jesus and let the Sweet, Sweet Spirit enter and rule over our whole self and total experience. He is the Way, the Truth, the Life. May His example be our example in all we do, say and think.

We give You thanks, Dear God, for the life of Ronald Geiger and for all good examples for us to follow. In faith we offer him into Your Loving Care, and seek Your kindly blessings of peace and hope upon the Geiger family in their days of sorrow.

In the Master's name we pray. Amen!

NOTICE OF RECONSIDERATION

Rep. A. C. Jones served notice that today or some subsequent day as limited by House Rule 28 he would ask the House to reconsider its action of passing HB 427, relating to bank deposits in trust.

COMMITTEE REPORTS

HB 594, relative to deposit accounts of co-operative banks, savings and loan associations and buildings and loan associations. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

Allows co-operative banks, savings and loan associations and building and loan associations to go to a statement for a savings account instead of a passbook. This is necessary for electronic funds transfer should this system go into effect. Allows this group of banks to do what savings banks can do.

relative to savings accounts of co-operative banks,
savings and loan associations and buildings and loan
associations.

Amend the bill by striking out section 1 and inserting in place thereof the following:

1 Savings Accounts. Amend RSA 393 by inserting after section 8 the following new section:

A co-operative bank, savings and loan association or building and loan association may accept savings accounts which are appropriately evidenced by a document other than a passbook or a bank book. HB 379, relative to education of handicapped children. Ought to pass with amendment. Rep. Hager for Education.

The Education Committee, after reconsidering this bill, again recommends unanimously that the bill ought to pass.

The first part of the bill is the most significant. It changes the emphasis on developing plans for handicapped from the state to the local community. In other words it returns the authority to the districts where most is known about individual problems.

The second part of the bill is a housekeeping amendment to bring the RSA's in conformity to court and Attorney General's rulings. It will not cost the districts any money.

AMENDMENT

Amend the bill by striking out all after the enacting clause and inserting in place thereof the following:

1 New Definitions. Amend RSA 186-A:2 (supp), as inserted by 1965, 378:1, as amended, by inserting after paragraph IV the following new paragraphs:

V. "Approved program" means a program of education that has been approved by the state board of education and that is maintained by a school district, private organization or state institution for the benefit of handicapped children.

VI. "Approved plan" means a plan for the education of handicapped children that has been developed by a school district and that has been approved by the state board of education.

2 Approved Plan for the Education of Handicapped Children. Amend RSA 186-A:5 (supp), as inserted by 1965, 378:1, by striking out said section and inserting in place thereof the following:

186-A:5 Education. The state board of education shall assist each school district in developing an approved plan which the district shall use for the education of handicapped children.

3 Education Required. Amend RSA 186-A:6 (supp), as inserted by 1965, 378:1, as amended, by striking out said section and inserting in place thereof the following:

186-A:6 Education Required. Every handicapped child capable of being benefited by instruction shall attend an approved school or program to which he may be assigned. If a handicapped child capable of being benefited by instruction shall make application for continued educational facilities, such instruction may be continued until such time as the handicapped child has acquired education equivalent to a high school education or has attained the age of twenty-one years.

4 Effective Date. This act shall take effect July 1, 1976.

Amendment adopted.

How does one clear away the cobwebs of indecision and timidity and dare to speak and stand for what we believe is right in Your sight? How does one put oneself in second, third or even fourth place for the sake of putting others first? How do we keep faith with Your Way, Truth, Life? O God, when the life of some little child from a land far away or an elderly person shut up and shut out from society or a family bread winner stands between welfare and starvation wages—when all cry out for dignity and freedom to be, Dear God, have Your Way with us and know that we care and seek the guidance of Your Holy Spirit in our lives. Amen!

COMMITTEE REPORTS

HB 637, relative to the composition of the board of trustees of the university system. Inexpedient to legislate. Rep. Gemmill for Education.

The committee believes that any further alterations in the University Board of Trustees at this time would be unwise.

Resolution adopted.

HB 56, relating to a general revision of laws regulating land surveyors. Ought to pass with amendment. Rep. Duprey for Executive Departments and Administration. This bill is largely a housekeeping measure tightening land surveying laws and bringing them up to date. The amendment prohibits oral examinations for registration as a surveyor, since many people felt these could be abused. It also permits civil engineers who pass the written exam to be registered, maintaining an open shop for surveyors.

AMENDMENT

Amend RSA 319-A:1, II as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

II. It shall be unlawful for any person, proprietorship, association, partnership, corporation or other entity to practice or offer to practice land surveying in this state, as defined in the provisions of this chapter or to use in connection with their name, or otherwise assume, or advertise any title or description tending to convey the impression that they are engaged in the practice of land surveying, without registration or authorization under this chapter. Admission to practice as a registered land surveyor shall be on the basis of individual personal qualification.

Amend RSA 319-A:2, IV as inserted by section 1 of the bill by striking out same and inserting in place thereof the following:

IV. The term "land surveying" means any service or work, the adequate performance of which involves the application of special knowledge of the principles or mathematics, the related physical and applied sciences, and the relevant requirements of law for adequate evidence to the act of measuring and locating lines, angles, elevations, natural and man-made features in the air, on the surface of the earth, within underground workings, and on the beds of bodies of water for the purpose of determining areas and volumes, for the monumenting of property boundaries, and for the platting and layout of lands and subdivisions thereof, including the topography, alignment and grades of streets, and for the preparation and perpetuation of maps, record plats, and field note records that represent these surveys. A person, proprietorship, association, partnership, corporation or other entity, shall be construed to practice or offer to practice land surveying who, by verbal claim, sign, advertisement, letterhead, card or in any other way, represents itself to be engaged in land surveying, or through the use of some other title implies that it is engaged in land surveying, or that it is registered or authorized to practice under this chapter, or who holds itself out as able to perform or who does perform any land surveying service or work or other service recognized as land surveying.

Amend RSA 319-A:12 as inserted by section 3 of the bill by striking out same and inserting in place thereof the following:

319-A:12 Roster. A biennial roster as of June thirtieth in the year of the biennial report provided for herein, listing the names, registration number and addresses of all registered land surveyors, and the names and addresses of all proprietorships, associations, partnerships, corporations or other entities holding certificates of registration or authorization, and the assumed names, trade names and service marks used by any such persons or entities in connection with furnishing land surveying services, shall be published by the secretary of the board during the next following month of September, commencing in September, 1975. As of June thirtieth of the year following each biennial report, a supplement shall be mailed to each person so registered, placed on file with the secretary of state and furnished to the public on request and payment of a reasonable charge in an amount determined by the board.

Amend RSA 319-A:19, I as inserted by section 6 of the bill by striking out same and inserting in place thereof the following:

1. The board shall issue a certificate of registration upon payment of registration fee as provided herein, to any applicant who, in the opinion of the board, has satisfactorily met all the requirements hereof. The board shall also issue certificates of authorization to surveying organizations upon payment of a fee as provided in RSA 319-A:17, IV to any land surveying organization, which, in the opinion of the board, has satisfactorily met all the requirements hereof. Certificates of registration or authorization shall authorize the practice of land surveying by any person or by any land surveying organization in accordance with RSA 319-A:14-a. The issuance of a certificate of registration or authorization by this board shall be prima facie evidence that the person or land surveying organization named therein is entitled to all the rights and privileges of a registered land surveyor or authorized land surveying organization, while the said certificate remains unrevoked or unexpired.

Amend RSA 319-A:20 as inserted by section 7 of the bill by striking out same and inserting in place thereof the following:

319-A:20 Expirations and Renewals. Certificates of registration or authorization shall expire on the last day of December following their issuance or renewal and shall become invalid on that date unless renewed. It shall be the duty of the secretary of the board to notify every person, proprietorship, association, partnership, corporation and other entity registered of the date of the expiration of its certificate and the amount of the one-year renewal fee. Such notice shall be mailed at least one month before the certificate expires. Certificates may be renewed at any time during December by paying a fee of not less than four dollars nor more than ten dollars as determined by the board. The failure on the part of any registrant to renew its certificate in December shall not deprive it of the right of renewal, but the fee for renewing a certificate after December and before May first of the following year shall be one and one-half times the normal renewal fee, and after April thirtieth the fee shall be twice the normal renewal fee. The right of renewal shall be limited to a period of two years from the date of expiration of the certificate. After such two-year period the certificate of the former registrant or organization shall become null and void, but may be reinstated after reapplication, payment of a thirty dollar fee and approval by the board. The board may re-examine such former registrant.

Amend RSA 319-A:23 as inserted by section 9 of the bill by striking out same and inserting in place thereof the following:

319-A:23 Reissuance of Certificates. The board, for reasons it may deem sufficient, may reissue a certificate of registration or authorization to any person, proprietorship, association, partnership, corporation or other entity whose certificate has been revoked, providing three or more members of the board vote in favor of such reissuance. A new certificate to replace any certificate revoked, lost, destroyed, or mutilated, may be issued, subject to the rules of the board, and a charge of three dollars shall be made for such certificate.

Amend RSA 319-A:24 as inserted by section 10 of the bill by striking out same and inserting in place thereof the following:

319-A:24 Violations and Penalties. Any person, proprietorship, association, partnership, corporation who shall practice or offer to practice land surveying in this state for others without being registered or authorized in accordance with the provisions of this chapter, or who shall present or attempt to use as its own, the certificate of registration or authorization or the seal of another, or who shall give any false or forged evidence of any kind to the board or to any member thereof in obtaining or attempting to obtain a certificate or who shall falsely impersonate any other registrant or organization of like or different name, or who shall attempt to use an expired or nonexistent or revoked certificate, or who shall violate any of the provisions of this chapter, shall be guilty of a misdemeanor if a natural person, or guilty of a felony if any other person.

Amend the bill by striking out section 12 and inserting in place thereof the following:

12 Practice by Organizations. Amend RSA 319-A by inserting after section 14 the following new sections:

319-A:14-a Land Surveying Organizations. A proprietorship, association, partnership, corporation or other entity may practice or offer to practice land surveying for others, provided that one or more employees, agents, associates, partners or officers, is a registered land surveyor in this state, and is designated as being responsible for the land surveying activities and decisions of such organization, and provided that a certificate of authorization has been issued by the board. If there

is any change in persons designated as responsible for land surveying activities and decisions, such change shall be reported to the board, in writing, within thirty days.

319-A:14-b Registration of Corporation or Partnership.

I. The board shall furnish the secretary of state with a list of all certificates of authorizations issued to proprietorships, associations, partnerships and corporations under this chapter and a list of all trade names, assumed names and service marks registered with the board pursuant to RSA 319-A:20-a.

II. The secretary of state shall not register any trade name or service mark which includes the words "land surveyor" or "land surveying" or any modification or derivative thereof in its firm or business name except to individuals, proprietorships, associations, partnerships, corporations or other entities holding certificates of authorization issued under this chapter.

III. The secretary of state shall not issue a certificate of incorporation to an applicant for incorporation or for registration as a foreign corporation or a foreign partnership which includes the words "land surveyor" or "land surveying" or any modification or derivative thereof in its corporate or business name or which includes the practice of land surveying among the objects for which it is established unless the board shall have issued with respect to such applicant, a certificate of authorization.

Amend RSA 319-A:17, I and IV as inserted by section 5 of the bill by striking out same and inserting in place thereof the following:

I. Applications for registration shall be on forms prescribed and furnished by the board, shall contain statements made under oath, showing the applicant's education and a detailed summary of his technical work, and shall contain not less than five references, of whom three shall be registered land surveyors or registered professional engineers having personal knowledge of his land surveying experience.

IV. Applications for a certificate of authorization for a proprietorship, association, partnership, corporation or other entity, shall be made on forms prescribed and furnished by the board and shall be accompanied by an application fee of fifteen dollars.

The Transportation Committee having toured the facilities of the Department of Safety has concluded that they cannot undertake any additional work at this time. This bill would also put the state into competition with private enterprise. The committee vote was unanimous.

COMMITTEE REPORTS

(Regular Calendar)

HB 663, relative to the powers, duties and functions of the N.H. insurance guaranty association and relative to the liquidation of insolvent insurance companies. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

In anticipation of an insurance company going under in 1969, legislation was passed which required that other insurance companies doing business in the state would pick up the net losses of the bankrupt company. Further legislation was added in 1970. Since these statutes were new, many of the problems had to be worked out by trial and error. The courts also made some decisions which modified certain provisions in the law.

Bill just does three things: 1. Modifies statutes so that they actually say what was found necessary to do. 2. Makes technical amendments to clarify certain sections. 3. Repeals one chapter of the statutes which has been superceded and is now in direct conflict with later provisions of the law.

AMENDMENT

Amend RSA 404-B:8, I (h) as inserted by section 5 of the bill by striking out same and inserting in place thereof the following:

(h) Notwithstanding any of the powers of the commissioner or liquidator as provided for in RSA 402-C, the association shall have the final authority with respect to the processing and settlement of covered claims for which it becomes responsible pursuant to this chapter, including authority for the use of records of the insolvent insurer directly related to covered claims. At the conclusion of the association's responsibility with respect to any insolvent insurer, any original records of said insolvent insurer then in the possession of the association shall be turned over to the liquidator for ultimate disposal in accordance with RSA 402-C. The association shall cooperate with any agent to the extent possible in identifying policyholders of the agent and the insolvent insurer.

Amend RSA 402-C:27, IV as inserted by section 11 of the bill by striking out same and inserting in place thereof the following:

IV. Unearned Premium Claims. It shall be the duty of each agent, subject to the provisions of this section to prepare and file on forms prescribed by the liquidator or the association the claims for unearned premiums on behalf of the policyholders of the insolvent insurer for policies issued through said agent. Agents who fail to file valid claims of policyholders as required by this section shall be personally liable to the respective policyholders to whom the unearned premiums are due and owing by the insolvent insurer, but in no event shall the agent be liable to any individual policyholder for an amount more than said policyholder's unearned premium including unearned commission less the fifty dollars deductible provision established under RSA 404-B:5, IV. Upon receipt of the unearned premium claims from the liquidator or the association, the agent shall promptly pay to each policyholder his just and proportionate share of said refund and in addition shall return to each policyholder the unearned commission due on each cancelled policy.

Amend the bill by striking out section 16 and inserting in place thereof the following:

16 Filing Claim with Liquidator and Claiming Unearned Premium. Amend RSA 402-C:26, II (supp) as inserted by 1969, 272:1 by striking out said paragraph and inserting in place thereof the following:

II. Notice Respecting Claims Filing. Notice to potential claimants under paragraph I shall require claimants to file with the liquidator their claims together with proper proofs thereof under RSA 402-C:38 on or before a date the liquidator specifies in the notice, which shall be no less than six months nor more than one year after entry of the order, except that the liquidator need not require persons claiming cash surrender values or other investment values in life insurance and annuities to file a claim. The liquidator may specify different dates for the filing of different kinds of claims.

17 Effective Date. This act shall take effect sixty days after its passage.

If the death of a child under three years of age is supposed to be caused by sudden infant death syndrome, said referee shall at once also notify the director of the division of public health services and file a duly attested copy of the record of the case with said director, who shall at once mail a duly attested copy of the summary findings of the case to the parents or legal guardians of the deceased.

Good afternoon Lord. Thank You for the gift of this day, for life, for time, for all Your tangible offerings that set us apart as persons created in Your image, with the exciting responsibilities of the power to choose and understand. Let our lives be tangible proof of our concern for doing Your will here and all places.

It is said, Lord, that a determined person can do more with a rusty wrench than a loafer can do with the finest tools. Help us to be determined persons in these difficult and challenging times, for times like these open new horizons, new opportunities, test

the courage and determination of men, women and youth and awaken new leadership to the front lines of decision making.

We are taught in Your Word, about the lifestyle for good leadership: "He would be greatest among the people, let him be a true servant to all." Bless our President, Gerald Ford, all leaders and peoples, here and everywhere, with the grace and greatness of servanthood. God Bless us and lead us. In Jesus' name. Amen!

(Speaker in the Chair)

JOINT CONVENTION

The Sergeant-at-Arms announced the entrance of the House Minority Leader, the House Majority Leader, the Senate Minority Leader, the Senate Majority Leader, the Vice President of the Senate, the Governor of Maine, the Governor of Vermont, the President of the Senate, His Excellency, the Governor and the President of the United States.

The Speaker introduced the Governor for the purpose of presenting the President of the United States who addressed the Joint Convention.

It is a great honor to appear here before the distinguished legislature of the great State of New Hampshire—a deliberative body that is known far and wide as one of the most highly representative, one of the most highly regarded, one of the most highly effective—and one of the most highly paid—in the respect and admiration of all its constituents. . . . Your selflessness and dedication is both to be commended and applauded.

I come here today to say a few words about the past, to offer some thoughts about the present and to talk about the future. The people of New Hampshire are rich in historical heritage.

It was at nearby Newcastle that four hundred of your ancestors stormed the British Fort William and Mary and captured its military stores—four months before the battles of Lexington and Concord. The captured ammunition was used by New Hampshire men who fought at Bunker Hill.

It was New Hampshire that drafted in January 1776, the first Constitution proclaimed in the colonies, and passed a Declaration of Independence three weeks before such action by the Continental Congress. It was at Bennington that General John Stark led New Hampshire troops against the British with these famous words:

"There are your enemies—The Redcoats and Tories: 'We must beat them or tonight Molly Stark sleeps a widow.' Molly Stark never became a widow. Bennington was an early colonial victory. But John Stark would have fought to the last man, the last rifle, the last round of ammunition—if necessary.

Let us remember the lesson of General Stark and the men of New Hampshire who fought us then—and make sure this nation's defenses are never permitted to deteriorate to the point where an American must ever be called upon to fight without the best weapons and without ample ammunition—and without the full determination of our government and our people to achieve final victory once committed.

I like your nickname, the "Granite State." It shows the strength of character, firmness of principle and restraint that have long characterized New Hampshire.

Much of the rhetoric in America today tends toward exaggeration, toward over-statement. Such language tends to divide more than unite. It excites more than enriches. It promises more than it can produce.

This is not the time for extremes or excess in language or in conduct. It is not the moment for exaggeration in any direction. It is a time to think and act with reason and restraint.

You and I share a common interest in a subject where we must avoid extremes and excess. That is the general subject of how we manage our affairs—as reflected in your State budget and in the Federal budget.

Amid the climbing costs of Federal and State budgets—particularly in the past decade—New Hampshire has truly balanced its budget. You grapple with your problems without a general income or sales tax. I admire your spirit of self-discipline and self-reliance. You have gone about your business quietly—with restraint—without the exaggerated rhetoric which divides people and without excessive promises that create so much false hope.

In Federal programs and Federal spending, the opposite has been true. In the last quarter-century, Federal payments for individuals climbed from \$31 billion to about \$160 billion in constant dollars. In other words, from less than one-fourth of the Federal budget to nearly one-half.

America is now spending—if we include comparable figures for State and local governments—about \$250 billion annually for various payments to individuals. That is approximately 15 percent of today's national income compared to some four percent 25 years ago.

Most of this spending is centered in a few programs. More than one-third of the funds are spent in Social Security payments, Medicare and Medicaid.

Many benefit programs are highly desirable. For example, a generation ago America devised one of the finest Social Security systems in the world and followed it with Medicare and Medicaid—and recently a Supplemental Income Plan. The American people supported these programs.

We have done many things over the past generation for the aged, the blind and the disabled—those who cannot help themselves. But it is also true that there has been an astonishing explosion in the number of other Federal programs—and in the number of people administering them. Since the early 1960's, the number of Federal Domestic Assistance programs has grown from about 200 of these social welfare programs in the early 1960's to more than 1,000 today. And there has been a massive increase in the country's bureaucracy—on the Federal, State and local level—from about six million employees in 1950 to 14 million today.

If we continue these trends at anywhere near their present rate of growth—more than twice that of the Gross National Product—the result will be this: In two decades, governments would need to collect in taxes more than half our GNP to meet their commitments.

Almost three-fourths of all Federal spending is currently in a category called "uncontrollable." I categorically reject the view that Federal spending is "uncontrollable" and that we must add each year to the national debt. Federal spending is controllable. There are two levels of such control:

The first is with the American people. They can say "no" to those still spreading the notion that it is possible to get something for nothing. Or they can say "yes" to those of us who are trying to curb the increasing burden of taxation and who want to restore fiscal responsibility.

The second lever is the exercise of leadership by the President and the Congress in the control of Federal spending. As President, I have drawn the line on spending. But the Congress is threatening to go far beyond the line. For example: The House of Representatives passed just two days ago its first regular appropriation bill for fiscal 1976. It amounted to one billion dollars more than my request of \$6.2 billion for the major Federally-aided education programs. Apparently, the American people must educate the Congress.

The Nation now faces new Congressional multi-billion dollar initiatives. How much are the American people willing to tax themselves to pay for these new proposals? And for how long?

It took this Nation more than 180 years to reach a Federal budget of \$100 billion annually. It took only nine more years for that budget to hit \$200 billion a year—and only four years beyond that for the annual total to climb to \$300 billion.

The Federal Government expects to spend about \$322 billion this fiscal year. With the cooperation of the Congress, I plan to hold the budget for fiscal 1976 to approximately \$356 billion. I am seriously concerned about the borrowing we must do to support these levels of spending.

In these troubled economic times, however, I believe it is necessary to help the unemployed and to stimulate the economy by a limited tax reduction.

In perspective, Federal receipts for fiscal 1976 would be more than \$40 billion higher if the economy were operating normally. This accounts for the most of the deficit in fiscal 1976. If the economy were operating at the rate of only one year ago, the Nation would have balanced budgets both this year and next.

Some believe that this country can continue government spending—Federal, State and local—on most if not all present programs and at least at the current rate of outlays. Others take the position that America is not spending enough to meet social and other needs.

Most of these requests come from increasingly discredited rhetoric—one promise after another. And this is the heart of our financial dilemma today. It is the endless stream of promises made to the American people—in the last generation and continuing today—that the government can and will satisfy most of their needs—and even their wants. It is a language that has now become one of extremes and excess. It is that the government will make your dreams come true—all you have to do is file an application. The American people cannot live on promises. We must live on production. All of this raises a question—a question of utmost simplicity and yet of profound significance to the American people: How long can the United States afford to run continuous budget deficits?

All levels of government have contributed much to progress during the past generation. But many new programs have failed—leading not only to waste but to disillusionment and despair. We have come to a time—in my judgment—where the American people will and must take a closer look at where their money is going. The reason is simple. The built-in momentum of the Federal budget and unanticipated other demands have produced excessive expenditure growth rates. These growth rates are not only rising faster than current revenues but are absorbing our anticipated future growth. This is no time for fiction or false promises. The American people want to know where they stand.

I believe it is time to reassess our domestic policies. I am convinced that the people of the United States do not know where their money is going—and just as important, WHY. This is the 1974 Catalog of Federal Domestic Assistance—some 800 pages of programs—much of it in fine type. It weighs almost four pounds and is a complex maze of programs. Let us look at these programs. Are we getting our money's worth? If not, why not?

It is time to re-examine not only the American budget but the American Conscience and the basic American virtues. We must get our house in order. Instead of more promises, the American people must ask who will pay for these promises.

The United States is now spending—among Federal, State and local governments—hundreds of billions of dollars for social programs. Many are uncoordinated and ineffective. They must be reassessed. We must take a close look at these and any other programs that may be questionable. The American people understand that they pay for all this spending either through their taxes or inflation—or both. This country is not great because of what the Federal Government has done, but what American individuals have accomplished.

We must take the American people back into our confidence and tell them the truth. And the truth is this: The Federal Government can no longer increase spending at the rate it has done in the past. I sound this warning to the American people—here in this Legislature because you are a remarkable example of the early principles and policies that made this country great. You have lived and worked within your means. New Hampshire is more than a State. It is a state of mind. It is the true new frontier of America—because ideas and principles and virtues have no boundaries. You have offered us the horizons—of free men and women—not those burying this Nation and our people in debt. Voltaire once said:

"Common sense is not so common."

Neither are Granite principles and Granite beliefs. Thank you for your invitation to meet with you here today.

On motion of Reps. French, Griffin, Chase, Spirou and Chambers and Sens. Downing and Brown the Joint Convention adjourned.

Whereas, the New Hampshire state council on aging, which was established to administer all grants and services mandated under the Older Americans Act of 1965, as amended, does require and request continued assistance in state financial and legislative matters, particularly during the period of time when the New Hampshire general court is not convened; now, therefore, be it

Prayer was offered by House Chaplain Milton L. Smith, Sr.

We are not always happy with Your words to us. It seems You are all too clear at times, God. Can't You just be satisfied with a little sweet talk about the weather and Spring in the air? Must we be constantly reminded of such words of Yours, as: "If my people will humble themselves and pray, and search for Me, and turn from their wicked ways, I will hear them and forgive their sins and heal their land." (II Chronicles 7:14) O God, how we desire for the "healing of our land"! Help us to be truly humble, daring to look deep into ourselves, checking out our lifestyle in the light of the lifestyle of Your Son, Jesus Christ, committing the whole person to the healing of our land. Let it begin with the important work at hand. Right now! You and me Lord, You and me. Amen!

The House met at 12:30 o'clock.

Prayer was offered by House Chaplain Milton L. Smith, Sr.

Like the woman at the well I was seeking

For things that could not satisfy.

And then I heard my Savior speaking:

"Draw from My well that never shall run dry."

There are millions in this world who are craving

The pleasure earthly things afford.

But none can match the wondrous treasure

That I find in Jesus Christ, my Lord.

So, my brother, if the things this world gave you

Leave angers that won't pass away.

My blessed Lord will come and save you

If you come to Him and humbly pray.

Fill My Cup Lord, I lift it up, Lord.

Come and quench this thirsting of my soul.

Bread of heaven feed me till I want no more,

Fill My Cup, fill it up and make me whole.

Almighty God, giver of every good and perfect gift, we thank You for this day and for strength and wisdom to match every responsibility and opportunity facing each of us as we come forth as leaders of the people.

Would You believe Lord, I overheard two water buckets having a conversation by a well the other day. One was moaning over the fact that it always came up full and went down empty. The other bucket said, "Oh, I don't see it that way at all! I go down empty and always come up full!" Help us Lord as we face decisions, decisions, to draw from Your well of "Living Waters" that never shall run dry. Remind us that You have promised, that all who put their trust in You shall truly find the fullness of life equal to every need. Let us draw deep and be filled with Your Power, sufficient for the day. So may it be! Amen!

Rep. Tripp led the Pledge of Allegiance.

—protects developers from having their projects controlled by savings banks;

—apply only to large-scale development of residential housing projects.

Bill also limits bank to have not more than 5% of its deposits in securities for projects permitted under this bill and not more than 2½% of its deposits invested in a single development corporation.

Other types of banks have similar authorization through holding companies.

Bill has support of Bank Commissioner, N.H. Home Builders Association, and N.H. Realtors Association.

HB 565, relative to accident and health insurance policies. Ought to pass with amendment. Rep. Shirley Clark for Banks and Insurance.

Employees, supposedly covered under group health and accident insurance policies where they work, frequently are not as the employer has not paid premiums and the policies lapse. Bill requires that insurance company notify the employees when this happens and provides for a 31 day grace period during which the employees are still covered. This allows them to pick up similar insurance if they so desire.

Bill also provides for group coverage of an employee, if he so desires, while he is changing from one job to another or is out of work.

If an employee dies, members of his family also have the option of picking up his group insurance.

VII. (a) If a group or blanket policy or certificate delivered or issued for delivery in this state provides hospital or surgical expense insurance or major medical expense insurance for other than specific diseases or accidents only, it shall contain a provision to the effect that in case of termination for any reason whatever of coverage provided any employee while insured under a group policy issued to his employer, or to trustees, or of a termination for any reason whatever of insurance provided any member while insured under a group policy issued to a labor union, if the employee or member is not then covered by another policy of hospital or surgical expense insurance or hospital service or medical expense indemnity corporation subscriber contract providing similar benefits or if the employee or member is not covered by or eligible to be covered by a group contract or policy providing similar benefits or is not provided with similar benefits required by any statute or provided by any welfare plan or program which together with converted policy would result in over insurance or duplication of benefits according to standards on file with the commissioner relating to individual policies, the employee or member, if he has been insured under the group policy for at least sixty days, shall be entitled to have issued to him by the insurer without evidence of insurability, upon application therefor

made to the insurer within thirty-one days after such termination and upon payment of the quarterly premium, or, at the option of the employee or member, a premium covering a shorter term, applicable to the class of risk to which the covered person belongs, to the age of such person, and to the form and amount of insurance, an individual policy providing, at the option of the employee or member, benefits similar to those provided under the group policy from which the conversion was made or at the option of the employee or member benefits may be less than those provided by the group policy from which the conversion was made. The commissioner may from time to time make rules to establish minimum standards for such converted plans, according to RSA 541-A.

(c) The effective date of the individual policy shall be the date of the termination of the individual's insurance under the group policy. The individual policy shall not exclude any other preexisting condition but the hospital, surgical or medical benefits paid under the policy may be reduced by the amount of any such benefits payable under the group policy after the termination of the individual's insurance thereunder, and during the first policy year of such converted policy the benefits payable under the policy may be reduced so that they are not in excess of those that would have been payable had the individual's insurance under the group policy remained in force and effect; nor shall the individual's policy contain an age limit, except that the insurer shall not be required to convert a policy or to continue in force a converted policy which provides coverage to an individual eligible for benefits under the federal social security act. The individual converted policy may include a provision whereby the insurer may request information at any premium due date of the policy of any person covered thereunder as to whether he is then covered by another policy of hospital or surgical expense insurance or hospital service or medical expense indemnity corporation subscriber contract providing similar benefits or is then covered by a group contract or policy providing similar benefits or is then provided with similar benefits, required by any statute or provided by any welfare plan or program. If any such person is so covered or so provided and fails to furnish the details of such coverage when requested, the benefits payable under the converted policy may be based on the hospital, surgical or medical expenses actually incurred after excluding expenses to the extent they are payable under such other coverage or provided under such statute, plan or program.

Adopted.

HB 658, providing for designation and control of critical resource areas and the development of areas of regional impact and making an appropriation therefor. Ought to pass with amendment. (Rep. Greene for Environment and Agriculture)

As amended this legislation requires that towns accept or reject within two years critical area designations proposed after hearings by the local planning board. Detailed criteria and definitions are given for eight possible categories. If a planning board fails to act there is provision for forcing it to do so. Protective regulations must be established for all areas when designated.

A method of controlling extremely large developments is provided through a process which starts with local action and may then go to a state appeal board. While the developments that are classed as "developments of regional impact" are huge, there is a lesser category which either a developer or a town may refer to the state board. In any case the local authority may refer a project directly to the state board if it chooses to do so.

Rep. Greene explained the committee report.

Rep. Mann moved that HB 658 be indefinitely postponed and spoke to his motion.

Reps. Bruce Townsend, Horrigan, O'Neil, Campbell, Woodruff, Leonard Smith, David Bradley and Orcutt spoke against the motion.

RESIGNATION

Dear Mr. Speaker and Members of the House,

It is with deep regret that I must inform you herewith of my resignation from the New Hampshire House of Representatives. I have come to this conclusion after

weighing very heavily all courses of action and primarily that which would best serve the voters of Cheshire, District 12, my constituency.

It is difficult for me to express my deep appreciation, concern and affection for my fellow legislators. I was but a freshman and therefore like a child in the forest. You, however, spoke to me without pressure, only enthusiasm, and you allowed me to make decisions on my own. When I spoke, you listened and gave credence to what I said. For all of this I thank you.

To you women and men of the New Hampshire Legislature is left the future of our citizens and our State. In your trust they have placed their faith. I am sure you are worthy of the task.

It has been truly a privilege and a pleasure to have served with you, if only briefly.

Sincerely,

David L. Gagne

Cheshire, Dist. 12
